Door-to-door diabetes test campaign

Udaipur: On world diabetes day M. S. D. Endocrine and Diabetes Research Trust has organized door to door survey campaign by testing their blood on Tuesday

Dr DC Sharma told about the importance of diabetes in a program organized at M. S. D. Endocrine and Diabetes Research Trust at Sudha Hospital.

He said that due to the change in the present life style, diabetes has appeared in the form of a pandemic and its magnitude is increasing continuously. Due to being non-symptom, this disease cannot be diagnosed on correct time or even after diagnosis, people do not pay attention to it.

In this order, an awareness campaign is being organized by the Trust, under which the free blood sugar testing of people in this campaign and distribution of free diabetes related contents, were given to them.

Social organization should work for society uplift ment- Rajendra Goyal

Udaipur: Social Organizations play a significant role in the social upliftment, in social sector, which will heighten their fame of the organization. Bajrang sena is playing a significant role in this field. The team has received blood by 500 people this year so far.

This is an indirect work. On the occasion, of Blood Donation Camp and Snehh Milan, organized jointly by Bajrang Sena, Mewar and Jhulelal Yuva Sangha. Girish Rajani of Jhulelal Yuva Sangh told that the camp was inaugurated by the Police Superintendent Rajendra Goyal, Vice Chancellor Prof. Ss Sarangdevot, patron Dr. Pradeep Kumawat, Dr. Ashok Berwa, social worker Teerathdas Nabhanani, Murali Rajani, Sunil Kalra and Kamal Asanani. Pandwar said that 94 people donated blood and 175 persons in the camp conducted blood tests and resolved to donate blood in the future. In the camp, social activist Gagan Shrivastava donated blood 125th time.

Melodious voice of 30 talents in lake festival

Udaipur: On first day of the two-day lake festival held on Fatehsagar Pal by District Administration selected 30 children from M Square Produce and Round Table India and Ladies Circle of India sang the film songs, in presence of udaipurites Children from 5 years to 17 years of age have given their best in many popular songs.

Mukesh Madhvani said that all 30 selected children were rehearsed by Arun Salvi and their team.

District collector Bishnu Charan Malik fixed the day for local talent to give this festival a colorful and cultural form, so that local talent can get a chance to showcase their talent.

Informed about good and bad touch

Seva Parmo Dharma: Trust President Prashant Agarwal told that, information about good and bad touch was given to children with various illustrations. Inspirational child film was also made available to view. Prizes were distributed to children. The function was as usual conducted by Ompal Sealan.

CBD RP launched by Madan paliwal and Neil Nitin Mukesh at Alakh Nayan

Udaipur: Actor Neil Nitin Mukesh on Tuesday came out in support of the controversy-mired film Padmavati, underscoring a director's right to creative freedom.

"It (film) is a fiction and the audience is intelligent enough to judge the movie. The entire film crew works hard to showcase their art, and the director has the right to present his perception and creativity before the audience. There should be freedom of speech and creativity," he said.

Speaking to media on the sidelines of an event, the 37-year-old Bollywood actor hoped that the upcoming period-drama, slated to release on December 1, hit the screens and people get to watch it.

"As an artiste, I would like that no other artistes suffer," he said. Nitin was in Udaipur along with Madan paliwal MD of Miraj group a in udaipur to inaugurate Community Debitic

Retinopathy Project jointly launched by Alakh Nayan Mandir, Miraj group and operation eye sight universal. while inaugurating the that today's day is very important for his life. Upon arrival, it was found that diabetes has a direct connection to the eyes as much as the beating of the body. In today's environment, uneducated people are taught

any lesson, then they easily put it in their own lives, but sensible and educated people become careless towards learning rather than lifting life into life. The result also is to suffer them in the future. In the presidential address, Madan Paliwal, MD of Miraj Group said that he has been associated with Dr. Hari Singh Chundawat, the founder of

Alkhan Nayan for a long time. His personality was so broad that even today when he remembers his figure comes out. I met Dr. Chundawat for the first time when my mother had an eye problem. When he treated, one eye got a new life, but later the second eye was operated by someone else, then the eye could not survive for

long. His life was full of generosity and today, when such a big project is going on, his shortage is falling apart. Saying this, the eyes of Mira Paliwal of Miraj Group got puffed up.

Franklin Denien, the head program manager of the guest operation Eye Site Universal India. Earlier, Dr. Lakshmi Jhala Managing Trustee of Alok Nayan Mandir, said that this project, called the Community Based Diabetic Retinopathy Project (CBDRP), will be implemented in collaboration with Alkhan Nayan Mandir Institute, Operation sight Universal Canada, which is important under the Miraj Group's CSR Will contribute. shee told that due to diabetes the damage to the eyes causes diabetic retinopathy disease. Its treatment is possible with laser, operation, injection or medicines. This project has two motives.

Examining one's eyes, measuring the effect of diabetes due to the diagnosis and evaluation of the best medical arrangements, and through the second eye examination, also tell that the patient is suffering from diabetes.

Many times patients are not aware that they have diabetes. Under this project, this was revealed in a trial pilot camp in Udaipur city. During the eye examinations, people came to know that they had serious levels of diabetes.

Project director Meenakshi Chundawat said that Alakh Nayan Mandir established in 1997 in India is a reliable partner with Operation Eye Site Universal.

Alok Nayan Mandir Eye Institute is a well known name in India where world-class medical facilities and medical services are available under the supervision of fully trained and experienced doctors.

Road safety work plan book released

Digital India will be promoted by e-power project - Vijendra

Udaipur: Women of rural areas are receiving considerable financial support through self help groups, Digitization of these groups in systematic way has been initiated by a NABARD through The e-Shakti project.

This project will use ful to check irregularities and help member to get instant payments. The above thoughts were expressed by Udaipur district collector Bishnu Charan Malik addressing the occasion of inauguration at District Collector's Auditorium. Presenting the information of e-power project through PowerPoint the National Agriculture and Rural Development Bank (NABARD) Rajasthan representative Vijender Singh said that to execute project implementing agency will be Gayatri Seva Sansthan in Udaipur district, Through which about 5000 self-help groups in the district will be made online in the first phase.

O.P. Kabeya said that now women will maintain their group in digital form, not in papers.

All banks and related agencies try to get involved in this. Lead Bank Officer Mukand Bhatt, Shashikamal District Development Manager, Nabard Udaipur and Dr. Shailendra pandiya Joint Director Gayatri Seva Sansthan also expressed their views on this occasion.

A Unit of human rights association in udaipur

Udaipur: National President of Human Rights Association Jitu Jatava said that our Association is unselfishly struggling for human rights from 2010 in the whole country. National President of Association Jitu Jatava said that there is any problem related to humanity, awareness campaign from time to time on harassment, genocide, dowry or murder of embryos. are being sloved

Dinesh Kumawat was appointed as the District President in Udaipur, which will look after the work of entire district while the President of Krishan gopal, who is the Chairman, will see the work of the whole party. Its office will be started soon in Udaipur District President Dinesh Kumawat said that office of the Association will be opened in Udaipur, compliant boxes will also be installed at special places so that the general public can put their complaints in writing.

"Sacroccocygeal Teratoma Tumor Removal Surgery of World's Smallest Baby"

Udaipur: An infant born in the 28th week of gestation weighing only 1.4 kgs with a massive sacroccocygeal teratoma tumor was operated by pediatric surgeon of Geetanjali Medical College & Hospital Dr. Atul Mishra, Anesthetist Dr. Alka, OT Staff & team members. The infant survived fighting all odds to be the first case in Medical History of the world. Journal of Pediatric Surgery published in November 1995 reported a similar case where the infant with the same tumor weighed 1.5 kgs making it the first successful removal of the tumor in a neonate weighing 1.4 kgs only.

The infant's mother was on treatment for pregnancy in a nearby hospital of the district. Due to high blood pressure because of pregnancy induced which could not be controlled she was referred to Geetanjali Hospital's Gynecologist Dr. Arun Gupta. On consultation & investigations of Ultra Sound Sonography it was found to have a decreased blood flow in placenta of the lady and Oligonydrannios and IUGR (Intra-Uterine Growth Retardation) of the baby. These results posed a serious risk to both the mother & child. Hence, the child was delivered by an elective cesarean section. After delivery, the baby was found to have a large tumor near the anus, mostly called sacroccoc-

cygeal teratoma tumor, along with low birth weight of mere 1.4 kgs & a pre-term neonate. Since this tumor need to be removed by surgery, so all necessary investigations including Echocardiography to confirm any deformities in the child were performed. On stabilizing the child, surgery was performed which lasted two hours which assured no internal bleeding. This tumor requires immediate surgery as the tumor could turn into cancer. The tiny toddler is recovering well and will grow like normal babies.

"According to our information till date this is the smallest baby operated for this tumor after birth", said Dr. Mishra the pediatric surgeon. Fetal Surgery (surgery before birth) is also being done in even smaller babies at very few selected centres in the world, but after delivery this is the smallest baby operated for this rare tumor, quoted Dr. Mishra. Out of every thirty five-forty thousand babies only 1 have a complex & rare tumor like this.

Every third child of India is allergic - Saxena

Udaipur: A talk was organized by Lions Club Lake City on Allergy at Lions Bhawan in Devali. The keynote speaker was Dr. Rajiv Saxena, associate professor of nose, ear and throat disease and Ananta Hospital and Medical Science. Dr. Saxena said that about 25-30 percent people in the world and every third child in India is suffering from allergic reactions. Elimination of allergies is not possible but it can be stopped only by awareness. Pollution and farming are high in India, which is why more of the allergy is all over. Asthma is not a disease, it is a form of allergy. The effect of allergy is seen very high in the February-March, October-November per year. Due to allergy, very conservatives are produced in the body. There is considerable effect of allergic rhinitis, pneumonia, skin and ear disorders. Types of Allergies- Allergies are also from dust, rust, perfume dio, artificial jewelry, hair dye, skin to skin, and pets. Genetics is a big factor in allergic reactions. The campaign for the elimination of - Parthenium hysterophorus. Saxena said that the empire of Parthenium hysterophorus is widely spread in the city and it is a very big cause of the disease. The campaign should be launched to get udaipur free from Parthenium hysterophorus. He told that the effect of allergies falls on the head and ears. Allergies also affect very small children. Due to allergic reactions, the ear is filled with water, which reduces the ability of the patient to hear. Self-study is very important to eliminate allergies. The normal pill taken from allergies does not work in allergens. We must stay away from lawn culture, it is not necessary to wake up in 5 in the morning for a walk. At that time the effect of allergies is very high. On this occasion, Club President SS Mehta said that prevention is better than cure He said that from December 15, 7 thousand km. The Golden Quadrilateral journey will commence.
