A SPELL OF ENTREPRENEUR CRICKET CUP'18 ENDED WITH A SPARK OF HOPE IN HEARTS OF CRICKET LOVERS WITH I.P.L PLAYERS PLAYING IN THE MATCHES

Udaipur: It all started with an idea of 5 cricket lovers who met each other in a random manner and decided to bring the dreams to reality. MR. Vikas Joshi: The Organiser (Laxmi Publicity), Mr. Kailash Meena: Icc Level 1 Coach and NSNIS Coach, Rakesh Jain: BCCI Level 1 Umpire, Vidhi Dungarpuria: Former Cricket Player, Coordinator, Raju Mali: Cricket Player, Coordinator we started with the planning of league matches but when the teams showed interest it turned up to a huge collection of 32 teams hence we turned upto knock out matches of T-20 Format. All the matches were conducted at Field Club. Outstation Teams which include Madhya Pradesh, Punjab, Gujarat and Maharashtra also showed their interest and registered themselves with us. Our focus was to give corporate sector a platform for communication and a place to diversify their business into

more directions. Also aimed that developing professional cricket in Udaipur in a systematic and professional manner. Before starting of the tournament, Firstly, the draws and fixtures were conducted ON 18TH APRIL 2018 by Mr. Gajendra Sharma (Physical head at DPS), Mr. Nitin Menaria (Physical Teacher at St. Mary's School) stating the teams playing format, saying who will face whom. Total 31 matches were to be conducted out of which there were 4 quarter final matches, 2 semi-final matches and 1 final match was decided. We also kept a handicapped match for the children of Narayan seva Sansthan by the Corporate Social Responsibility towards the society. Moving forward a grand TROPHY LAUNCHING AND T-SHIRT LAUNCHING was conducted by the Special Guest of Honour FORMER INDIAN CRICKETER MR. DINESH

MONGIA ON 22ND APRIL 2018 JOINED BY INTERNATIONAL TEST UMPIRE MR. RAGHUVeer SINGH RATHORE, CENTER ZONE SELECTOR KULDEEP MATHUR, Trophy Sponsor MR. KALPESH MAKWANA FROM AKSHAR DIGI SCALE AND MR. PREM MENARIA FROM PREM ENGINEERING THE MAIN SPONSOR OF THE TOURNAMENT. The matches started from

25th April 2018 and ended on 6th May 2018. Every day had 3 matches in a row starting from morning 6:30 a.m. to evening 5:00 p.m. The team who won moved forward to the next match. The closing ceremony of each day's man of the match was given at the end of the day by guest and dignitaries of Udaipur. Between this we had started a ceremony of felicitating the persons or the developers for

the sincere acknowledgement for valuable service as facilitator in development & growth of cricket in Udaipur may it be directly or indirectly. And we FELICITATED THE PERSONS OR THE PLAYERS MAY IT BE CURRENT OR FORMER PLAYERS WHO HAVE REPRESENTED RAJSTHAN IN VARIOUS FORMATS OF CRICKET. The tournament was mainly attracted by MR. ASHOK

MENARIA: FORMER INDIAN TEAM CAPTAIN UNDER 19, IPL PLAYER FOR RAJASTHAN ROYALS, RANJIT TEAM CAPTAIN, MR. RAGHUVeer SINGH RATHORE: THE INTERNATIONAL TEST UMPIRE, KULDEEP MATHUR: CENTER ZONE SELECTOR, NIKHIL DORU: FORMER PLAYER INDIA TEAM 'A' who were the guest of the tournament.

Heart of the public was stolen by the great playing spirit of IPL PLAYERS ADITYA GADHWAL AND NATHU SINGH, ranji Players Yash Kothari, Sourabh Chouhan etc also played a professional inning. The Grand Finale was played between WONDER CEMENT CRICKET ACADEMY AND MANAN HOLIDAYS were Wonder Cement Cricket Academy uplifted the Winner trophy by beating Manan hol-

idays by saving its 6 wickets in hand. Even the runner up team- Manan holidays was so much strong that Wonder cement cricket academy had a tough challenge to beat the team. This was not the only end. The BEST BATSMAN- MR. Vaibhav Chandrakar was the key hitter of the tournament. The Spin and the pace power was shown by BEST BOWLER: Yash Kothari from Bhillwara. No matter whether you know the cricket or not but the spirit of supporting the tournament was shown by KALADWAS CHAMBER OF COMMERCE AND INDUSTRIES (K.C.C.I.) hence the organising team awarded the KCCI TEAM with FAIR PLAY AWARD. The thief of the tournament i.e. MAN OF THE SERIES award was grabbed by MR. AAKASH GOUTEL FROM MANAN HOLIDAYS by following the professional approach and made his place for this award.

Kota: Biggest Power Hub of Rajasthan

Dr. Prabhat Kumar Singhal At the time of independence, there was no such scenario of electricity availability in Kota district as it is now seen after 67 years of independence. At that time only one town and one village had electricity but in presently 855 villages been electrified in all cities. This scenario tells the story of power development of the district itself. During the regime, Kota was the only steam-based power house in the city whose power generation capacity was 324 kilowatt. In the district, 0.39 million households were benefited from the power by the year 1957. Electric production @ Kota Kota district is nowadays known as the hub of power generation projects of electricity generating based on heavy atomic water, coal, and gas are in the periphery of 60 km from Kota city. Now super thermal power project, Rana Pratap Sagar and Kota Dam are producing electricity at the nuclear power plant and anta gas based national thermal power project at Pan Biji-ligar Rawatbhata. These projects are currently producing a total of 3511.3 MW power, the second largest power production center in the world Chambal river valley project has opened the door of power

generation along with the development of irrigation and drinking water facilities. About 65 km from Kota district Rawatbhata, Rajasthan atomic power house has made the country's business identity. Rawatbhata has become the world's second largest production center in nuclear power generation. In the year 1963, with the help of Canada, two units of 110-110 total 220 MW power generation capacity started production in 1973 and 1981 respectively. Under the Indian nuclear power expansion projects, it was established at a cost of 570 million dollars. In 220, unit III of megawatt capacity was started from December 24, 1999, and unit-4 of the same was revolutionized on June 1, 2000, which started commercial power from June 1, 2000, and December 23, 2000, respectively. In the next phase, the fifth unit of 220 MW capacity and a 220 MW capacity unit was installed. The fifth unit started commercial production from 4th February 2010 and the sixth unit from 31 March 2010. In order of expansion, unit 7.7 and 8 of 123.2 billion rupees based on two new Indian designs of 700 MW class were established. The seventh unit has started production on

December 14, 2012.

The project produced 1202 million units of electricity in 2010, production of record 360 crore rupees in the year 2013. Similarly, under the Chambal river project, four units of 23-23 MW capacity have been set up at Gandhi Sagar dam (Madhya Pradesh) in the first phase of the scheme. In the second phase, four units of 43-43 MW capacity were planted on Rana Pratap Sagar dam of Rawatbhata (Chittorgarh, district). From these started power generation in 1968-1969. In the third phase, three hydropower plants of 33-33 MW capacity were installed at Jawahar Sagar dam (Bund district). These three units produced a total of 3432.40 million units of electricity worth 139.68 crores by breaking the record of last seven years in the year 2013. Kota thermal power station The series of efforts of power generation continued to run smoothly. The idea of setting up coal-based thermal power station on the introduction of Chambal river in up strip of Kota barrage was made in the 1970s. construction work of two units of 110-110 MW power generation in the first phase of the project started on 17 January 1970. Unit-1 started production in January 1983 and

unit-2 in July 1983. In the second phase, two units of 210-210 MW were installed. unit-3 started in September 1998 started production in May 1989. In the fourth phase, a unit of 210 MW capacity- 5 and 195 MW capacity unit was installed. Unit-5 started production in March 1994 and unit-6 in July 2003. In the fifth phase of the project, 195 units of 195 MW started power generation in May 2009. Thus, at present, 1241 MW of the project is that all the units are working well us the date. This project has honored several times for excellence in power generation. Coal is supplied to the project by Singoli, CORBA and Rewa. There is an arrangement of 5 million tonnes of coal storage at the same time. Electricity is sent out of eleven line of 220 kv from the project site. National thermal power corp. Ltd. 50 km from Kota national thermal power corporation Ltd., in distant anta (Baran district) four units of total generation capacity of 419.3 MW based on gas have been set up. 418.97 crore has been spent on this project. The first unit was started with 88.7 MW power production in January 1989 and the second unit of the third capacity from March 1989 and the third unit in May

1989. The fourth unit started in March 1990, of 153.2 MW capacity. these units were established with IBJ and world bank cooperation. gas is supplied by the IBJ - pipeline from the south basin gas field to the project. MTPC based on coal and gas, it is the largest company in the production of electricity. With this, if we look at the context of the Kota division, then 85 km from Kota, 121 km from the city of Jhalawar, on the bank of the Kailasindhi river, Rajasthan state power generation corporation Ltd, two units of 600-600 megawatt production capacity is producing electricity in two phases. The first units were started in March 2014 and the second unit was started in June 2014. inputs like water from Kali Sindh dam and coal from the state of Chhattisgarh are provided for power generation. The super-thermal power plant of 2320 MW capacity was established at chandi madhupura near Cabada, 70 kilometers away in Baran district. Here the first phase of 250-250 MW capacity started in October 2009 and the second unit started production in 2010. In the second phase, the third unit of 250-250 MW capacity was commissioned in December 2013 and the fourth unit started power generation in July

2014. While in the third phase, the fifth unit of 660-660 MW capacity was synchronized in October 2016 and the construction work of the fourth unit was going on fast. Two units of 660-660 MW of 1320 MW capacity of Adani group have been set up at kawai, about 40 km away from Baran. Rajasthan is the largest thermal project of power generation in the same place. this project has been established in the area of 812 hectares. It includes 25 hectares of land for the township and 25 hectares of water for the pipeline. **Current scenario** The current scenario is surprising, by March 2017, the total consumption of power in the district was 16,605 lakh units. In the domestic usage, 5230 million units were used while for commercial use in 1970, 4510 in industry, 3810 in irrigation, 510 in water supply, 305 in universal lighting and 270 lakh units in other forms of use. the district has 2 lakh 56 thousand 410 domestic and 37 thousand 070 business connections. There are connections on 25 thousand 784 tube wells for irrigation. 220 kv/3a 132 KVK 118 and 33/11 KVK 104 grid substation are installed in the district of the power supply.

What after tenth?

Psychological test at Sojatia on 20 and 21

Udaipur: Sojatia Science Academy located in Sector-4 of Hiramagari. One of the city's prestigious and prestigious educational institutions has brought a very unique adage for the children appeared in tenth then have A golden opportunity.

Every PARENTS wants that child must become IAS, Doctor, Engineer, CA but they did not know potential of them whether he will succeed in it, then come to the Sojatia Science Academy on May 20 and 21. Taruna Agrawal, a well-known psychologist, from Indore on these days will be examined in a scientific way and the future of the children, in what subject. He or she has maximum possibilities

Professor of NCER Dr. Ranjit Singh Sojatia will be present on this occasion especially.

Why Counseling is Important

In this context, Dr. Mahendra Sojatia, director of Sojatia classes told that it is generally seen that students have to face a lot of difficulties while selecting their courses, subjects, and further studies. Several times students choose such stream under pressure where they can not do better. If they get an opportunity to read according to their interest then they can do better. Through this counseling, students will be able to know which subjects will be more successful in Science, Commerce, and arts.

Registration is ongoing for counseling. You will have to pre-register at Sojatia Science Academy located near Hansa Palace in Sector 4 Hiranmagari

For finding out the interest of children, a psychology test will be conducted. The test will be held in three phases. In the first stage, the child will have to give 1 hour written examination. In which questions related to personality, interest and skill test will be asked. The second phase of the examination will be based on the first stage. In which the report will be released on the basis of the test. After a week in the third phase, experts will discuss with the students personally and plan a career.

Shantilal Chaplot to begin indefinite hunger strike

Udaipur: Veteran lawyer and former speaker of legislative assembly Shantilal Chaplot will start his "fast unto death" stir from 16th demanding establishment of High Court Bench in Udaipur. President of Ration Dealer Association, Roshanlal Samota may join Chaplot in the hunger strike. Chaplot said that they had to take this extreme step since they were only getting false assurances from the government but no tangible measures. Chaplot added that UDH minister Shri Chand Kriplani wanted that Chaplot does not sit on hunger strike but he was determined to take the stir to logical conclusion and would not even mind giving up his life for this movement. As per information on administrative action, President Ramnath Kovind had met CM Vasundhara Raje on Sunday night. President had asked CM to send a proposal via the State Government along with team of 11 advocates to Delhi. Raje had asked for a representative team to meet her. This team will meet Raje on 18-May.

Ajmer to get Rail Museum

Jaipur: Ajmer will soon have a new tourist attraction in the form of a railway museum, a top official of the North Western Railway (NWR) official said on Sunday. The museum, the first of its kind in the railway division, will have on display implements and paraphernalia of the metre gauge trains and tracks, the official said. North West Railway chief public relations officer Tarun Jain said the Ajmer Municipal Corporation will submit its detailed project report this month and the railway museum will cost Rs. 3.5 to Rs. 4 crore. It will be built with the help of Union ministry of urban development and the state government, he said.

West Zone Cultural Centre presented "Abhinandan" at Rajbhavan, Jaipur

Jaipur: The Honorable President of India, Shri Ram Nath Kovind and the First Lady Smt. Savita Kovind witnessed brief cultural presentation "ABHINANDAN" at the Rajbhavan, Jaipur. This special concert of 25 minutes was hosted by the Governor of Rajasthan and Chairman, West Zone Cultural Centre Shri Kalyan Singh in the honor of the President of India on May 13, at Rajbhavan, Jaipur. This programme was attended by the Chief Minister of Rajasthan Smt. Vasundhara Raje, Speaker Shri Kailash Meghwal, Ministers and High Dignitaries.

"Abhinandan" showcased our rich cultural heritage through Tribal, Folk and Classical art forms. Classical Kathak Dance choreographed by Pandit Harish Gangani had a classic blend of delicacy and vibrancy with mesmerizing musical support. It included various intricate elements of Jaipur Gharana. Desert Symphony displayed various beats imbued with melodious music. Jakab Khan Manganiyar's singing made this presentation memorable. Bhangam players Yusuf and Mehmod displayed perfect combination with Nagada of Kailash and Khadtal players and

the artistes and team members of WZCC put their best to make this show a memorable event.

Honorable Governor, Shri Kalyan Singh appreciated efforts of Shri Furqan Khan, Director of WZCC and his team for this special show. I was fortunate to be part of WZCC team and to anchor the show. It was a pleasure of learning new things and to interact with the Tribal, Folk and Classical artists during 'Abhinandan'.
