

By the Way

3 Sins made my Life Easier

I can take my own decisions.

Being a female I have always faced stupid comments on my dressing and hair styles. Trust me it never effected me, instead of changing my lifestyle I have learnt to ignore such comments. This simple trick has made my life easy. Mostly females don't feel confident in changing their hair or dressing

styles. They cling on old fashioned clothes and haircuts but don't easily adopt any positive change in their personalities.

I remember my childhood when I used to wear trousers and crew cut made me look more boyish. I never got upset that I had wavy hair and other girls had soft, silky hair. I believe that God has made us with different faces and qualities. It hardly matters who look beautiful or ugly. I tried to forget bad incidents to live rest of my life happily. It's really not easy but it can be done to maintain peace all around. Mostly females are emotional and sensitive and can't forget bad incidents easily. I have tried to break this myth. Bad incidents leave scars on mind and heart forever which can harm our health badly. Mostly women trust others to firm any opinion but it can be wrong in most of the cases. It's good to listen to the opinion of others but it is good to believe in your own self before judging others. This simple formula made me think differently and now I am able to understand human psychology better than anyone else.

I don't indulge in gossiping.

Gossips are females favourite time pass. They talk about every single move of others. It gives them immense pleasure to discuss others love life. Females finish their routine work faster than 20-20 cricket match and use their extra skills to scratch off neighbours characters. They can write biographies and scripts on anyone. I have always avoided to interfere in other person's personal life. It has helped me to grow as a human being. I had heard that working women don't get much time to gossip. But females are females, they can forget to eat but can never forget to talk about others. I always avoid these talk shows in office. I can't lie or make stories so it's good to not get involved. Offices are workplaces which should be equal to our worship places. It's good to increase knowledge and learn something new everyday rather than tearing other person's characters.

Trust me guys, these 3 sins have made me tenacious and dynamic in daily life. People don't waste my time and energy easily. If you want to live rest of your life peacefully, you must learn to keep the remote control in your own hand. I forget those who don't like me, I keep my mind free from negative thoughts by avoiding unpleasant people. I don't remember bad incidents more than one day.

It's important to live happy and stress free life. The main Mantra is to use your own mind to create peace and love in your surroundings.

Zindagi ki Kitaab se

kuch panne palatne ka mann kiya
Kuch ne khikhila diya, kuch ne num kiya
Bahut se kisse yaad aaye
Bahut si kahaniya yaad aayi
Kuch kisse ne zindagi ki ehmiyat yaad dilaa
Bahut se puraane dost yaad aaye to
Bahut si unki khatti meethi ladaai
Na jaane kyun is bhaga daud mein
Zindagi kahin peeche chut aayi
Saanse chal rahi hai
Dhadkane bhaag rahi hai
Par zindagi kyun ab lagne lagi paraai
Kabhi muskurahat thi zindagi
Aaj choti - choti baato mein dhoondti muskuraahat hai
zindagi
Ye safar bhi kuch ajeeb sa hai
Kahi khamoshi to kahi shor sa hai
Har pal har waqt badalti si hai ye zindagi
Jee lo jee bhar k kyonki dobara na milegi ye zindagi

- Neetu Sidana

Imagination

Welcome to the imaginary land
My thoughts make this a dream land
Where leafs are singing on the beats
Flowers are smiling on the trees
Here we pull out every negativity
tuning it into a pool of positivity
Blessings are showering like rain
this world is free of pain
Beautiful and bold
Thoughts are like crystal gold
I can cry out loud
I can dance like a cloud
Enter in the world of imagination
It's only my creation
I need no vacation
to visit this land of tamptation.

EkHaseena Thi Ek Deewana Tha : Movie Review

S.K.De

Critic's Rating: **1/2 2.5/5

Cast: Shiv Darshan, Natasha

Fernandez and Upen Patel

Direction: Suneel Darshan

Genre: Romantic Thriller

Duration: 1 hr 45 mins

What Is It About: Acharming and young girl, Natasha (Natasha Fernandez) who decides to have her destination wedding at her ancestral property goes there along with her fiancé Sunny (Upen Patel). Destiny had other plans as she falls in love with the stud farmer Devdhar (Shiv Darshan). However, what follows is a game of deception with an unexpected turn of events...

When I first heard of the movie title "EkHaseenaThiEkDeewanaTha", it reminded me of the evergreen song from the movie

Karz but there seems to be no such connection between them. This romantic thriller stars Shiv Darshan, debutant Natasha Fernandes and the handsome hunk Upen Patel. Suneel Darshan who has given us notable movies like Jaanwar, EkRishta, Talaash: The Hunt Begins, Andaaz, Barsaat, Shakalaka Boom Boom and many more, disappoints in this one.

While trying to add a supernatural element to this game of love and deception, the makers of this movie end up producing a medley of hilarious events, which leaves us confused and amused altogether.

Shiv Darshan being one of the leads, is portrayed as a supernatural being, with Vampire-like powers and his over the top

dramatic Urdu dialogues which will remind us of the old era of romance gone wrong! Also, the newbie Natasha isn't very realistic in her approach and brings out a very plastic character

onscreen, who falls head over heels in love with the supernatural stable boy. Although, Upen Patel serves as the saving grace for this movie with his subtle presence

and realistic approach.

What's Hot: The Music by Nadeem Saifi (of Nadeem Shravan fame) is the highlight of this film as the songs Hue Bechain, Aankhon Mein

Aansoon and Nain Song have been loved by the masses. Apart from this the only meritorious part is the honest and effortless performance by Upen Patel. The locations in the United Kingdom, across several sites including Cornwall, Dartmouth, Cardiff and Manchester have been captured like a portrait.

What's Not: The film which depicts a ghost returning to claim the love of his life, in the form of his lover's grand-daughter is beyond comprehension. There are various scenes which were meant to be serious actually have the audience in splits as it's so bizarre.

Verdict: A romantic saga which is worth watching only for Nadeem Saifi's music and a honest and commendable performance by Upen Patel.

How solar lights are illuminating Udaipur-based Hindustan Zinc plant

Udaipur: Udaipur-based Hindustan Zinc Limited, world's second largest zinc producer, had ordinary streetlights installed in the area around the plant.

Since these street lights were malfunctioning due to a manufacturing defect, it was a cause of worry for the management. The management was also alarmed at burgeoning power bills. Being aware of the benefits of solar energy, they decided to go solar.

Consequently, the entire area around the plant was solarized at the initiative of Su-Kam. A total of 57 street lights of Sunway L13 models were installed at prime locations around the plant.

The L13 model gives 31lux from four meters and provides excellent lighting solutions for farms, small streets and the like. They also provide 30% to 50% more brightness as compared to other solar street lights alongwith in-built light weight and maintenance-free lithium ion batteries.

A standalone solar street light consists of a pole, battery bank, solar panel and LED or CFL lights.

During the day, the solar panels convert the sunlight into electricity and store it in bat-

teries, and during the night, the street lights provide light by taking energy from the power stored in batteries.

The number of hours the street light stays on depends on the geographical area. These street lights work from 7 PM in the evening to 7 AM in the morning. The area receives ample sunlight so solar streetlights work perfectly and light the entire area.

"Solar street lights are the future of India's energy roadmap. In remote areas where grid electricity is not available, solar street lights come to the rescue.

By going solar, Hindustan Zinc Limited has set an exemplary example in the society," says Mr. Kunwar Sachdev, Managing Director, Su-Kam. Hindustan Zinc Limited is also elated with the performance of solar streetlights.

"We are happy with our decision to install solar streetlights. They are eco-friendly and a cost-effective solution to power woes.

On a deeper level, it signifies our collective commitment to make this company environment friendly. The solar energy has the potential to change the landscape of this entire country," said spokesperson from Hindustan Zinc Limited.

PIMS Hospital's Message Rally on Doctor's Day

Free inquiry and medical consultation at work place

Udaipur: A Free eye examination camp was organized by Alhak Nayan Eye Hospital Pratapnagar in the kundan switch gear company.

All the staff members of Kundan were given free medical check-up and medical advice from Alkhi Nayan Eye Hospital. As the camp was held on Saturday All workers took advantage of eye examination. Deficiencies were found in number of glasses. Subhash Mehta of Kundan Switch Gear informed that all the employees, as well as the work place employees from time to time check the investigation is important.

Dr.Laxmi Jhala shared with us said that The facilities of complete consultation for complete eye examination, screening of spectacles, cataract examination, Glaucoma, retina, cornea, nakhuna (membranes in the eye) and liberation from glasses were provided free of cost.

Media has Failed the Masses in Recent Times : Dr. Sunilam

Udaipur: The role of media is to project the concerns of the masses and represent the truth. It is called the fourth pillar of democracy. But in the recent past it has abandoned its role. The main stream print and electronic media has become a mouthpiece of the ruling class. There are UN reports which say that 19 crore people in India are undernourished. Nearly one million children die of malnutrition every year in India. 15 crore young men and women are unemployed. 33 peasants commit suicide every day. Only 4% of the labour is in organized sector while rest of it is in unorganized sector.

Who shall talk about them if media does not respond to these issues? This was stated by Peasant leader former MLA Dr. Sunilam as key speaker in the silver jubilee function of Mahaveer Samata Sandesh, a fortnightly being published from Udaipur since 1992. He said that the corporate businessmen who invested largely in Narendra Modi's election campaign have bought the major share of electronic and print media in the country. Today media has become a manufacturer of news and has become a tool in the hands of the ruling political party. The capital has hijacked the freedom of press and tilted the balance in favour of the ruling

classes. In such an atmosphere the role of small and independent media like Mahaveer Samata Sandesh becomes important as they have the courage to represent the problems of the common men with boldness. Chief guest of the function Arun Kumar Shrivastava, National General Secretary, Janta dal United maintained that capital has unhinged democracy. It has shaken the very foundation of the democratic ideals and principles. Even media has lost its credibility as an independent commentator. He said that it has become very difficult to run a principled newspaper. Yugvichar, the newspaper he was editing had to be closed down for financial reasons. He said that Modi was projected as "Vikas Purush" but the reality is in last ten years Gujarat was not at the top in any sphere. Ms. Manju Mohan, General Secretary of the All India Socialist Party said that freedom of expression is very necessary. Today those who

express the voice of decent are targeted and lynched by fascist mobs. The people like Ms. Medha Patkar who are fighting for the just causes feel sidelined by the mainstream media as well as the state. Dr. Gopal "Sahar", writer and activist from Gujarat said that the Gujarat Model is a myth created by media.

The reality of Gujarat never comes out since the media is hijacked by the powerful. Former Chairman of Rajasthan Sahitya Academy and columnist Ved Vyas described the present time as a time of severe crisis for democratic institutions and also the constitutional institutions of the country. He said that there is blatant politicization of the constitutional institutions like Election Commission, Supreme Court, and the Reserve Bank of India. He said that in media too the space for dissent is shrinking. He said that there are just four to five papers in Rajasthan like Mahaveer Samata Sandesh who are still towing a path of

true journalism.

Advocate Fateh Lal Nagori welcomed team of Mahaveer Samata Sandesh and appealed the audience to strengthen this paper. President of Pdt. Janardan Rai Nagar Educational Charitable Trust Mr. Prafulla Nagar welcomed the guests. The founder and Chief editor of Mahaveer Samata Sandesh narrated the journey of the paper and talked about the challenges faced by it. Prof. Hemendra Singh Chandalia, editor and columnist of the paper convened the programme and described the programmes and policies of the paper. He said that the present government has removed Mahaveer Samata Sandesh and several other newspapers from the list of papers to be given advertisement by the DAVP. This shows the attitude of the government towards small newspapers.

On this occasion an exhibition was laid out representing twenty five years of the newspaper. A power point presentation was also shown by Chirag Godawat in which major milestones of the journey of the newspaper was presented. Sawai Singh from Jaipur also addressed the gathering.

The function began with the revolutionary songs of poet Hansraj Chaudhary. The function was chaired by noted poet and activist Abid Adeb.

The immense enthusiasm shown by the city dwellers at the heart disease awareness rally

Udaipur: The service is to be resolved, remove heart diseases, shake away fast food, make your heart healthy, make life happy, always remember the heart, fast sleep, get up early, keep heart healthy with yoga, keep pure Your diet, heart is continuous, heart is our credit, otherwise life is ashes, pure food without stress, heart will never be wound ...
