"Long years ago, we made a tryst with destiny and now the time comes when we shall redeem our pledge... At the stroke of the midnight hour, when the world sleeps, India will awake to life and freedom."—Pandit Jawaharlal Nehru

In his note, the Chief Guest said that the youth of today is the powerhouse of tomorrow; he also appreciated all the Ryan performers for their enthusiastic performances and the skills to confront the audience with confidence. Principal Mrs. Poonam Rathore extended her warm wishes on the national festival. On Republic Day friendly cricket match between Lake city press club and Hotel association was played at field club.

Love thy Nation

The celebration of the Republic Day has always been a matter of joy and pride for the entire country and Udaipur is no exception. Amid bone-chilling winter and cold waves, school children are all set to deliver their performances that they have prepared over a time of past few weeks. Truly, the enthusiasm that kids demonstrate remains unmatched. Their interest in history and taking pride in heroes who made the country remains exemplary.

Same used to be the fervor of the adults who were kids a few years ago but as the time passes, the celebration becomes more formal than real, which is fine too. As long as you are patriotic and love your country, you are a good citizen. The country only needs people who love it back in real. And that does not require you to show off your patriotism, rather you need to act in a civilized way and ensure you only make

lives of the fellow citizens better.

Simple things like being honest to work, keeping premises clean, and respecting others are what you need to be a patriotic and return the much love the country has bestowed upon you. The natural phenomena of what you get is what you gave fits here too. Nature ensures that the country returns

you the love you give away to its people. Love attracts love and same is true for hate and greed.

It's just impossible that you are vandalizing people's property and your belongings at home would be safe. Your things will be damaged by nature in the same way you did. People who disrespect women outside their homes are asking for

same disrespect for their families. Just imagine this. Unless you are totally inhuman, you would not like to treat your loved ones the way you do to others.

The law of nature is clear and ostensible. And not just once, the nature gives you such examples umpteen times before you. It's your choice to ignore or learn.

The nation is another form of nature. It's listening to each of the words you say, each of the things you do, each of the acts you perform. And then, it carefully ensures you get what you gave with interest.

So, be very careful about giving away because the same is going to return. Love your nation and it will love you back

with a warm hug.

The kind of person you are is very important for you, your family, and of course for the nation. You are going to be the same kind of people back. For example, imagine, or rather foresee that a guy dating your daughter after few years is exactly like you. Now if you are happy, then great, if not, then it's high time to change.

You only select the kind of person you want to meet in the future. For example, if you are generous and kind to others, you will find god cab drivers, nice neighbors, and nice colleagues.

And if you are negatively bad, you will attract the people who are like you only.

Next time when you complain about your luck, see if you are good to others.

The country only needs you to be human and it will love you back. Love your nation so that it can love you back.
