

## Together with me: Be a better Son

Kashish Sodhi

It's cold and foggy outside. I was trying to enjoy this weather with my friends, sipping a cup of hot coffee. Suddenly, I saw a footage on the tv in which a son was dragging his mother to the terrace of his apartment. I am horrified to see the expressions of this so called son who is a professor. Actually I don't want to think about his mental state right now. I think only a sick person can behave like this.

I am a son and it makes me crazy when I think about the whole incident. His mother was a patient and bed ridden due to brain haemorrhage.

This is not merely an incident for me and the purpose of raising this issue is not only making you all aware of the facts but to accept the reality of today's social structure.

I am only 21 and in spite of all obstacles my mother has raised me very well. But when some other boy does this with his parents, I feel a moral responsibility on my shoulders to show the good side of a son

who has been raised by a single parent. Its not about any particular person, its about all of us.

I think the problem is hidden deep inside us. We have started giving value to money more than our relations. Few years back relations were alive, but in this era I can only see the value of wealthy relations.

Our human values are going down. Our neighbour Dr. Singh Hada will contest from the Mandalgarh assembly seat. The names were announced by BJP'S central election committee secretary JP Nadda. Yadav has already been campaigning for the past few days.

The Congress too announced its candidates - Raghu Sharma for Ajmer LS bypoll, and Vivek Dhakad for Mandalgarh assembly bypoll.

The Congress has announced former MP Karan Singh Yadav, a cardiac surgeon, as its candidate for the Alwar Lok Sabha seat.

By-elections to the two Lok Sabha and one assembly seats

# BJP Names Minister Jaswant Singh is for Alwar by poll

### Raghu Sharma for Ajmer, Vivek Dhakad for Mandalgarh bypolls

**JAIPUR:** The Bharatiya Janata Party (BJP) on Sunday declared its candidates for the Rajasthan by-elections State labour minister Jaswant Singh Yadav is the candidate for Alwar Lok Sabha seat and Ramswaroop Lamba, son of late MP Sanwar Lal Jat, is the candidate for Ajmer Lok Sabha seat.

Former zila pramukh Shakti Singh Hada will contest from the Mandalgarh assembly seat. The names were announced by BJP'S central

election committee secretary JP Nadda. Yadav has already been campaigning for the past few days.

The Congress too announced its candidates - Raghu Sharma for Ajmer LS bypoll, and Vivek Dhakad for Mandalgarh assembly bypoll.

The Congress has announced former MP Karan Singh Yadav, a cardiac surgeon, as its candidate for the Alwar Lok Sabha seat.

By-elections to the two Lok Sabha and one assembly seats

in Rajasthan will be held on January 29. & counting will take place on February 1. The last date of filing the

nomination is January 10, scrutiny of the nomination papers will be done on January 11 and the last date for withdrawal of names is January 15.

The bypolls were necessitated following the demise of two sitting BJP MPS - Sanwar Lal Jat (Ajmer) and Mahant Chandnath (Alwar) and the sitting BJP MLA Kirti Kumari in Mandalgarh.

On Sunday, Pilot said the party win all three seats.

The Rajasthan BJP had sent a list of three candidates

to the party's parliamentary board for short-listing a candidate on each seat.

Political analysts said that bypolls to the three seats will be a referendum on the performance of ruling BJP, a year ahead of the state assembly elections.

The opposition will try to exploit issues such as the Goods and Service Tax, incidents of lynching and cow vigilantism, killing of gangster Anandpal and the farmers' demand for a loan waiver.

## 120 ITI/Diploma Pass-Outs Joined Hindustan Zinc Mining Academy

The mining sector has the potential to create hundreds of thousands of jobs in the country thus eradicating poverty at large. Indian natural resource industry has seen significant change in the last 10 years in terms of technology, employment generation, metal production and attracting best of Indian and global talent that includes engineers and management graduates.

Being a responsible metal and mining company, Hindustan Zinc has set-up 'Hindustan Zinc Mining Academy', in collaboration with Skill Council for Mining Sector (SCMS) and training partner Indian Institute of Skill Development Pvt. Ltd (IISD) to train about 500 ITI/diploma pass-outs in five years in Jumbo Drill Operations and Winding Engine Operations to enhance employment opportunities of

eligible youth of Rajasthan.

Hindustan Zinc Mining Academy is now commencing its 6th Batch of 'Jumbo Drill Operator Training Program' with an inaugural function on 3rd January, 2018 at Railmagra Centre, Rajsamand wherein 120 select ITI/Diploma pass-outs will be trained under this 18 months residential program. The Chief Guest of the event was Kastoor Meena - Site President, Rajpura Dariba Complex who encouraged candidates to work hard with focus, dedication and discipline in Academy to have a secure future.

Hindustan Zinc Mining Academy has three Centres running at Bhilwara, Rajsamand and Zawar near Udaipur with candidates from all over Rajasthan. All Academy centres run in a professional manner with inbuilt monthly

monitoring systems. Since the course is residential, the academy has a provision for free boarding and lodging facilities for all the selected candidates in all training programs.

Earlier, Hindustan Zinc has commenced 5 batches of 18 month long Jumbo Drill Operator Training for ITI/Diploma pass-outs and in Winding Engine Operator Training Program where 47 ITI/Diploma pass-outs were enrolled and their eight months training got completed in October 2017. Besides Winding Engine Training, these candidates are also being given exposure in Banks-men and Bellman Operations. Recently, the company organized placement drive for these students and 136 passing-out students got jobs with an average package of Rs. 25,000/- per month. Hindustan Zinc's business part-

ners have come together to employ these trained youths and use them for their different operations.

Pavan Kaushik - Head Corporate Communication, HZL said "with the setting up of India's perhaps first Mining Academy, Hindustan Zinc is developing an ecosystem and contributing in unlocking India's potential in mining. This is certainly going to enhance India's capability in skilling of people in mining space and putting India on growth path".

Also present were, Sanjay Sharma - AVP, HZL, Sajany Kathod - Unit Head, RDM, Sunil Dixit - Commercial Head, RDC, Abhay Gautam - Head CSR, RDC, Mr. Ravi Gupta - Training HR Head, Deepak Gakhreja - Location HR Head, Deepak Mishra from SCMS, Anshuk Talwar from M/s IISD and other dignitaries during the event.

### Conquering the mind is the greatest success in life

**Udaipur:** The mind is very flickle, which keeps the man going astray. The mind can be kept under control through devotion. Conquering mind is the biggest success of life. Consistency is always helpful in moving towards the heights, while the distortion gives up to humans. This was stated by Radha Swaroop Jaya Kishori while describing the soul of the "Shrimad Bhagwat Katha" in Katha organized in Rajgarh (MP) for raising funds for free treatment of the Divyangs by Narayan Seva Sansthan. She said that by acquiring knowledge, the soul gets away from the Maya trap. Such creatures enjoy life at every place. Knowledge of Bhagwat is the knowledge of God that brings us out of the darkness. Knowledge is the greatest light. It stops pride. Life is a sun-shadow game. Keep winning away from evil in this game is as good as it is. The program was live broadcasted on Satsanga channel.

### How can a son throw his mother from rooftop just to get rid of her?

It's a complete failure of our social structure. Old generations blame us to be more mechanical but can anyone tell us what they have taught us. My mother has taught me to value relationships and because of us she accepted a less glamorous life. If she had ignored us, we would have turned into robots who work to earn money only. Young generation blindly follow old generations. I will not disappoint her for making me a good human being. I hope others understand this and be a better son together with me.

## Chief Minister meets PM

**Jaipur:** Chief Minister Vasundhara Raje met PM Shri Narendra Modi met on Saturday in New Delhi.

This courtesy call from CM The Chief Minister discussed a number of important issues related to Rajasthan with the Prime Minister. CM also presented the posthumous of Nathdwara Shrinathji to the Prime Minister.

## Celebration Mall to be acquired by Prestige Group

Prestige group will acquire CapitalLand's stake in seven entities engaged in retail real estate for Rs 342 crore. This includes 100 per cent stake in Flicker Projects Pvt Ltd. that owns & operates Celebration Mall in Udaipur.

"The management sub committee of the company has approved acquisition of CapitalLand's stake in entities engaged in business of retail malls...For an aggregate consideration of approximately Rs 342 crore," Prestige Estates Projects Ltd mentioned in a

BSE filing.

Besides the Celebration Mall deal, Prestige will increase its stake from 37% to 50% in Thomsun Realtors. Thomsun owns malls and apartments in Kochi. Further, Prestige will acquire additional 24.5% stake in Babji Realtors Pvt Ltd, owner of retail mall in Hyderabad.

As per the filing with BSE, Prestige Estate will also acquire balance 50 per cent stake in a mall management firm CapitalLand Retail Prestige Mall Management Pvt Ltd.

## Save your loving pets from cold

Everyone is feeling that chill. Temperatures have fallen to a great extent making people feel breathless. This chill is enough to make people stay under wraps. With the sun losing its effect and cold waves leaving everyone disturbed,

it is suggested that we make our pet animals as comfortable as we make ourselves. Everyone loves their pets. But with this winter season, how many of us are careful with our pet's comfort? Department of Animal husbandry has issued an advisory for taking care of pets. Attention needs to be paid to dogs most of all since they are prone to diseases in winters.

Pets need to be provided with comfortable sleeping zones. Sleeping directly on the floor can prove to be dangerous for the pet dogs. They also need to be protected from cold waves. Dr. Surendra Changani

### Winters-There's more of chill to come

It's January 2018 and it is just the 2nd day. Temperature is going down every day. It is already giving that painful chill effect. Met department says that with temperature at 7 today, expect more of a chill to come in the next two days. The cool breeze is adding to the chill...shivering bodies can be seen by the fire side on roads. Yet no one can experience the terrible effect of winters more than those who are homeless, those who are on night duties and those silent stray spectators. Sun's heat has gone almost negligible due to cold winds. Winter season will show its monstrous effect in the following 2-3 days, so we need to gear up to face this chill. Do make sure to give away old clothes to people living on streets instead of giving them to your maids or servants. People on streets are in need of help more than anyone else.

says that a bed made of grass covered with a sheet should be used for pet dogs and cows. A sheet should be wrapped onto them for more comfort. They must also be left to bask in the sun since the sun's ray can eliminate the effect of cold that collects in the body at night. As for dogs, a proper diet has also been advised. Fish

supplements and green vegetables (based on family) must be fed to the dogs. Calcium bone is also a must. Even dogs suffer from dandruff. They must be combed from time to time, especially twice a day. In case of ailments like winter diarrhoea, sneezes and vomits a veterinary doctor must be consulted without fail.

### Three Day Shagun Expo Job Fair from 20

**Udaipur :** The Women's wing of Shagun Seva Sansthan will organize a three-day Shagun Expo-2018 at Nazar Bagh near Panchwati UIT Pulia.

There will also be attractive competitions for women and boys, in which prizes are also held for the winners.

## Electro Galvanizing... a boon for automobiles, appliances and fasteners

Electro galvanizing is the process in which a layer of Zinc is bonded to steel in order to protect against corrosion. This process involves electroplating i.e. running a current of electricity through a saline Zinc solution with a Zinc anode and a steel conductor. Similar to sheet galvanizing, the operation is continuous and the coating thickness is minimal. Applied in a steel mill, the steel sheets or strips are fed through entry equipment into a series of washes and then rinses them into the Zinc plating bath. The corrosion protection offered by the electrodeposited Zinc layer is primarily due to the anodic potential dissolution of Zinc versus iron (the substrate in most cases). Zinc acts as a sacrificial anode for protecting the iron/steel.

Zinc plating was developed and continues to evolve, to meet the most challenging corrosion protection, temperature and wear resistance requirements. The most common applications are for automobiles, appliance bodies and fasteners. The steel sheets can be coated by electro galvanizing one or both the sides. Due to their high corrosion resistance, electrogalvanized products are recommended for numerous applications especially in the automotive industry.

Unlike hot dip galvanizing, electroplated Zinc provides - Lower thickness deposits to achieve comparable performance; Broader conversion coating availability for increased performance & colour options; and brighter, more aesthetically appealing deposits.

**JAIPUR:** Addressing graduate, postgraduate and doctorate degree recipients at the 34th convocation ceremony of Banasthali Vidyapith on Sunday, vice president M Venkaiah Naidu said that he was amazed to see the beautiful amalgamation of women's education, values, Indian culture and ethos, technology and advanced infrastructure of the university. Hailing the unique educational ideology of Panchmukhi Shiksha at the residential campus for women, Naidu said through this, students will take the legacy of ancient Indian women scholars like Lopamudra, Gargi and Vidyottama.

"Such a unique educa-

tional ideology should be replicated across the entire country. It will help us go back to our roots. One should never forget ones mother, mother tongue, motherland and Guru. Google will never become a substitute for Guru. Instead of caste and community, people should focus on character, calibre, competence and conduct," he said.

## Swearing-in ceremony of Creative Club International Club

**Udaipur:** The Executive Committee of "Creative Camera International Club" formed by The Universal Senior Secondary School was organized at the school premises. Rakesh Rajdeep and Vishnu Paliwal and Vice Principal Mrs Shamshad Khan will cooperate principal madam The newly elected president of the club Rahul Pandey, Vice President Chabhi Chitrol, committee coordinator Pushpendra Rathore, theme committee coordinator Harsh Vardhan, finance coordinator Ruchi Rajput, technical coordinator Pawan Suthar, in-charge Jitendra Rao, were sworn in for respective posts.

## One kg of lump removed

**Udaipur:** In the GBH American Hospital, Gynecologist and Laparoscopic Surgeon Dr. Monica (Sharma) Khandelwal and her team performed an operation with Laparoscope & removed single kilogram of lumps from the woman's uterus. This operation was done keeping the uterus safe so that in the future she may not be deprived of conceiving further

Group director Dr. Anand Jha said that this kind of operation is performed with major surgery in Mewar. This is the first operation of this division to remove such a big lump from the uterus with the help of a telescope. This woman was suffering from fibroids and infertility for many years. The woman was discharged on Wednesday after operation with the telescope. The patient is now fully satisfied and satisfied with the big operation of this new technology. Dr. Monica said that till now such patients had to go to big cities such as Ahmadabad or Mumbai for advanced operation, but now this facility will also be available at GBH American Hospital for udaipurites..
