Rajnath Singh to arrive in Udaipur

Udaipur: Home Minister Rajnath Singh is scheduled to arrive at Udaipur on 7th June. & will stay for two days to attend several functions. Organized at Rajsamand and Udaipur.

Additional District Collector O.P Bunkar informed that HM will arrive at Dabok Airport on 7th June and will depart go to Gogunda by BSF Helicopter. Singh will Unveil the statue of Maharana Pratap and inaugurate Krishi Mandi.

After instigating the construction work of Eklavya Hostel ,will proceed to Haldighati to visit Pratap Museum. Later he will attend a cultural function in Sema Village and at night he will reach Udaipur Circuit House for rest.

On 8th June Home Minister Singh will visit Khel Gaon and begin the work of Indoor Stadium. Then minister will proceed to Dabok Airport and will depart to Delhi by BSF aircraft, informed additional collector.

Khel Gaon village will light up with solar energy

Udaipur: The installation of solar power plant in Maharana Pratap Khel Gaon has been completed. The plant with a capacity of 50 kW to 250 units per day will be produced. Soon the village and its premises will be lighted using solar energy.

At the Village handball, kho-kho, volleyball fields have been completed. Employees of Khel Gaon say that from July 1 clay court training and practice activities will be initiated. The players will get a free practice facility.

Students-staff attendance now through biometric

Udaipur: Government Girls Higher Secondary School in the city Bhopalpur biometric system has been introduced to take daily attendance. The first phase of the system is being introduced in girls' schools. A thumb impression machine has been installed, the child goes to school in the machine, including the entire staff must find her thumb, will be considered only if their attendance.

Student at the school for more than two or three days will have to contact his parents. This address will arrive at the scheduled time and late arrivals would be put on the punctual. Then the system will be launched in other public schools. Under the preparation of all the girls and the staff has had fingerprint registration. June 21 will start in the school system and duly record attendance each week will see the District Education Officer. Biometric System object that children with the education department of higher education to girls and not to leave any school. After some gap from school to regular school because girls cannot. In this regard the principal institution concerned must be answerable.

Our city is our responsibility - Sunil Duggal

Udaipur: On the World Environment Day, the company's chief executive Sunil Duggal, chief financial officer Amitabh Gupta, chief commercial officer Ramakrishnan and employees saplings and fruit-bearing plants distributed to the Zinc park residents. Vehicles for Pollution control were examined. All the high officials of the company administered the oath of awareness. CEO Sunil Duggal said, we should personally contribute to environmental protection. Protection of the environment is the responsibility of us all. This city belongs to us and is our responsibility. On the occasion of the company Quiz contest, poster, essay competitions organized and the winners were awarded prizes by the chief guest.

Pavan Kaushik, Head of Corporate Communication, said Hindustan Zinc is working for energy conservation & technology has been continued by the operation. The company premises environment, protection and security is always determined. Taking into account environmental protection in all company units, filled with ultra-modern technology, all units currently engaged in more than one plant is about 13 million.

Chugging to go Green

Udaipur: World Environment day was celebrated by Ajmer division's officers and staff by organising in cycle rally on 5th June in which more than 100 volunteers including scouts and guides participated. The rally was flagged off by Divisional Railway Manager Sh. Puneet Chawla, from Ajmer Railway Station to DRM office with a motto "Go Wild For Life". On this Occasion, 50 numbers of plants were also planted at GLO ground. This was arranged to create awareness among the railway staff in particular and citizen of Ajmer city in general.

The Ajmer division of North Western Railway is set to go green as it will harness solar power to minimise dependence on conventional energy, do plantations and develop green walls at various stations. This is in the pursuance to reduce conventional energy use by using more renewable energy resources and provide clean and hygienic environment to passenger. Ajmer division has taken exemplary initiative in the use of Solar energy. Solar PV Power Plants of capacity 4X10 kWp at Ajmer and 2x10 kWp at Udaipur Station have already been commissioned in February 2015.

Talking to Media person after the rally and tree plantation, Divisional Railway Manager Puneet Chawla, told that this financial year an ambitious target has been kept to achieve installation of solar plants of more than 750 kWp over the division. 200 kWp solar power plants will be installed in DRM's office Ajmer

& Zonal Training Institute, Udaipur. In addition the existing solar plants at Ajmer and Udaipur will be enhanced to 140 kWp and 70 kWp respectively. Further at major station i.e. Marwar Junction, Rani, Falna and Ranapratap Nagar Stations, Aburoad and Bhiwarra of the division solar plants totalling 360 kWp are targeted to be installed. Thus Ajmer division will install more than 750 kWp solar power plants in this financial year 2016-17. The life expectancy of these Solar Panels is 25 years and these Solar Plants will generate approximately 15.94 lacs units per year. It will not only result in total saving of more than one crore in one year but also result in reduction in divisional carbon footprint by 1453 ton. Gang Quarters in Mavli- Marwar MG section and Udaipur-Himatnagar were

non electrified since their construction about 100 years ago because of non-availability of Discom power supply in the near vicinity. Initiative was taken to provide electric supply through solar and 24 quarters in Mavli- Marwar MG section have been electrified through solar power system. Further, the work of Solar PV modules with battery back-up at 16 Level Crossing gates will also be completed during this Financial year. Around 15,000 numbers LED lamps of 07 watt have been distributed among 2000 employees under Domestic Efficient Lighting (DEL) scheme of Ministry of Power over the division. It has resulted into saving of 1.57 lacs unit per year thus saving of 10.96 lacs rupees (approx). Further, LED fittings are being provided at various location i.e. Running room, Retiring room, TTE

restroom, DRM Office, Pit lights, Street lights etc. The work of Replacement of existing Tube light & light fittings by energy efficient LED fittings will be completed during this financial year at Ajmer and 5 other A class stations and one Railway Colony at Ajmer. This will result in an annum saving of around Rs 20 lacs (approx). Ajmer Division is running total 244 Bio toilets in coaches. This has provided a clean and hygienic environment on platforms and working place of coach washing. It is planned to run Ajmer Haridwar, Ajmer Amritsar and Ajmer Bandra trains complete on Bio toilets fitted coaches. As per NGT guidelines MOU have been signed with 07 Municipal Corporation/Councils including Ajmer and Udaipur for disposal of Municipal

solid waste from station premises to keep the premises clean and hygienic. Memorandum of Undertaking has also been executed recently for development of a clean and green Abu Road station with Brahama Kumaries. Separate dustbins for Bio-degradable and Non-biodegradable waste are being provided at major stations for segregation of waste and its further disposal.

In other Green initiatives, in Abu road diesel trainee hostel a Geo thermal energy cooling system is planned to be installed. One water treatment plant of 4 lac litre capacity will be commissioned at Ajmer. Washing of rakes will be done by this Re-cycled water. One bio-toilet is commissioned at Udaipur to cater Running room discharge. The effluent water is being used for watering of tree/plants.

In coming monsoon of year 2016, Division shall plant 1 lac plants and will also sign a MOU with Forest Department. A vertical green wall has been provided at Udaipur railway station and similar one are being planned at Ajmer and Aburoad station.

Further Electronic charting has been introduced at Ajmer recently thereby doing away paper reservation charts and will be further installed at 4-5 stations. Work of Railway Electrification of Ajmer Palanpur section has already started and in Ajmer Udaipur section will be taken up shortly. This will go long way in reducing pollution by eliminating Diesel locomotives in this route.

Vivek Patni honored

Udaipur: Mr. Vivek Patni, Director, Wonder Cement, awarded as "Emerging Leader" for his outstanding contribution in taking the company to great heights at "World Today Business Conclave" held at Abu Dhabi early this week.

"World Today Business Conclave - IMEA: The New Superpower" is a thought-provoking platform for ideation from across the continent. Better placement, qualitative education and , innovation In education will be his priority. He was rewarded his second term on his excellent services and dragging out university from various lacunas. Before assuming office he paid tribute by offering garland to the founder of Vidyapeeth Janardhan Rai Nagar.

New policy to benefit women, third gender

Jajpur: The Rajasthan higher education department has asked all the government and private universities to incorporate changes in their admission policy to benefit females and transgenders. The government's move is a part of its goal of socially inclusive approach towards higher education. To increase female representation in co-ed colleges, 3% bonus marks will be given to them during admission, the government circular said. For graduation, no candidate is allowed to take admission if there is a gap of more than two years after the qualifying examination. But, this provision has been relaxed for female candidates. Transgender can get admis-

sion on the minimum passing grade and over and above the allotted seats. A proclamation by the candidate regarding his/ her gender should suffice as a basis for his/her admission, the circular said. Pushpa, the state coordinator of LGBT (lesbian, gay, bisexual, and transgendered) community, says the transgender should first get held at school levels. "They (transgender) can only seek admission under male or female category in schools. If we are not helped at school level, how can we avail opportunities at colleges?" she asked. On April 15, 2014, the Supreme Court passed a verdict recognising transgenders as the 'third gender'.

Dr Vajpayee's smart technology praised by neurologists worldwide

Udaipur: Pacific Medical College & Hospital and Head of the Department of Neurology of the European Academy of Neurology by Dr Atulabh Vajpayee in Copenhagen, Denmark from May 28 to May 31 took part in the second conference. Dr Vajpayee gave a presentation on the latest technology in Interventional Neurology. He neurologist on the theme of the double micro-catheter assistant coiling introduced this technology. Dr Vajpayee of PMCH was the only neurologist from the state who presented a paper. Dr Vajpayee said that the technology developed in Udaipur, the patient treatment expens-

es can be reduced by a quarter. Through this technique, the patients' blood vessel in the brain paralysis by this technology to become a big mouth in the balloons (Wide Neck Aneurism) with double micro-catheter coiling will be done to the paralyzed patients so that in the future can be protected from the risk of brain hemorrhage. Complete treatment for mental patients under one roof: Chairman PCMH, Rahul Agarwal informed that Pacific Centre of Neuro Sciences is one such centre where under one roof a whole neuro team is engaged with mental patients. In this team, Dr Atulabh Vajpayee, Dr

Narendramal, Dr Ramakant, Dr Prashant Singh, Dr Pankaj Gandhi etc. are involved. In the coming days, Pacific Medical College and Hospital, a million square feet area will have a new Neuro Centre in the newly constructed building in the area will be conducted. Along with it, the residents of Madhya Pradesh, Gujarat, will also be benefited.

On this occasion, Vice Chancellor Pacific Medical University Dr DP Agrawal, on behalf of the University committed to research and latest medical methods.
