She was facilitated with the award at Birla Auditorium, Jaipur on the occasion of Information and technology day for her brilliant work and efforts in second division of the respective department.

Auditorium, Jaipur on the occasion of Information and technology day for her brilliant work and efforts in second division of the respective department.

## Industrial visit by Geetanjali Students

Udaipur: Students of Geetanjali Institute of Pharmacy visited Corporate Channels Private Limited Company under the Industrial Visit Program conducted by Udaipur Chamber of Commerce & Industries and Science & Technology Department, Government of Rajasthan. Students learn about several birth control technologies like manufacturing of Copper T. Associate Professor Rahul Kumar Garg, program coordinator presented memo to Vinod Kumhat, director of the company. Dr Ashok Dashora dean of the college thanked V.P Rathie president of UCCI and Manish Jain, Project officer Govt of Rajasthan for organizing and backing the visit.

## Prof. C. P. Agarwal to be facilitated

Udaipur. Prof. C.P Agarwal, registrar of the JRNU will be facilitated with the distinguished award of 'Star of the Asian' for his respective work in accounts department. Director S.Bari Waris informed that The ceremony will be held by International Business Council in New Delhi.

# Day Care Centre Inaugurated

Udaipur : In association with the Rotary Mewar, a day care centre has been set up in the nephrology ward of the Maharana Bhupal Hospital of the city. "Udaipur has most number of donors in the state. This is why two more satellite hospitals have been sanctioned in Bhuwana and South Extension," said Gulab chand Kataria, the home minister of Rajasthan who was inaugurating the day care centre. Kataria assured that the plot for constructing the veterinary hospital will soon be made available to the MB hospital. The Vet hospital will be transferred elsewhere soon.

Kataria attributed the development in the city to the devoted doctors. He said that a happy patient returns with trust. And any requirement of space, equipments, and facilities is quickly fulfilled by the administration. He said

that the contribution from centre for the super speciality block will come soon. He assured of early Bhoomi Poojan of the same. Praising Hansraj

Chaudhary of Rotary Mewar, the HM said that he is lucky for the things that he decided to take up. Special guest Dr. DP Singh apprised

that the MB Hospital now has become Rajasthan's biggest dialysis centre. This is first such place where dialysis is available on ICU only. On similar lines,

machines have been installed in the Gynae wards of Pannadhay Hospital where the dialysis facility is available in the same ward. Explaining the utility of new day care centre, president of the nefro department Dr. Mukesh Barjatya said that the pendency of patients is over.

Government has contributed 291 lakhs of rupees while the Urban Improvement Trust of Udaipur has given 50 lakhs for the centre. All facilities, infrastructure, and machines are there now. Coordinating the program, Hansraj Chaudhary said that club is providing RO purified water at the rate of one rupee per litre which is being used by thousands of people everyday. President of Rotary club Mewar Mukesh Chaudhary said that the club has been working to server since 2003 and is committed for services.

## 4th Annual Convocation of IIMU held

Udaipur : The Indian Institute of Management Udaipur (IIMU) held its 4th annual convocation on Monday, 21 March, 2016 at the MLSU auditorium, Sukhadia University Campus, Udaipur. Dr. Pankaj R Patel, Chairperson of the Board of Governors of the Institute, and Chairman of Zyodus Cadilla delivered the welcome address. He stated that this batch of students have made the institute proud through their various activities and initiatives in the international arena. He mentioned that this is indeed a special occasion as this is the last convocation ceremony being held at MLSU

campus which is a temporary campus and that the next events will be at the new 300 acre campus.

Mr. RajanBharti Mittal, Vice Chairman and Managing Director of Bharti Enterprises, was the Chief Guest and delivered the convocation address. He congratulated the students on this joyous occasion and urged the passing batch to be sensitive to the society at large. He spoke about the challenges that he had to face during the license raj era and how liberalization has eased up many of those challenges. But he also mentioned that current genera-

tion faces a different set of challenges all together. The current fast paced environment requires managers to think differently and cited examples of a few global startups which did things that were unimaginable a couple of decades ago. He appreciated the college for its unique vision and encouraged the students to be quite involved with the society at large. Prof. Janat Shah, Director of the Institute, delivered the concluding address. He congratulated everyone on the convocation of yet another batch and mentioned that the transformation in students over the last cou-

ple of years is very encouraging. Prof. Shah told how being a manager can give an opportunity to impact many lives and in turn the nation as well and urged the passing batch of students to be on the forefront of this journey.

The occasion was graced by the members of the Board of Governors of the Institute and other dignitaries from Udaipur. A total of 120 graduating students of IIMU's Post Graduate Programme and 10 students of IIMU's Post Graduate Programme for Executives received diploma at this year's convocation.

## "Jeevan Shikhar" - unlimited benefits through one pay off

Udaipur: Life Insurance Corporation of India has been issuing new attractive schemes to its esteemed policy-holders from time to time. This time, the special benefits for selling the policy is being conducted activities to facilitate policyholders. He informed that a target of 10,000 policies and 51 crore premium under this scheme to Udaipur zone.

## Lt. Abhinav Nagori Remembered

Udaipur. Last year, Udaipur lost its beloved son, Lt. Abhinav Nagori, in a plane crash. Lt. Nagori along with his co-pilot Lieutenant Kiran Shekhawat lost his life when their plane crashed in the Arabian Sea last year on 27th March.

In remembrance of Nagori, a candle lighting organized by Father Dharma Chand Nagori, Mother Susheela Devi along with friends and well-wishers. A homage organized Royal harbinger family salutes the brave soul!

## 'Water independency' and 'sanitation campaign' to be new lessons

Udaipur : In the books of class 10 and 12 that are to be changed from next session, the BJP Government will add new chapters regarding the government schemes and campaigns. Education Minister Vasudev Devnani said that the books will have chapters on sanitation campaign, water independency, Bhamashah Aarogya and road safety.

Devnani said in the interview that in water independency, water conservation and water saving methods will be taught

to the children. Similarly, sanitation campaign will be taught. This year, the books of class 11 along with books of class 1 to 8 have been changed. This time it was a big burden on the board examinations, 50 percent of 11th grade books he found changes made. 50 percent of new students in the next year and the rest will have to study the old books. 10th, 11th and 12th as well as the rest of the books will be replaced next year. Each topic will be connected to the Indian scientists and mathematicians.

## 35 Pakistani nationals detained in Jaisalmer

Barmer: Thirty-five Pakistani nationals have been detained for illegally entering Ramdevra district, police said on Saturday. The people have been brought to Jaisalmer and will be interrogated by security agencies.

The Hindu pilgrims from the neighbouring country, including 10 women and five children, had come to India on March 19 with a 20-day religious visa to visit Haridwar and Mathura, but

not for Ramdevra. They were detained after a routine police check-up near the Ramdevra temple on Friday night

During preliminary interrogation the Pak nationals told police they reached Jodhpur on Thursday after visiting Haridwar and Mathura and were scheduled to return to Pakistan on the Thar Express. However, as they had some time they decided to visit the Baba Ramdev Temple, located

around 200- km from Jodhpur, on the advice of their agent.

"The visa period of the Pakistanis has not expired yet. They were detained because they did not have valid permission to visit this area." Jaisalmer superintendent of police Rajeev Prachar said, adding the Pak nationals will be questioned by the joint interrogation committee (JIC) and security agencies on Sunday.

## The Mineral Laboratory

Hritu Sodhi / Udaipur

The mineral Laboratory of Mines and Geology department situated at the central office, Udaipur, is functioning since 1952.

Work of the Laboratory: The main objective to establish this Lab was to analyse and evaluate the quality of the minerals of the State.

Characterisation and evaluation of physio-chemical properties of minerals of the State are being undertaken in this laboratory since four decades. About 5000 mineral samples are analysed and tested in this lab every year, which include the samples from private parties and mine owners etc. The facilities of testing and analysis have been provided on no profit no loss charge basis. Major thrust is on chemical analysis of the following minerals. Limestone, Dolomite, Soapstone, Clays, Base metals (Pb, Zn, Cu ores), Gypsum, Lignite, Tungsten

and Gold bearing materials. Facilities have been generated to analyse gold and silver noble metals by fire assay technique and conducting studies on mineral processing i.e. simple tests and various physical property tests on ceramic minerals and dimensional stones, namely, Marble, Granite, Slate stone and Sand stone.

The test procedures adopted are as per BIS standard. The laboratory is capable of analysing about 42 types of minerals which is a unique facility as compared to other State laboratories in the country. Besides Chemical analysis, special tests namely decrepitation test on Limestone and Dolomite are also undertaken. Regarding testing of fuel minerals, proximate analysis and sulphur estimation of Lignite etc. are also undertaken. Latest Instruments and Equipments: One Chemical and ceramic Engineer, two senior chemists, five Chemists and

twelve Chemical assistants are presently working in this laboratory. The Officers and staff have in-depth knowledge of analysing and testing of all minerals produced in Rajasthan.

Chemist Sakina Paliwala and Assistant Chemist Sharad Sharma gave important information about the Instruments and Equipments of this Laboratory. Chemist Sakina is working in this Lab from past many years.

The Mineral Laboratory consists of two sections. Chemical analysis section and the other one is ceramic and ore dressing section. Chemical analysis, instrumental analysis and fire assay are under taken in Chemical analysis sections. Testing of physical properties of ceramic minerals and dimensional stones, levigation studies, activation characteristics of Bentonite, special tests like decrepitation test and preliminary beneficiation studies are under taken in the other section.

No pilot plant or continuous testing facility is available. This Laboratory is equipped with various instruments for analytical work and physical tests.

Chemical laboratory has Atomic Absorption spectrophotometer, Digital spectrophotometer, Flame photometer, Gloss and Reflectance meter, Bomb Calorimeter, pH meter, Electric Balance, Ionalyzer and Electric Furnace.

Ceramic and Ore dressing Laboratory has Jaw crusher, Roll crusher, Edge runner mill, Vibrating Screen, Raymond mini mill, Pug mill, Ball mill, Pot mill, Pulverizer, Rod mill, Mineral Jigs, Flotation Cells, Sieve Shaker, Wet Sieve Shaker, Universal testing machine, Abrasion testing machine, Compressive strength testing machine, Viscometer, Mini Autoclave, Thermo Gravimetric Analyzer ( T.G.A), Electric Furnace (1400 degree C), Fluid loss testing

## Petrological Laboratory

The department's Petrological Laboratory is to generate basic information with regards to the identification and characterisation of minerals. The Laboratory is equipped with high precision NU-2 microscope and sophisticated section cutting machine ( Logitech) and other various microscopes and related equipments. The Laboratory is headed by Petrologist. Facilities are available to the mine owners and private parties for ore microscopic study and thin section study in this laboratory. The Laboratory has all the features which make this unique in our country.

apparatus and Davis Tube ( Magnetic Separator), High Intensity Magnetic Chute.

## Equipped with unique and high quality features
