

## Happy Monsoon

The rain is round the corner and so is the long awaited hope to get respite from the scorching heat. Rain should be one of the most beautiful seasons of the year, but due to some ill-arrangement and mistakes, it becomes unbearable. Water-logged roads, accidents, and ailments make the fantastic season a curse for many.

There are many reasons for the mess that is beyond your control as for why some houses are constructed in the riverbeds or why roads are not repaired ahead of rains and so on. But then, there are many things that we as a citizen can control and improve to make our neighborhood immune to any mess in the rains.

Charity begins at home, and this is why check all the outlets of your balcony and roof to ensure that waterlogging does not take place in your house. We do not care enough but at times the water collected in an old cold drink can lying in the corner of the roof can create a colony of insects and mosquitos.

Now since we know that there are multiple kinds of insects that germinate in the clean water, you need to ascertain that the water of the cooler is emptied once a week. Similarly, there

## Editorial

are many dense shrubs in the garden where water gets logged and creates mosquitoes. We believe that the water will be soaked by the soil, but a saturated part of soil keeps the water where it is. Stepping out of the house, you can check if the primary water outlet is free of any obstruction, at least the part that covers your house wall. To prepare for the rains, you can install a net so that the water can flow freely and the solid waste gets collected on the net. Later that waste can be removed to restore the full flow of the water. If installing a net is a task, a stone of apt size will also do.

True, that this the task we pay taxes for but when we fall ill due to the collected water, we have to pay extra bucks to the doctor. You can consider that you are saving on medical bills by keeping your surroundings clean and hygienic.

If you have a bore well setup on your premises, you must also ensure that the water harvesting system is all functional and its pipes are connected and are leak-proof. Of course, if you do not have a water harvesting set up already, you must get one immediately. This has nothing to do with any return to charity, but you will be saving water for your children and grandchildren.

All these small efforts from your side will not only keep you satisfied, but it will perhaps also inspire the others. You do not need media campaign or any hashtag for this, just do it and inspire.

And please do not forget to store enough gram floor, edible oil, and vegetables like potato, onion, chili, cauliflower, and others that you love to be in your Pakoras. Happy Monsoon.

## “Golmaal – The Play” rocks!

**Mumbai:** The distinguished

film and television actor Vindu Dara Singh's maiden venture into production has reaped rich fruits. His maiden play, "Golmaal – The Play" has received a tremendous appreciation from not only the audience but also the stars and celebrities who were fortunate to watch this play. In admiration and salutation the B-town celebrities posted their comments on the play. The noted comedian of Indian

cinema, Johnny Lever and the first stand-up comedians in the country said, "Wakaye hi kamaaldhamaal comedy hai!" Actress Archana Puri Singh, who played iconic comic roles of 'Miss Braganza' in 'KuchKuchHotaHai' and others and the judge of comedy, chipped in saying, "It's a great ensemble laugh a minute comedy!" Multi-talented actress Bhagyashree who bagged the Filmfare Award for Best Female Debut in 'Maine Pyaar Kiya', approving the praise by her colleagues added, "Every time I heard bzzzzzzzzzz I couldn't stop laughing!" Her actor-husband Himalay Dassani who is a producer and businessman too supplemented the appreciation by saying, "It's simply the best way to spend your weekend."

From the musical department, noted playback singer Alka Yagnik, a two-time recipient of the National Film Award in a career spanning over three decades commented, "I think 'Golmaal....' is the funniest play I have ever seen!" "It's a very funny play and the entire team deserves a round of applause!" pronounced the veteran singer Sonu Nigam who is also a live performer, host and actor too. Padmashree awarded ghazal singer Pankaj Udhas subsequently speaking highly said, "Golmaal.... Is actually a pure non-stop laughter!"

Putting his stamp of approval actor-director Parmeet Sethi excitedly says, "Bzzzzzzzzzz.... outstanding. People will understand as to what I'm saying when they see the play!" TV star Puneesh Sharma and 'Bigg Boss 11' fame added, "The comedy of Golmaal.... Is awesome and the energy shown by Vindu Paaji and his team is fantastic!" The gorgeous Bandagi Kalra who made her presence felt in the reality show, 'Bigg Boss 11' putting her hands together announces, "It's a laugh riot!" "It is very hard to make an audience laugh and 'Golmaal – The Play' has passed the test with flying colours!", puts in the veteran television and film actor Avtar Gill.

'Golmaal – The Play' is a satire on the existing education system including its functioning and policies and the trouble the parents undertake running from pillar to post. The popular Punjab famed duo Lakshir Lahiri and Lucky Hans are the directors of this hilarious play which is of 2 hours' duration. Apart from Vindu Dara Singh, the play features an ensemble of star cast like Sheeba, Rajesh Puri, Payal Gogga Kapoor, Lakshir Lahiri, Surleen Kaur and Akashdeep. The script of 'Golmaal – The Play' has been written by Lucky Hans. Akashdeep is the creative director.

Vindu Dara Singh is ecstatic with the response received for his maiden production. "I am lucky to have got a fantastic team. It is a good sign. The crowd has applauded and has approved my maiden production which is a blessing in disguise"

# Radio City's Gig City Season 3

The concerts will air every Friday 7:00PM to 9:00PM and a repeat broadcast on Saturday 9:00PM to 11:00PM across 25 Hindi Speaking markets.

## Basic Pranik Healing Workshop concludes in Udaipur

**Udaipur:** Pranik Healing expert Hasan Lamba said that the treatment of pranik healing can get rid of many diseases. This is an art that can be easily learned. He was speaking at a day-long workshop organized on Pranik Hiling organized in Gold Leaf Villa, Bhuwana Bypass. He said "Prana" is the Sanskrit word for life force. It is called 'chi' in China and 'ki' in Japan.

Pranik Healing is a revolutionary and comprehensive system of natural healing techniques that uses prana to treat illness. It is a synthesis of ancient, esoteric healing methods that have been rediscovered, researched and tested over decades with proven success by the founder of Modern Pranik Healing, Grand Master Choa Kok Sui. Pranik Healing has been described as a simple and yet very powerful technology that can be employed with immediate benefits to the patient.

It just isn't your physical body we are talking about here. Do you know that your thoughts and feelings are nothing but energy waves that can actually be measured using instruments? Even your relationships and the amount of money you earn are all fundamentally energy 'patterns'. What is fascinating is that all human beings have the innate ability to feel and 'modify' energy. Call it Breath of Life or Vitality of the Soul, Prana is the life sustaining force found within the body of every living thing. Without

Prana, we cease to exist as "living beings".

Grand Master Choa Kok Sui explains: "Life Energy or Prana is all around us. It is pervasive; we are actually in an ocean of Life Energy"

**Principles Behind Pranik Science**

The fundamental principles of Pranik Healing are

- Principle of Self-Recovery – The innate ability of every living being to heal itself
- Principle of Life Force – Healing process can be accelerated by increasing the pranik life force of the individual

How does it work?

Pranik Healing corrects imbalances in the body's energy field and transfers life force to the patient. This life force can also be characterized as universal energy; it is not the healer's energy. Trained Pranik Healers access and transmit universal energy to the patient using specific frequencies and techniques for specific diseases and conditions

Pranik Healing is done without touching.

Pranik Healing is a three step process that substantially accelerates the body's innate ability to heal at all levels: physical, emotional, mental and spiritual.

**Some Benefits of Pranik Healing**

- In cases of fever, parents can bring down the temperature of their children in just a few hours
- Coughs and colds can usually be alleviated in a day
- Major illnesses such as eye, liver, kidney, and heart problems can be partially or substantially relieved in a few sessions
- Improved health and increased stamina
- Inner peace and happiness
- Better memory and concentration
- Rapid spiritual growth
- Reduced stress
- Better interpersonal skills
- Greater self-esteem
- Attain the ability to attract good luck and become more prosperous

## Hindustan Zinc awarded Frost & Sullivan TERI - Sustainability 4.0 and Safety Excellence Award 2018

Hindustan Zinc's Chanderiya Lead Zinc

## Organized meeting on road safety

**Udaipur:** The second block level meeting of the stakeholders on Road Safety under Rajasthan State Security Education and Awakening is being organized jointly by Hindustan Zinc Limited and Rajasthan Road Safety Society, organized in the office auditorium of District Legal Services Authority, Udaipur. In order to create a Road Accident Zone, the society was organized in collaboration with the stakeholder departments/organizations in the strategy being adopted by the society. Officers of Government of India, including Police, Transport, Transport Police, Public Works Department, Medical and Health Department, Bar Association, Gram Panchayat Representative and Hindustan Zinc participated.

Virendra Singh Rathore, the technical advisor to the Government of India, Road Safety and Infrastructure, Road Transport and Highways, apprised the scenario of road safety of the country, state and district. Appeal to all stakeholders to use the schemes related to security of the Government of India and state government, which are expanding on the departmental action plan to reduce the road accidents. Addressing the meeting, Ms. Prabha

Sharma, President of District Legal Services Authority said that the road accidents are increasing in the state. On an average 28 people are being killed in road accidents every day. Most of the deaths are from the younger class. Among them are 60% pedestrians, bus passenger cycles, motorcycles etc. In such a situation, it is very important to inform the public regarding road safety measures for safe movement. Those traveling by their own vehicle should get the full information of the rules of traffic only after driving and these rules should be followed. They are playing with the joint efforts of the society and the Hindustan Zinc, praising the mission and strategies, he said that on the basis of this, if there is a huge reduction in the number of accidents in the whole state can be brought to the mission. Mrs. Riddhima Sharma, the full-time Secretary of the District Legal Services Authority informed that Rajasthan Road Safety Society is working till the grassroots level. He assured the society that we would cooperate with your full cooperation. Hindustan Zinc CSR Head Nilima Khaitan discussed the concept of the Five Spice. Due to working on this fits, road accident deaths can be reduced.

Deputy CMHO Dr. Raghavendra Rai, Panchayat Samiti, Girisha Pradhan Mr. Takhat Singh also expressed the views. Pawan Kaushik, Head Corporate Communications, Hindustan Zinc, informed that through awareness of road safety in rural and urban areas under the BCEF program and through the Safeguard Project, more than four thousand children and families have so far been given the medium of commercial film, presentation, and story. Information is being given to keep yourself and family safe. The objective of this project of Hindustan Zinc is to make the road, home or workplace safe to be safe at every place so that the commitment of the families and children to create security in their own mind.

## Reliance Mart, Udaipur fined

**Udaipur:** District Consumer Forum imposed a fine of Rs 3000 to Reliance Mart situated at Lakecity Mall Udaipur. The fine was issued in a case of selling expired product. The case dates back to Jan 2016. Mavli resident Avtar s/o Kartar Singh Khatri purchased a Swiss Roll worth Rs10 from Reliance Mart, Lakecity Mall on 24, Jan 2016. There was also a Rs2 discount on the Swiss Roll. When Avtar came home and checked the product details, he found that the product was manufactured on 9, Nov, 2015 and had a 75 day expiry date. This meant that the product had expired by the time he purchased. Avtar then filed a case in District Consumer Forum against the Manager at Reliance Mart, Lakecity Mall, Udaipur. The jury at District Consumer Forum acknowledged the complaint filed by Avtar and handed over a fine of Rs 3000 to be paid by Reliance Mart to Avtar Singh in next two months.

## PLASTIC POLLUTIONS

**"Plastic pollution is an economic issue and needs to be addressed by every individual", Sunil Duggal, CEO HZL**

**Udaipur:** Hindustan Zinc celebrated World Environment Day on 5th June, 2018, with an objective to create awareness about how the waste and discarded plastic can be reused gainfully. To mark World Environment Day, HZL organized an exhibition that had various displays of products made out of plastic waste. Activities like painting and puzzle competition, and 'Best out of Waste' ideas were organised to create consciousness towards environment protection. Around 250 ornamental and fruit bearing plants, vegetable seeds and earthen bird water feeders were also distributed to the employees and their families. Aligning with the theme of the World Environment Day, Sunil Duggal, CEO, HZL inaugurated a PET (PolyEthylene Terephthalate) Bottle Scrap Machine, that converts waste plastic bottles into bricks. These bricks are supposedly as strong as a conventional house bricks made from sand and cement. Many earthenware containers were also kept on display to portray how these could be used as a perfect substitute to plastic as well as paper glasses.
