

Time to Review

The state government has completed four years in office and they have released a list of things accomplished. This is nice to see the government has the courage to come up with its achievements to face the public. This also means that substantial work has been done in these four years. Good, but this is just the beginning of the review process. Yes, like organizations carry out a complete review and assessment cycle before announcing appraisal, it's time for people to take charge and act as commanding manager.

The report card of four years is the self-assessment by the government. This needs to be verified by people. You do not need to sit one fine day to approve or disapprove claims, rather, you can take time to review all the claims gradually.

For example, if the claim says that all the schools are now facilitated with proper washrooms and separate facilities for girls, you just can ask your kid to verify. If your kid does not attend a government school, you can ask any student nearby to check the facts.

Editorial

And your job does not end here. Besides reviewing all the tall or short claims, you also need to check whether all unsaid but implied responsibilities have been fulfilled or not.

Generally, it is portrayed that a responsible citizen's role starts and ends at casting the vote. Well, not casting a vote is no less than a crime but alone that exercise does not help. You perhaps will be driven by the family members' opinion or will get swayed with the polished orating skills of the leaders. But that only helps the leaders. And you must work to ensure that a candidate who gets your precious vote is well worthy of it. You cannot even say that I chose the bad to worse. You can always choose NOTA in case you feel all the candidates are useless or have betrayed you in the past.

The informed decision makes you a sincere and responsible citizen. It also ensures that only people who are capable to work enter the assembly.

The time is now.

The correct idea is to send good people to the assembly. Good people, even if hail from different ideologies will end up with a socially useful decision.

All the best for your review cycle Udaipur.

THE LUX GOLDEN ROSE AWARDS EMERGES AS A GRAND CELEBRATION OF THE DIVAS OF BOLLYWOOD

Lux Golden Rose Awards is a one of its kind extravaganza to honor female actresses for their mesmerising personas and larger than life performances. This year, the awards raised the bar aiming to honor the beauty behind the on-screen beauty of the divas and emerged as a resounding success. Hosted by the King of Hearts, Shah Rukh Khan, the awards was a spectacular night with big wins, bigger performances and a grand celebration of the leading ladies of Bollywood!

SRK, the name synonymous with Larger Than Life Romance and Sweeping Women Off Their Feet In Bollywood, created an aura of love and admiration with his impeccable hosting skills and non-debatable comic timing. King Khan managed to keep audiences on the edges of their seats, taking them on a roller coaster ride of emotions from tears to splits of laughter.

Talking about this year's Lux Golden Rose Awards, the host, Shah Rukh Khan said, "Lux is a brand which has always focused on paying tribute to the beauty and enigma of our amazing leading ladies and that is what I love about the brand. Their mesmerizing beauty, graceful candor and larger than life performances add

substance to our movies and make our cinema a true pleasure to watch. It feels honored to be loved by such amazing women and this evening was a one to remember as I hosted amongst their warm presence for an extravaganza which celebrated the beauty behind the beauty of these cinematic legends"

Nominations saw the best of the best in Bollywood across genres and categories including the likes of Sridevi, Madhuri Dixit, Juhi Chawla, Sushmita Sen, Aishwarya Rai Bachchan, Deepika Padukone, Priyanka Chopra, Katrina Kaif, Sonam Kapoor, Kangana Ranaut, Alia

Bhatt, Shraddha Kapoor and Sonakshi Sinha to name a few.

The categories for awards were well crafted to suit various facets of the beauty; namely Lux Golden Rose Award for Charismatic Beauty of the Year, Emerging Beauty of the Year, Power-Packed Beauty of the year, Breakthrough Performer of the Year, Timeless Beauty, Versatile Beauty of the Year, #IAmMoreThanYouCanSee Award and Unstoppable Beauty of the Year.

The highlight of the evening was the charming lady with a million dollar smile- Juhi Chawla being felicitated for

winning millions of hearts and being a true beauty with the Lux Golden Rose Award for Legendary Beauty; an award which recognizes the charisma, style, and path breaking iconic performances which make Juhi Chawla a true living legend.

The boss lady who has ruled cinema with her diverse roles, Sridevi was graced with the title of Lux Golden Rose Award for the Power-Packed Beauty Of The Year for her striking performance in the hard-hitting super hit Mom. The presence of legacy was also honored with the eternally gorgeous Dhak Dhak girl Madhuri Dixit being

presented the Lux Golden Rose Award for Timeless Beauty for the legacy she has created and continues to create for her fans world over who await that one precious glimpse of her million dollar smile and timeless dance moves and expressions.

Keeping audiences guessing and awaiting her next performance, the spunky Alia Bhatt was awarded with the Lux Golden Rose Award for the Versatile Beauty of The Year award for her honest, mould-breaking and inspiring performance in the heart warming film on mental illness- Dear Zindagi. The reigning queen, who has given fans multitude of reasons to celebrate and look up to her, Deepika Padukone was given the title of Unstoppable Beauty of the Year; for being a gorgeous woman onscreen and beyond, not afraid to take bold steps, make mistakes and learn from them while leaping forward. Success has not come easy for Ms. Padukone, but it is her passion and determination that create magic for her and her die-hard fans.

The beauties who have made audience stand up and take notice, Taapsee Pannu and Bhumi Pednekar was presented with the title of Breakthrough Performer of the

Year for her consistently undaunted portrayal of powerful female characters on the silver screen.

The gorgeously unapologetic diva, Kareena Kapoor Khan was felicitated with the award Lux Golden Rose #IAmMoreThanYouCanSee Award; an award instituted to celebrate a diva who carves her own niche by impressing and inspiring audiences with her reel and real life choices while being feminine, passionate and charismatic at all stages of her life.

The unassuming beauty, Katrina Kaif won the Lux Golden Rose Award for the Charismatic Beauty of the Year; as a tribute to her charismatic and mesmerizing presence which leave audiences wanting for more on the silver screen.

Fresh talent was also recognized and duly awarded with the Dhangal girls Fatima Sana Sheikh and Zaira Wasim who were presented with the award for Lux Golden Rose Award for the Emerging Beauty of the Year; acknowledging the immense potential and promise these beauties show.

The Lux Golden Rose Awards was held at Yash Raj Studios in Mumbai on 10th December 2017 and will be airing on 24th December, 8PM on Star Plus.

Applications invited for Entrepreneurship summit at IIT Kharagpur

Indian Institute of Technology is organizing a mega event for the young entrepreneurship summit.

Nishtha Chandalia from Entrepreneurship Cell IIT Kharagpur, who belongs to Udaipur told Royal Harbinger that Global Entrepreneurship Summit-2018 is scheduled from 2nd to 4th February, 2018. This is one of the flagship events of IIT, Kharagpur and the biggest entrepreneurial platforms for New-age Entrepreneurs, Eminent Business personalities, Venture Capitalists and College Students to showcase their entrepreneurial endeavours and experiences, and to pledge to take entrepreneurship in India to greater scales.

A young student from Udaipur Nishtha Chandalia has been

a promising Chess player who won many awards in this game at state and national levels.

She stated that the major draw of GES is the quality and variety of speakers that it has seen over the years. The previous editions of GES have witnessed stalwarts such as Sundar Pichai (CEO of Google), Rajat Sharma (founder and CEO of India TV), B K Chaturvedi (former cabinet secretary, Government of India and Padma Bhushan Awardee), Sramana Mitra (Forbes Columnist and Silicon Valley entrepreneur), Sanjeev Bhickchandani (Founder, Naukri.com), Vani Kola (MD, Kalaari Capital) and many more. The GES 2018 alike its previous editions will follow the same course. Workshops, focused on building the entre-

preneurial acumen of participants are also in the pipeline by companies like Samsung, Microsoft, BSE, IBM, Intel, Flipkart, Amazon Web Services, Deloitte, Calcutta Angels, VMware and other such corporate giants.

Global Entrepreneurship Conference serves as a conclave for discussion of opportunities and programs steered towards popularizing entrepreneurship across the world. The conference is followed by Connect the Dots, a discussion amongst the Entrepreneurship Cells in India about the Indian scenario and how best to go about promoting entrepreneurship in their respective campuses.

The event shall also have a Start-up Camp which aims to help Start-ups to recruit the

finest talent amongst GES participants for internships/jobs while giving them an opportunity to meet the biggest VC and Angel Investors in India present on campus.

The Global Entrepreneurship Summit, with its varied content and participation, will prove to be the ultimate stage for propagating this cause. Participants should register at www.ges.ecell-iitkgp.org/registerfortheSummit.

The accommodation of students attending for the three days of GES will be taken care of by IIT Kharagpur for which they will be charged nominal. Early Bird Registrations have been started and the last date for early bird registrations is 20th December 2017.

'Drive the Nation Sales Program' on high demand

Udaipur: Toyota Kirloskar Motor extended its special sales initiative "Drive the Nation" until December 31st 2017 for state and central government employees. The campaign has been highly appreciated nationwide by customers across India for the customized offers and the value proposition that Etios series offers as an ideal family car. Strong demand from customers and positive push in sales has encouraged TKM to extend this campaign for each quarter. Rolled out in 2016 in-line with Toyota's customer first philosophy, a driving force behind all innovative products and services, "Drive the Nation" campaign offers a range of benefits starting from affordable funding solutions focused on low customer acquisition cost, attractive offers on Toyota Protect Insurance and Toyota Genuine Accessories and unmatched extended warranty.

The campaign has successfully contributed to around 7% sales to total sales for Etios Series and 11% sales to personal segment. Drive the Nation scheme presents a 100% On Road Funding for a tenure of 8 Years for serving and retired government employees with Zero Down Payment and Lowest EMI. "Drive the Nation Champions" have been appointed in each of the sales outlet of Toyota in order to give dedicated attention to all government employee enquiries. This promotional offer will be supported

through Toyota's large sales and service network spread across the country. Speaking on the initiative, N Raja, Director & Senior Vice President (Sales & Marketing), Toyota Kirloskar Motor Pvt. Ltd said, "Quality products and services are integral to Toyota's goal of customer delight.

We continuously try to ensure that we offer a range of products and services to suit the requirements of customers. It gives us immense satisfaction that 'Drive the Nation' campaign has generated overwhelming response in each phase since its launch in 2016.

VODAFONE M-RURAL RAJASTHAN GO CASHLESS

Udaipur: Supporting the Government of India's Digital India programme, Vodafone M-Pesa has been helping urban and rural residents of Rajasthan to go digital and adopt a cashless living. 75% of total customers who all are paying EMIs of various banking & non-banking financial companies are eligible to pay their EMIs through M-Pesa. Vodafone M-Pesa now has 14 lakh registered users across 33 districts in Rajasthan and most of them do their money transfers & EMIs payment easily even from remote rural areas for Rajasthan. Vodafone M-Pesa is a secure mode of payment for all utility bills like Electricity, DTH, post-paid, and pre-paid recharges. To facilitate easy EMI Payments, Vodafone M-Pesa has partnered with various non-banking financial companies which include Home Credit.

Zinc - The Powerhouse of Electricity Poles

Pawan Kaushik

When India is looking ahead providing electricity in every village and progressively moving towards Smart Cities Project, Digital India and Make in India, the very basis of infrastructure, the power transmission, needs to be protected for many years.... And that is where Zinc will again prove to be a future metal.

When was the last time we saw a tall standing electrical pole and thanked him for providing electricity to our houses. Well, we all have grown seeing these poles and they do have memories of our childhood. Little we knew that these poles are protected through hot-dip zinc galvanization and this is the reason they are standing tall from years after years, and have seen perhaps more age and weather conditions than us.

Since the advent of high voltage lines hot-dip galvanized steel has been used in the electric utility market. Whether in a generation facility, substation, lattice tower, or renewable energy components, galvanized steel has been a backbone of any country.

According to the American Iron and Steel Institute, close to 1 million steel distribution poles have been installed in the United States since 1998 and are being used by more than 600 U.S. electric utilities. India might be having more poles but how many galvanized is still to be assessed.

Since zinc is anodic to steel, the hot-dip galvanizing also acts as a sacrificial anode if the galvanized coating is physically damaged to some degree. If individual areas of underlying steel become exposed, the surrounding zinc will provide sacrificial cathodic protection (CP) to the unpro-

tested sites by corroding preferentially. The zinc is consumed as it sacrifices itself to protect the bare steel. Generally speaking, galvanized steel can last for many years in non-aggressive environments, and typically does an excellent job of protecting steel when the structure is located in moderately corrosive environments.

It is also true that the galvanizing on structures will corrode over time. The rate that the thickness of the zinc coating will diminish and the length of the remaining service life of the galvanizing-and the structure itself-are contingent on the active corrosivity of the environment.

Several factors are associated with the corrosion rate of galvanized structures, such as the in-service atmospheric conditions to which the aboveground portion of the structure is exposed, and the soil environment where the structure's foundation is buried. When India is looking ahead providing electricity in every village and progressively moving towards Smart Cities Project, Digital India and Make in India, the very basis of infrastructure, the power transmission, needs to be protected for many years.... And that is where Zinc will again prove to be a future metal.
