PM Modi may Visit

Udaipur: Prime Minister Narendra Modi may visit Udaipur for laying foundation of the six lane bypass, grade separators and for inauguration of the newly constructed IIM Udaipur campus. Ministry of Road Transport & Highways has requested PM Modi to consider request and visit Udaipur for the functions. Chittorgarh MP, C.P.Joshi

said that National Highway board has asked the departmental officials to be prepared with arrangements in August. As per earlier foundation stone laying down of the six-lane highway is to be held on 19-August.

However, on the instructions of Nitin Gadkari, the plan has been postponed for now. Gadkari will announce next steps after receiving instructions from the Government officials.

CP Joshi said that PM Modi may come to Udaipur or Kota. Laying foundation stone has been proposed for six lane highway that will pass from Kishangarh-Bhilwara-Chittorgarh-Udaipur-Ahmedabad and the grade separators that will come up at Debari and Kaya.

Mediocrity of Government Girls School

Udaipur: DM Bishnu Charan Mallick anguish with alarming status of education in his visit to GUPS Rishabhdeo.

Mallick was surprised while visiting Schools, and noted that students of Class IX could not even write English alphabets properly.

Mallick in his inspection visited students from Class I to IX. The district collector had painful experiences when he asked class IX students to write English alphabets and they could not.

In Class VII students asked DM to deploy maths teacher in school. was informed that maths teacher is not a problem as the subject can be taught by any other teacher. Mallick directed the school to make immediate arrangement for a maths teacher and to improve the overall skill of education. He did not take strict action against any teacher as he wanted to give them a chance to improve.

Wings of Freedom & Roots of Responsibility

We will soon be ushered into yet another year of freedom of our country India, the largest democracy in the world. India has travelled 7 decades since 1947 and to celebrate this journey and commemorate these 70 glorious years, "AZADI70" with the theme of '70 Saal Azadi-Zara Yaad Kara Kurbani (70 years of Independence-Do recall the sacrifices)', events were held throughout the country. This is because, India's Independence Day is a day of great significance for the people of India. On this day, it is fitting to remember the selfless and

unrelenting efforts of our revolutionaries, in attaining the freedom that we enjoy today. The struggle for freedom was painfully long, tedious and required sacrifice on the part of many freedom fighters, who even gave up their luxurious life for the cause of freedom. As we pay our tribute and salute these men and women of great honour for their sacrifice for the country, we need to own their commitment and sacrifice they made for all of us and the nation.

Looking back on the years gone by, we can proudly say that India has definitely made tremendous progress in various spheres, be it science, technology, economy, sports or space, India has reached new pinnacles. In the field of science and technology our country has taken great strides. Several space satellites such as Aryabhata, Bhaskara, Rohini, Saral, Mangalyaan and so forth have been successfully launched by our scientists. In addition to this several of our Indian scientists are part of the NASA team working and making valuable contribution to space science. Indians present in every continent are making significant contribution to the world scenario. Sundar Pichai, CEO, Google, one of the biggest internet companies in the world, Satya Nadella, CEO, Microsoft, Rajeev Suri, CEO, Nokia Solutions & Networks, Shantanu Narayen, CEO, Adobe, Sanjay Jha, CEO, Globalfoundries, Francisco D'Souza, CEO, Cognizant are just a few among several other stalwarts making noteworthy contribution to IT and Technology globally.

In the segment of education our country has come a long way. At the time of independence, the literacy rate was just about 12%, whereas today it has gone up to over 75%. A good number of foreign nationals are flocking to India for higher education unlike the yesteryears. Over the last few decades, Indian economy has grown in the developing world. India has produced entrepreneurs and business tycoons such as Tata, Birla, Ambani, Azim Premji, Narayan Murthy, Shiv Nadar, Jindal, Mittal among many others who are recognised globally. Today, the world sees India, poised to become the world's superpower due to our rich human resource capital with the largest youth population in the world. India has more than 50% of its population below the age of 25 and more than 65% below the age of 35. The need of the hour is to give wings of freedom to our young generation and roots of responsibility to help them emerge as global leaders.

Today, the concept of freedom needs to be properly taught to our young generation. Children often tend to think freedom as a license to do whatever they want to do. The consequence of their attitude is very obvious in our society. Therefore, providing them the right foundation is the need of the hour. As Denis Waitley would say, "The greatest gifts you can give your children are the roots of responsibility and the wings of independence." We need to give our children wings and roots so that they can be deeply rooted in values and be productive and responsible human beings in the world. As parents and elders, we are the wind beneath the wings of our children who need our guidance. We need to teach them self respect and respect for others. Nelson Mandela has rightly said, "For to be free is not merely to cast off one's chains, but to live in a way that respects and enhances the freedom of others." The term patriotism is defined as love of country and willingness to sacrifice for it. This is founded upon respect for human beings and their rights. Genuine patriotism requires taking on social responsibility—not in the form of privileges, but as contributors towards our own country. Empowerment of every Indian through "education is the key to complete freedom today. It is only education that can give us freedom from problems of poverty, unemployment, illiteracy, child mortality, hunger, pollution, food shortage, child-woman trafficking, global warming, wars, crimes, unending terrorism and freedom for progress, respect, happiness, health and prosperity. On this Independence Day, let us rededicate ourselves to empower each other with wings of freedom and roots of responsibility to take our nation to greater heights of success.

Thoughts on Independence Day

In my opinion independence means "Self Reliance", as much as possible. Although we celebrate independence for celebrating our independence from the slavery of Britishers, but now at the edge of 70th anniversary of Independence Day, the time has come that we should re-think/view/analyze and re-defines the term in current socio-cultural scenario.

I think, rather I believe that we are independent from outside but still behind the bars of slavery in almost all the aspects, language, clothes, food, thoughts, behavior, actions to name a few. We are not at all self dependent; we are blind following the western culture

and forgetting our age old culture and civilization which makes us ahead from all in the global map. It's very strange that the world is watching on us for peace and well being and we are running in a blind race.

This results in broken self and the family as well. How can we imagine a developed nation without making ourselves a strong and self satisfied individual? I don't know why people feel ashamed in following their ancestor's strong values and beliefs? This is high time to free from all kinds of aforesaid slavery which is within ourselves; then only we can say that "we are independent"

राष्ट्रीय बाल स्वास्थ्य कार्यक्रम (आरबीएसके) के तहत इलाज प्रारम्भ

पेसिफिक इंस्टीट्यूट ऑफ मेडिकल साइंसेज (पीआईएमएस) हॉस्पिटल में राष्ट्रीय बाल स्वास्थ्य कार्यक्रम (आरबीएसके) के तहत इलाज प्रारम्भ हो गया है। पीआईएमएस हॉस्पिटल के चेयरमैन श्री आशीष अग्रवाल ने बताया कि आर. बी. एस. के. के अंतर्गत 18 वर्ष से कम उम्र के बच्चों की विभिन्न प्रकार की गंभीर व जन्मजात बीमारियों का इलाज प्रारम्भ कर दिया गया है। इस योजना में आँखा, कान, कंठ, तालु, जन्मजात स्पाइनल आदि बीमारियों के ऑपरेशन किए जाएंगे साथ ही योजना में हड्डी के विशेष तथा हृदय के ऑपरेशन भी संभव होंगे।

कॉर्निया (नेत्र) ट्रांसप्लांट की सुविधा शुरू हो गयी है

पेसिफिक इंस्टीट्यूट ऑफ मेडिकल साइंसेज (पीआईएमएस) हॉस्पिटल में कॉर्निया (नेत्र) ट्रांसप्लांट की सुविधा शुरू हो गयी है। भारत में कॉर्निया अंधता मरीजों की संख्या काफी ज्यादा है। जो व्यक्ति मरनोपरांत नेत्रदान करते हैं उनका कॉर्निया (नेत्र की पुतली) उन मरीजों में लगाया जाता है, जिनका कॉर्निया चोट या संक्रमण के कारण खराब हो गया हो लेकिन आँख का रेटिना (पर्दा) स्वस्थ है। पीआईएमएस में कॉर्निया आइ बैंक सोसाइटी ऑफ राजस्थान, जयपुर से मंगवाया जाता है। तथा तुरंत ही कॉर्निया ट्रांसप्लांट किया जाता है। अभी तक 2 मरीजों का कॉर्निया ट्रांसप्लांट हो चुका है।

केटेरेक्ट या मोतियाबिंद (Cataract), कन्जेनितल मोतियाबिंद (Congenital cataract), व भ्रेंगापन (Squint) राष्ट्रीय अंधता नियंत्रण कार्यक्रम (National Programme of Control of Blindness) के अंतर्गत उमरड़ा स्थित पेसिफिक इंस्टीट्यूट ऑफ मेडिकल साइंसेज में मोतियाबिंद का निःशुल्क ऑपरेशन किया जाता है।
