When you've got the Power

Life's all about how you react to a certain action of nature. If you take a sorrow very seriously, it will leave you in blues. And your strong and positive attitude gives you a way to tackle the thing more comprehensively. Someone to whom you loved the most dumped you for no specific reason. Now your reaction to this will decide how your heart will take that. But going against the obvious is really difficult. And something called your inner-self does not respond your call to go against the situation to fight it out. This makes it all the more difficult as you have to fight the situation as well as drag your inner-self in opposite direction.

But this is all about countering the life's action. And life acts based upon our own past actions. Today you are sad and feeling low. And you want the other people to act carefully and sympathetically towards you.

Editorial

And most of the people you hope for a help turn their backs towards you. Why?

They are normal and power-

ful today. Unlike you who has been broken down with the hit of the circumstances.

Now, recall the time when you were on the other side and someone else was in place where you are at the moment. How did you react? Were you same as you are hoping people to be with you today? Probably not!

Yes, Life's all about reacting on certain situations. When you are powerful, you do not get a license to act loosely, instead, you have to be very responsible and humble if nothing else. The power given to you by nature is a test and most of us fail because we forget that the lie is a circle and we have to be in the shoes of those powerless at the moment sooner or later. So your good deeds is a sort of insurance that when you will be in that bad patch of your life, people will react positively and humbly to you. But remember, you can never avoid that bad patch. Life is a circle and it keeps moving in front of situations. At times it is facing the Sun and black dark on the other.

So, if you are a boss, understand the needs of your employees for in your bad times, someone else will be your boss and then you will seek sympathy. And you will get what you had given earlier.

Supriya Mukherji at Miss India 2016 get together

Khooshi Gurubhai Thakkar and Yogesh Lakhani of Bright outdoor invited Srinivas Rao Bhagavatula of 'People's Engineering' and Supriya Mukherji for audition of Bright Perfect Miss India 2016 in Mumbai. Enroute Reewa ! turning dreams into reality

Roop Kumar Rathod and Sunali Rathod are proud parents, an only child and most precious daughter is creating name and recognition for herself following the footsteps of her musical family lineage. Reewa Rathod, now rejoices the inclusion of her new song, Enroute Ganesh, in the 20th anniversary compilation of the world renowned Buddha Bar Lounge music. With pride and humility Reewa's parents speak of their delight on this milestone, achieved due to her unwavering focus and dedication to the art of music.

"I am blessed to have grown up around music and the creation of melodies that touch the souls and hearts of people worldwide. I endeavour to and will work relentlessly towards creating music and enhancing this art form across international borders. We live today in a world where boundaries only exist in the mind. I want a meeting of minds and music working with international music artists. I am thrilled that my new song has found a place on the international music platform and is receiving a great response," says Reewa.

Reewa as a child began singing and learning to play the piano at the age of 5, she wrote and composed her first song at the tender age of 9. "Shanti Sheldon was my esteemed Piano teacher and I completed all 8 grades from the Royal School of London with distinction. My father was extremely supportive of my passion and yet maintained a strict oversight when it came to practice or riyaz. Both my parents have always wanted the best for me and from me," recalls Reewa.

Apart from Piano, Reewa also learnt Carnatic vocal music from the world renowned Smt. Balamni Iyer and Prasanna Varrier. Reewa observed and learnt the intricacies of Hindustani classical music from Padmabhusan Pandit Rajan and Sajjan Mishra ji. Reewa idolizes singer Hari Haran and has the good fortune of taking periodical guidance from him whilst also accompanying him on some of his musical tours. "I am a composer and singer, which is reflective of the current international musical trend. Although, to be able to sing another composers song is a privilege - it means bringing to life someone else's musical intent" clarifies Reewa. Reewa has already composed and sung for critically acclaimed actor Nandita Das's Spanish Film Rastres De Sandal also starring Aina Clotet.

Well, the artist has just begun her journey and there is yet some way to go, but her passion, maturity and confidence will deliver the anticipated results. We wish her the best of luck.

Made In India 'Datamail' Empowers Russia With Email Address In Russian Language

Moscow: Recently announced Indian linguistic email address service solution provider DataMail has made a remarkable achievement of bringing a revolutionary change in the life of webusers and smart-

phone users in Russia. Indian Tech Innovator, Dr. Ajay Data, Founder and CEO of Data XGen has partnered with a Russian domain registry company and formed a joint venture (JV) called POST.RUS.

The announcement of this JV with Webnames Limited (Russian) and Data XGen Technologies (Indian) company was made at a press conference organised in Moscow today. DataMail Bharat creat-

ed history when it was launched recently in India to provide email address services in 8 Indian languages. This technology solution was what Webnames Limited of Russia was looking for since the past 13 years as they were trying to innovate the 'Russian Email Address' to replace English with Russian. With this joint venture, (POST.RUS), over 140 million Russians will be empowered to use the 'Made in India' technology for Russian language email addresses on web and smartphones for free. Dr. Ajay Data, Founder and CEO of Data XGen Technologies said, "India has taken a lead to build linguistic email address technology which can be used globally. I am proud to say that India has innovated the linguistic email

address which can be now offered to non-English spoken populations of the world. Post this launch of Russian language email address service, we will be soon entering into other countries too so as to enable billions of non-English people to join the world wide Internet by simply removing the language barrier."

The launch of free Russian language email address service, LLC (POST.RUS), in Moscow was graced by the presence of Internet Ombudsman of the Russian Federation - Dmitri Marichev; ICANN Vice President for Eastern Europe and Central Asia - Mikhail Yakushev; Director of the Association of Internet of Things - Andrei V. Kolesnikov; Director REG.RU - Koroljuk Alexei Nikolayevich;

CEO of Data Xgen Technologies - Dr. Ajay Data (India), Director Rusnames Ltd - Sozonov Alexei Alexandrovich; and Director of Webnames Limited - Sharikov Sergey Nikolaevich. Mr. Alexei Sozonov, Director of Webnames LLC and CEO of newly formed joint venture LLC (POST.RUS), said, "Being a pioneering company for IDN Web Addresses names in Russia, we are thrilled to create history in Russia by offering domains and email address service in our own language. It was Russia's dream since last 13 years and today with the help of an Indian innovator, Dr. Ajay Data, we will be fulfilling our country's dream by launching (POST.RUS) which will surely empower the Russian population."

Disney Launches Online Coding Event

Udaipur: Disney today launched "Moana: Wayfinding with Code," a free online tutorial that offers an introduction to the basics of computer science, featuring characters from the upcoming Disney animated film, Moana. In conjunction with the launch of "Moana: Way finding with Code," Disney also announced activations across the world that invite millions of students to learn the basics of coding. This program is extended to India as well, powered by NEXT EDUCATION, who will take this tutorial to over 700 schools across Rajasthan, Gujarat & Maharashtra.

"Storytelling combined with technology is one of the most powerful tools that a child can access today and our objective of introducing the Hour of Code to the students of India, is to imbibe technological skills at an early age that they will need to bring their stories to

life. The beauty of the program is its simplicity and we hope it will inspire kids to try coding for themselves. Through this initiative, we hope to reach out to a million students in India," said Sameer Ganapathy, VP & Head, Interactive, Disney India.

Created in close collaboration with Code.org, the "Moana: Wayfinding with Code" tutorial will be available in more than 180 countries and 23 languages, including Samoan Polynesian, giving children all over the world the opportunity to learn the basics of coding. Over the past two years, Disney has hosted two Hour of Code tutorials, featuring characters from Disney's Frozen and from Star Wars. In total, almost 40 million students have participated in these tutorials to learn the basics of coding.

Airtel offers free voice calls to anywhere in India

Udaipur: Bharti Airtel Limited ("Airtel"), India's largest telecommunications services provider, today launched two new bundled packs for its prepaid customers with free voice calling and substantial data benefits. These two packs add to Airtel's wide bouquet of innovative packs and plans for customers, offering them more flexibility.

Rs. 148 pack - Priced at Rs 148, the pack offers 300 MB data to customers with 4G ready mobile phones along with free Local and STD Airtel-to-Airtel calls. The pack will offer 50 MB data (in addition to free Airtel-to-Airtel calls across India) to customers with basic mobile phones, which are ideally suited for web surfing and accessing light social media applications. The pack has a validity of 28 days and is available to customers across India.

Rs. 348 pack - Priced at Rs 348, the pack offers 1 GB data to customers with 4G ready mobile phones along with free calls - Local and STD - to any network in India. The pack will offer 50 MB data (in addition to free calls to any network across India) to customers with basic mobile phones, which are ideally suited for web surfing and accessing light social media applications. The pack has a validity of 28 days and is available to customers across India.

Both packs offer an affordable option to customers to stay connected at all times and provide sufficient data to stay online through the month. Airtel has also been consistently rated as the fastest 4G network in the country. Ajai Puri, Director - Market Operations (India & South Asia), Bharti Airtel said, "This is another initiative from us to bring innovative bundle offers to our customers in line with our endeavour to provide the great value backed by a superior network experience." Airtel is the largest mobile operator in the country with over 260 million mobile customers. It offers 2G, 3G services in all 22 circles and 4G services in 21 circles. Airtel's mobile network covers 96% of India's population.

Success Stories' to air on Zee Business

Mumbai: Shekhar Suman had attained even greater share of fame long ago with his iconic show Movers & Shakers than even what Kapil Sharma has attained with his show now. Shekhar Suman is now all set to stage his grand comeback on TV with the new show 'Success Stories' produced by Water Entertainment by Gurdev Aneja and directed by Varun Middha. The new show which will have duration of half an hour will air on every Sunday from January onwards on Zee Business. Producer Gurdev Aneja had earlier made a film called Ebn-E-Batuta which was also directed by Varun Middha. Both Gurdev and Varun are friends who hail from Haryana and know each other for a long period of time. The sponsor of the

show is www.bollywoodkart.com and Mithilesh is the writer of the show. Says Director Varun about the show, "It is a different kind of a show about people who have made it big in their own respective field without having any background whatsoever, on their own steam and merit. It will feature them on the show and Shekhar will talk to them about their happiness, sadness and experience and the listeners can learn a lot from these successful stories and get inspired to become successful like them. The show will feature successful people from different fields like Films, Real Estate, IT or Education, etc." "There is no one who can beat Shekhar Suman as far as hosting a show. Shekhar and I have done a lot of shows on stage

together. Shekhar knows what to talk and when and to whom. We needed someone like him to host the show as he is a multi talented all round actor on his own right," says Gurdev Aneja. The shooting of different episodes of the show Success Stories is being held at Madh Island, Malad

(West), Mumbai in a bungalow on huge sets specially made for the show. Till date, noted personalities like Pahalaj Nihalani, who is the Chairman of the Central Board of Film certifications, popular director of comedy films David Dhawan and popular villain Sonu Sood have shot for the show.

Prabha Devi finds her home back due to efforts by Raj Mahajan

Delhi-NCR: People often say that we should come forward to help the needy people. The society too wants to help such people. But the news that we are sharing today is not just a news, but is an Inspirational message for us. This inspirational story is about Raj Mahajan, who in this busy and chaotic Delhi NCR helped save a life.

Raj Mahajan, popular Musician and Chairman of Moxx Music Company has a busy schedule generally but loves to spend time with children. Musician Raj Mahajan, with his kids was on an outing on 6th November. He then noticed that an old aged lady of around 65-70 years was wandering hopelessly around the red light. At the same time, Raj's children shared her video through Facebook live streaming and appealed people to identify the lady.

Then Raj took help from his neighbours who were from hilly areas, so that the lady's language could be deciphered. Now it was clear that she was a Garhwali. Raj's neighbour tried to interact her in Garhwali language, but because of her mental illness and inability to speak properly, all seemed to be in vain. Raj said, "Where there is a will there's a way, this popular quote just crossed my mind upon hearing this. My mind was filled with hope, a hope to let a lost woman meet her family, a hope to let a lost mother meet her children, a hope to bring a small change in the society.

Panasonic to Expand Appliances Business in India

Udaipur: Panasonic Corporation today announced that it will start the local production of refrigerators and strengthen its R&D functions. The company aims to expand its appliances business in India by accelerating the localizing, production and sales activities to develop products that match the local needs.

Panasonic started local production with rice cookers from 1990, TVs from 1996 and air conditioners from 2013 to address the growing demand in the market. Keeping in mind the rising demand for value-added refrigerators, the new factory has been set with an investment of Rs 115 crores at Technopark, Jhajjar, Haryana and will be operational starting November 2017. With an annual production capacity of approx.

500,000 units the new plant will be spread across 14,000 sq. metres and will manufacture refrigerators comprising of unique features such as energy-saving, long-lasting freshness and design.

Sales for the same will commence from April 2018 in India. Panasonic will also establish the India R&D Center in Appliances Company India consisting of two technical divisions to accelerate the product development and to realize locally fit products. It will strengthen the Design Division targeting the complete local product development process in India. The company will establish the design division in Bangalore in April 2017 in partnership with Tata Elxsi. Through this division it will develop technologies such as artificial intelligence and robotics applicable to appliance products not only for India but also for Japan and global markets.
