Keep it cool like Dhoni

More than being a game of uncertainty, cricket it is all about presence of mind. A batsman has to shift gears and make a shot selection for optimum score only after the bowler has released the ball. And the time they get in a fraction of seconds. Similarly the bowler has to adjust at the last moment—sometime at the time of jumping to hurl the bowl—to follow the batsman. This is all about presence of mind, isn't it?

So, apart from enjoying the game, you should take best lessons from this game which is undoubtedly is the most popular one in India.

What MS Dhoni did on the last ball against recently held contest between

India and Bangladesh was a great example of intelligence. We all are intelligent and we have that capability to prove it at times. But we keep it covered or blocked with the cloud of fear, anxiety, or emotional expression.

What MS Dhoni teaches you is being cool and calm in most difficult situation. When you react calmly to a difficult problem, it comes easier and becomes clearly visible. When you can see the problem clearly and properly, you know what exactly needs to be done to avert any damage. You can take an evasive action.

Recall when you drive on a road any day and you adjust your brakes and acceleration because you can see where exactly other vehicles are. You can even avoid a mistake done by another car on the road. But same you feel helpless when it's a dense fog around.

The fog is equivalent to your emotions that come out to block your thought process and decision making abilities. All you need to do is remember how MS Dhoni looks when he is under extreme pressure.

In that last match, he removed his right glove so that he could throw the ball at stumps. He did that to save time. He knew that albeit the Bangladeshis are in driver's seat, there is a pressure at the stage. And whoever could control emotions and shed that fog will have a clearer picture and thus will be able to act properly. It's not that Dhoni does not feel the pressure or has no fear of failure. In India, losing to a nation like Pakistan or Bangladesh is nothing less than a crime but at that moment if Dhoni would recall the repercussions of losing, he would have not been able to show the presence of mind he displayed.

In that grave situation, he ensured that he hits the stumps himself instead of hurling the ball. Throwing the ball would have been an easier way out and most wicket keepers would have done that only but he did not take chances and ran towards the stumps. The non-strikers was obviously in the run mode and had covered couple of meters already when Dhoni begun running after ensuring that he had ball in his hands. He also was standing much farther than the non-striker batsman so Dhoni not only had to beat the non-strikers by speed, but he also had to beat him by distance. Both the factors were in favor of batsman but still Dhoni calculated everything and took his chances to win. Dhoni could only do this because he had a calm mind. He was cool and was able to take his decision with open mind. This is what exactly we need to learn from him. The first reaction of panic is natural but if you tell your brain to shut and be calm, you will have a better view of the situation. And you will be able to take right decision.

Nisha Mavani makes her debut with Hindi film Club Dancer

Tu Kheech meri photo : The selfie anthem of youth

Akasa Singh, born and brought up in Mumbai, hails from a musical family. Father Arvinder Singh is a singer and music director. Since the age of 12 Akasa has been on stage performing for various colleges, as singer, anchor and entertainer. At 17, Akasa joined famous Bollywood singer Mika Singh's band as the lead female vocalist. For four years after, she performed with him and his band all over the globe—India as well as International audiences in USA, UK, Canada, Australia, Russia, Switzerland etc. to name a few.

Akasa is known for her upbeat and entertaining performances and for stirring up a fun and lively atmosphere amongst the audi-

ence. She gained internet popularity from her video "Brown rang" on YouTube, that garnered a lot of views and also got the attention of Yo Yo Honey Singh who chose her to be amongst the top 10 of reality show Indias Rawstar. However, since due to prior commitments and gigs, Akasa could not enter the show, she later entered the famous reality show INDIAS RAWSTAR as wild card, where in she challenged 7 boys being the only girl.

She won many hearts with her versatile performances—rapping, dancing, singing and making the viewers groove with her. She is one of the Top 5 artistes of RAWSTAR and the only girl. Her then

Mentor on the show Himesh Reshammiya was mighty impressed with her and promised her a movie song on national television.

True to his promise, post RAWSTAR, he gave Akasa her first Bollywood break with Tu Kheech Meri Photo in the movie Sanam Teri Kasam. The song went on to become the selfie anthem of the year and caught public interest aplenty. Akasa's fresh voice has garnered a lot of attention of music directors and she has since been approached by music directors like Pritam, Sachin-Jigar, etc. Akasa's YouTube covers of songs like Judaai and Jugni ji gained a lot of popularity on social media.

Vodafone Supernet 4G Now Available in Navi Mumbai

Vodafone India, announced the expansion of its next generation, high speed SuperNet 4G network to the residential and business corridors of Navi Mumbai, across Vashi, Kopar Khairane, Airoli, Nerul, Belapur & Kharghar.

On Feb 10, Vodafone had commenced the roll-out of its 4G services in Mumbai and since then has been gradually expanding its coverage across the entire city in a phased manner. The roll-out will be completed across all parts of Mumbai including the Eastern suburbs & New Mumbai license areas by end March 2016. Besides Mumbai, Vodafone 4G services are already present in Kerala, Karnataka, Kolkata and Delhi & NCR. Built on the efficient 1800 MHz band, this state-of-the-art network will enable Vodafone 4G customers to access internet via mobile with speeds across a range of smart devices including Mobile Wi-Fi & dongles. Vodafone 4G services can be readily accessed from 4G enabled handsets.

Vodafone 4G will significantly enhance the mobile internet experience for customers with faster download/upload of videos and music, seamless video chats and will also facilitate greater ease in using their favorite apps. Customers will also adore features like high def-

inition video streaming, mobile gaming and two-way video calling.

Vodafone's 4G service in Navi Mumbai is built on a strong fibre backbone of 100G, and is supported by its superfast 3G services on a new and modern network. With this launch, Vodafone is now uniquely positioned to offer in Mumbai, 2G/3G/4G services on its own state of the art, convergent radio technology. Leveraging its global network and experience, Vodafone is also the first and only telecom service provider to currently offer international roaming on 4G to its India customers visiting Ireland, New Zealand, Czech Republic, Greece, South Africa, Albania, Hungary, Italy, Portugal, UK, Germany, Romania, Spain and Netherlands with many more countries to be launched in coming weeks.

Announcing the expansion of

Vodafone SuperNet™ 4G service in Navi Mumbai, Ishmeet Singh, Business Head - Mumbai, Vodafone India said, "Mumbai is a strong leadership market for Vodafone India with data contributing around 30% of total revenues. We are proud and delighted to bring our 4G services to Navi Mumbai which constitute over xx% of our customer base. 4G has the potential to revolutionize the mobile experience through powerful innovation that impacts how we work and live. With this launch, majority of Mumbai is covered by Vodafone SuperNet 4G and we expect to achieve complete coverage by end March 2016. Vodafone 4G services are present in 5 circles of Kerala, Karnataka, Mumbai, Delhi & NCR and Kolkata, which today contribute close to 50% of Vodafone India data revenues.

Vedanta wins accolades at the 55th ABCI awards

Udaipur : Vedanta Limited, India's only diversified natural resources company won the Association of Business Communicators of India (ABCI) 'Silver Award' in the 'in-house newsletter' category for 'VEDANSH', the newsletter of its Jharsuguda operations. Vedanta's subsidiary BALCO's publication 'BALCO Today' was conferred with ABCI's 'Bronze Award' in the 'e-newsletter category'. The awards were bestowed at the 55th Annual Awards Contest, last week, as a recognition for the publications' quality, concept and content.

"At Vedanta, our proactive internal communication aims at empowering our global team to drive excellence and innovation, demonstrate world-class standards of governance, safety, sustainability and social responsibility. I am delighted that Vedanta has been recognized and commend both teams for their efforts," said Ms. Roma

Balwani, President, Group Communications, Sustainability & CSR.

VEDANSH is published quarterly and serves to disseminate interesting and informative facts about Vedanta's work culture, employee engagement, volunteerism and CSR initiatives as well as the company's achievements. It transparently and proactively engages with the core strength of the organization, which is its human resource. BALCO Today, a daily internal e-mailer is circulated with the purpose of informing, inspiring and integrating the BALCO employees as one team with one purpose.

The ABCI is the oldest and largest of communication body in India. Its annual contests attract keen competition. This year, over 120 organizations representing private sector companies, PSUs and communication agencies had submitted a total of 1425 entries.

Udaipur's TRUCK DRIVER Bhag Chand, created history Indian motorsports

Udaipur : Rajasthan truck driver Bhag Chand, created Indian motorsports history, with race wins in the third edition of the T1 PRIMA TRUCK RACING CHAMPIONSHIP 2016. Having won under the SUPER CLASS CATEGORY organized for Indian Truck drivers, Bhag Chand finished in the 2nd place in the second race of the Super Class Category.

With an aim of becoming successful and capable of taking care of his family, Bhag Chand at 34 years of age is employed with Laxmi Road Carrier, and hails from Guwandi Po-Ludpura. Bhag Chand's hobby is quite simple - 'Driving'. Having being selected from

a pool of over 550 drivers, from Tata Motors customers fleet businesses, Bhag Chand was selected under one of the country's most comprehensive driver training and selection programs - the T1 RACER PROGRAM. All drivers as part of this

program were trained by some of the best race instructors in India, roped in by MOMA Motorsports Management team, over a period of three months, led by Vicky Chandok, Former President of FMSCI.

Season 3 of the T1 Prima Truck Racing Championship attracted crowds of over 50,000 people, with the 'Heroes of the Highways' taking home the highest prize money ever, for an Indian motorsports event - Rs. 10 lakhs being awarded to each of the first place winners, of the two SUPER CLASS category races, and Rs. 6 lakhs and 4 lakhs being awarded to the first and second runners up respectively.

Light armored multipurpose vehicle program by Ashok Leyland

Chennai : Ashok Leyland Defense Systems (ALDS), has selected U.S. global security and aerospace company Lockheed Martin, for pursuit of its Indian Armed Forces Light Specialist Vehicle (LSV) and Light Armored Multipurpose (LAM) vehicle programs.

Lockheed Martin's High Mobility Vehicle or Common Vehicle Next Generation (CVNG) will provide the base platform for this development effort. With the Indian Armed Forces looking to rapidly modernize their protected wheeled vehicle fleet, there could be numerous additional opportunities for this development effort

beyond the LSV and LAM programs.

Ashok Leyland, flagship of the Hinduja, will serve as the prime contractor, and provide a high-quality, cost effective manufacturing hub for global requirements of these vehicles and variants. As a licensed manufacturer of the CVNG, this opens up a huge opportunity for ALDS to globally export this vehicle platform and its variants as a "Made in India" product.

Speaking on the occasion, Mr. Vinod K. Dasari, Managing Director of Ashok Leyland, said, "As the largest provider of logis-

tics vehicles to the Indian Army, Ashok Leyland has a strong portfolio in the defense sector. This partnership will not just further India's ambitions under the 'Make in India' program, but help us provide robust and meaningful solutions to armed forces across new domains and geographies. We are buoyant about the defense segment, and expect our play to increase manifold."

Scott Greene, Vice President of Ground Vehicles for Lockheed Martin Missiles and Fire Control, said, "Our CVNG is a proven and versatile multi-terrain vehicle currently in service around the world.

We are excited about the opportunities that exist to offer the CVNG to India and beyond."

Marking the occasion, Nitin Seth, President LCV and Defence at Ashok Leyland, said, "We are happy to be working with a major defense company like Lockheed Martin on this development. A combination of their technical expertise and our proven vehicle platforms, will enable us to offer versatile solutions to armed forces across segments."

Ashok Leyland is one of the country's largest commercial vehicle manufacturers and a long-standing supplier of mobility solu-

tions to the Indian Army. With a host of proven products currently in service with the Indian Army, the company is continuously looking to expand its portfolio into areas of need for the Indian Armed Forces.

Lockheed Martin is one of the world's premier global security and aerospace companies that - with the addition of Sikorsky - employs approximately 126,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services.
