## "Investigation of Anaemia without Injection to Bone"

Udaipur: Each person gets scared with the name injection and if the injection is injected in bones then the fear and the pain both gets increased. Dr Arvinder Singh, CEO of Arth Diagnostics presented a research paper in National seminar of Karnataka Pathologist Association on the topic "How to investigate reasons of Anaemia without injecting the injection in the bones". For Anaemia treatment, Dr Singh elaborated that without bones testing, through Kinetic approach how can reticulocyte and its various types be analysed and how can the causes of Anaemia disease be identified?

Dr Arvinder Singh was the only doctor invited from Rajasthan by Karnataka Pathology Association. The Association honoured and appreciated his research paper work.
