

By the way : Drive Safely to Live Happily

Rahul took his father's car and went for a drive with his girl friend early in the morning. His parents were not aware of his programme. Rahul has just completed 20 years and started driving. It has become a passion for him now.

Late night parties, movies, fun with friends are his favourite time pass. Rahul's girl friend Shona belongs to a reputed family of doctors. Both of them left house around 5.30 in the morning.

Rahul's father's mobile rang. It was the worst thing for a father to hear about his son. Rahul was no more.

He lost control over his car and his body was found dead in a pool of blood inside his car. His girl friend is critical, not in her senses to describe the facts.

Does this story remind you of anything?

I think it is every single family's story who has recently lost a young child in road accident.

Road accident's are increasing day by day. I can't give any particular reason for this abnormal increase. Sometimes bad luck follows that person or may be victim's own mistake leads to the tragic end. In any case, parents loose their children unexpectedly. Young children don't listen to the safety measures given by their parents. They drink and drive which increases the risk of road accident.

My friend's friend Manoj was going to attend some function in his home town. His speed was 120 km per hour. It was raining heavily that morning. Manoj's car was found almost crushed and his body was clenched between power steering and driving seat. Manoj's mother could not bear this and passed away.

Can anyone teach us to drive safely on roads?

Mostly people drive in hurry as if they have to save mankind. I don't understand the reason of this hurry. I have noticed that youth don't follow safety rules. No matter how much we try to make them learn, they find it most exciting to break the rules.

Its not fun actually. Dead bodies can't talk or see the pain of their parents and loved ones. Its impossible to return to your bodies and start reviving again.

I request my young readers to at least visit one victim's home after his death.

It will help you to understand the pain of your parents which they are under going. Fast and rash driving is more dangerous when you take lives of others in fervor.

Drinking while driving is banned in India. But young people drive even after consuming full bottle without realising the risk.

I think we should take some step to stop this forever. We all know that prevention is better than cure. Young children should be taught in a different way.

They should be encouraged to visit emergency wards of hospitals frequently with family members. They can look after the victims of road accidents. This may change their way of thinking.

At young age children do just the opposite of what they have been taught by their parents. Practical knowledge can make them realise the severity of accidents.

Parents must keep an eye on their children's activities. They must not encourage them to drive fast. It's not always the child's fault. It's truly said that accidents are the worst thing to be happen in a family.

From today we should take an oath to save life of our children by guiding them in a different way. We have to choose the right path for our children. Drive safely to live happily should be the new motto of us.

Vanilla Ice-Cream

Ingredients - 1 liter Milk, 1 cup Sugar, 3 tbsp Cornflour, 2 tsp GMS powder, 1/4 tsp CMC Powder, vanilla essence 1/2 tsp, 1 cup fresh cream, 1/2 cup powdered sugar, GMS (Glycerol monostearate) and CMC (Carboxy methyl cellulose) are compounds used for stabilizing ice creams and are available in specialty food stores or bakeries.

Directions -

In a thick bottomed vessel pour milk, add cornflour, GMS and CMC powder and sugar. Mix well. Heat stirring continuously on high flame. When the milk boils, lower the flame and continue simmering for five minutes. Remove from the fire and cool. Add vanilla essence. Pour in the ice cream mould and keep in the freezer to set. When it is set, remove from the freezer. Break the mixture and put half of it the mixer jar. Add half the quantity of fresh cream and powder sugar and churn. Repeat with the remaining half mixture. Mix the whole mixture and finally put in the freezer to set.

Poetry : Kindness

Kindness is a priceless gift
Share this with everyone you meet
With soothing words and pleasing smile
Every guest you must greet.
Spread it among big and small
People nearby and people afar,
Never be rude to anyone
Be ready to serve at every call.
Thus you leave your footprints
On all paths that you tread
When you are gone
Your stories may people read.

Put Your Own Price, Let Others Vote

Seminars on How to Realize Your Dreams Ideas on career counseling for children concluded

Udaipur: Life is not just for spending but for doing some work. Create your own thrill for this on the Canvas of your life, brush with your own hands and your own color. If you want to create a picture, have children, or do a lot of work. Put your own price here. Do not let the others get the chance to put your worth. Today Rado comes in one lakh rupees. So it is like all ordinary watches, but it has a thousand rupees and 99 thousand rupees in that name of the company Rado. You have to fulfill dreams The only thing to do is to decide whether to fulfill your own dreams or anyone else's. If you dream you will fulfill your dreams and become an entrepreneur. If you do a job, you will work here to the dreams of others. These thoughts were conveyed by the National Motivational Speaker Indira Priyadarshini Award winner SP Bharill on Sunday in the Sukadia University Auditorium. He spoke as a motivational speaker in the historic career counseling and meteorological seminar, on behalf of Jain Social Group Samata. Over one and a half thousand children, parents, youth participated in the seminar. Not only did the full auditorium was filled but many people stood still despite the installation of three hundred children by putting the LED out. He said that till the child is 18 years old, he only gets to listen to pessimistic things. This will not happen to you. You will not be able to do this. Someone said that, yes, you will do it. By 18 years of age, the child gets worse by the mother and can not be made by the father. That's why finds sympathy outside of the home environment. This is a very big reality of life. SP Bharill said that we get out of the house to go to the railway station and take the ticket. We tell them name of the specific train. The destination of the journey is known but unfortunately we do not know the destination of our life. There is no such college that can tell how to be rich. How to become good servants, it teaches all things, we are taught in the house that the rich son is of richman and the poor son is poorman. The identity will be of those who dreamed, not the one who did the work. Dhirubhai Ambani dreamed that poorest of poor should have a mobile How was this possible, those who worked

here made it possible? Nobody knows whoever did this work, but the Ambani saw this dream and today the words are shone on the screen. Do not think about it will work or not just how it will work Think. Thousands of people are able to work but they have no answer to prove why they worked should. He said that the dog pursued a rabbit to fulfill his hunger. Both fast ran and the reached the good first. Both talked together. The dog said that both of us ran fast but why I could not catch you. The rabbit responded that you were running for your hunger and I was running here for life. That's the difference. The winner of the race wins because he has a big dream then the loser. No need to get knowledge for any work. If the dream is not complete then do not leave the dream, but change

its ways. Muhammad Gauri attacked Prithviraj Chauhan 17 times and was defeated but Prithviraj Chauhan said that for the 18th time, also I will be defeating you, but such thing did not happen. Gauri won finally because he tried it again and again. If you lose, you come back. As a loser only. Like Gauri, we should all like to try once more. He tried 17 times. Earlier, Arhot Raj, Director of AlTHR, Ahmedabad, told about career counseling he said that in today's era, 70 to 80 percent of Employees are not fit according to their profiles. Have chosen a career but can not move forward. If you do not work in your career, you will not be able to prolong. Do the things in which you are good, not just average. Focus if there is planning. Continuous learning is very important to survive in the future. If you do not learn

and do not go with the age then you will be out soon. Become a Guardian Children's Support System. Advise them well-bored, but do not become obstacles in their career path. Only one who has a stress-free life will have a carrier. Interest, activity and planning, if these three are not in your life then nothing can happen. There is also a significant role of location in the carrier. Doing BE in IT and finding job in Ahmedabad, will not help you achieve. You have to go to Bangalore, Pune. Career counselor and corporate trainer Himanshu Paliwal told through Power Point presentation that what is a career. Avoid all tension. No matter in what profession you are. There are more than 10 thousand professions in today's era. Taking the science does not mean just being an engineer or a doctor.

Many things are ahead of it. The biggest drawback of today's youth is that there is no future plan. Just follow the crowd. Do not get motivation. Focus is not there. Leaving the quality is focusing on the quantity. Discover yourself, discuss with the Parents, and Friends but consider and take your decision. Practice, work with determination with constant concentration, success is sure no doubt.

As the Chief Guest, Home Minister Gulabchand Kataria said that I have been a teacher and therefore understand the importance of education. In today's era, there is the need for changes in the field, then it will be good for more education.

As a special guest, Mayor Chandrasingh Kothari, Rural MLA Phool Singh Meena, Chittorgarh Superintendent of Police Prasanna Khamsera were present. On behalf of JSG Samata, guests were felicitated with favored souvenirs. Organizer and seminar convener Arun Mandot said in his welcome address that school children receive education about the future from the very beginning. In this context, it is our effort to help than JSG Samata said that we are committed to further such events.

Kidney Knot Freed With Operation

Udaipur: It is coman saying that God should not give any serious illness to even to our enemy. If a serious illness occurs to a poor person, then it is not less than a curse.

And that's what happened with the 50-year-old Lo gar lal resident of Bhindar. For the last three months there was a pain in the stomach and back in the urine and urine was not discharged for one month.

The relatives showed Logar lal in many places but due to the high cost of treatment, it was not possible to do the operation. The families showed Logar lal to the urologist at Dr. Humvant Singh Rathod in PMCH but found a large knot in the bloody kidney, the patient's life was in danger. There was necessary to do the operation.

Keeping in view of the patient's financial situation, Chairman of PMCH told Rahul Agarwal, Agarwal directed Doctors for the patient's free operation Thus saved his life too.

This successful operation lasted for almost two hours, led by a team of urologist and surgeon Dr. Hanvant Singh Rathod, Dr. Prakash Suchitya, Dr. Samir Goyal, Dr. Komal, Ajay Chaudhary, Chandramohan Sharma and Sandeep's team assisted. Dr. Hanuwant Singh Rathod said that in this operation, of kidney the knot of IV and IVC was removed.

In this type of operation, there is an expenditure of around one to one and a half lakhs, but in the PMCH, a free operation of Longargal was done. Logar Lal is now completely healthy and happy.

Awareness for all religious Mass Marriage

Udaipur: Life Progressive Society under took a program to spread awareness by visiting various villages for preventing child marriages.

Society president Dr. Khalil Agawani told that the team visited villages like Bhatevar, Kheroda, Bhindar, Kanod and surrounding villages and spread the message not to allow child marriage in hotels, dhabas, mosques and public places and told about adverse consequences.

He told that the Society's team has pledged to many people that they will never marry their children in the young age.

Agvani urged to participate in the second All-religion collective marriage to be held at Bhandari darshak Mandap. Aziz Mohammed Rangrej, Ayub Khan, Shivial assisted Agawani.

Rajasthan Vidyapeeth - A Two-Day Skill Development Camp Held

Udaipur: Changes in a woman's skills developments create ways to improve the family status. Knowledge can be obtained in any form.

Every woman has the power to gain proficiency provided if a woman in the family is educated then the whole family is educated, her knowledge continuous to grow in her life. Women will have to gain their skills in some area, so that they can feed themselves and their families without any dependency. There is no age for reading and learning. It can be learned at any age.

The above stanzas are generally spoken by guests when they are asked to deliver speech among women At the conclusion of the two-day Skill Development programme held for women in the auspicious occasion, VC Pro. SS Sarangdevot too spoke in the same function. Initially, in-charge Dr. Dhandendra Rajora welcomed the guests and informed about the two-day

camp. Chief Guest Central Bank's M.D. Dr. Ashwani Vashishta said that women get maximum benefits from schemes being run by them form the government. He said that women can take loans for women or any individual subsidy is also given by the government on it. Book Release - Vice Chancellor Ss Sarangdevot, Dr. Ashwani Vashishta, Dr. Manju Mandaut, Development Officer, Sonia Kahari released a book "Samaj Shikshan"

Muffin's First Ever store in Udaipur

Udaipur: The first store of Party wear and Celebration Kidswear "Muffins" was inaugurated today On this occasion, a fashion show was organized for the orphan children, in which little boys and girls entertained everyone by walking on the ramp.

Navin Navbhanani, partner of the company told that the market of Indian Kids wear runs on the basis of choice and 90% of the children wears in India are ready in unorganized sectors. There is a market of Kids Wear of about 95 thousand crore rupees in the country.

Clothing is produced by the company in accordance with the choice of children. This is the first store in the city which will be expanded by opening more stores in other cities in the near future.

Rohit Bilochi, another partner, said that the clothing of children ranging from 0 to 14 years is available on this store. Before this, Mayor Chandra Singh Kothari distributed clothes to the children on behalf of Muffin's saying that it is very rare to see that a showroom is also organizing charity work, on the occasion of its inauguration. He provided new clothes to the under age 15 orphaned in children of Muffins. After wearing clothes smiles spread on the faces of children.

Second Tenure To Prof Janat Shah

Udaipur: Prof Janat Shah, Director of IIM Udaipur has been awarded a second tenure by the Ministry of Human Resource Development (MHRD). Prof Shah will continue being the Director for another 5 years i.e. till 2022.

Prof Shah has been the director of IIM Udaipur since its inception in 2011. With this extension, Prof Shah has become the only director amongst all the new IIMs to have received a tenure extension.

As per media reports, the MHRD confirmation has already been conveyed to IIM Udaipur's Chairman and official announcement of the same is expected on Monday.

IIM Udaipur has made steady progress under the leadership of Prof Shah. Last year it was ranked as the 5th best management institute in the country in an MHRD ranking.

IIM Udaipur was again ranked in the Top 15 in the rankings this year. IIM Udaipur is also the first amongst the six new IIMs that were opened in 2010-11 to have shifted completely to its permanent campus.

Seminar on Investment

Udaipur: Anand Varadrajani in a seminar in UCCI opined that there is no time bad for investing. Anand was the subject matter expert on the topic. Prior to that Hansraj Chaudhary welcomed all the participants. He added that industrialists are good at their businesses but they still need experts to invest.

Mr. Anand, during the program, advised investing in Systematic Investment Plans of Mutual Fund and direct equity. He also advised investing in equity for next 7-10 years.
