Delhi and Its Predicaments

The recent ruling by the honorable Supreme Court in the case of Delhi government versus union government has only reiterated the constitution. Even though it seems correct technically, the power or should we say, the authority that the elected government has got is massive by all means.

The elected government of NCT Delhi led by Arvind Kejriwal will now be able to take their independent decisions and implement the same without any concurrence or approval of the lieutenant governor of Delhi Anil Bajjal. This was not the case before July 4 in this present tenure of government. The elected government had to seek approval of the LG of NCT Delhi on each and every file and this was one of the main reasons for clashes between the LG and CM.

While the LG believed that the government does not follow due to constitutional and lawful procedures, the CM would allege that the LG was just obstructing the ambitious development plans of the elected government.

Arvind Kejriwal got a massive relief from the honorable Supreme

Editorial

Court as it was clarified that the elected government does not need any approvals from the LG. And that is why there was no need to send each file to the LG. But yes, LG must be apprised of all the decisions made by the government. Although the matter of control over Services department is still with the LG. The government says that except the three departments including Law and order, land, and police would remain with the LG so automatically the services department would fall under the control of the government. However, the IAS Association is of opinion that their reporting still remains with the LG as the notification quashing previous honorable high court order is still a matter due before the court. The situation that now emerges is clear. If the government had completed all the requirements before sending those files to the LG earlier, they should be in a position to start the plans right away. Any delay would need a serious justification. And people might not be interested in excuses anymore as already 70% of the total time the government had, has been elapsed. But a matter of relief is that the CM himself has posted himself on the front and schemes are being approved at a swift pace.

Approved schemes are now being implemented at war footing level. This could be true but this could still be deceiving. So, both people and government in Delhi must be vigilant. These are the final few months and the public will only judge based on the promises fulfilled. Even if the government fails to fulfill big promises, it will still need to complete many small promises before the end of the tenure.

Now, since most of the projects can be completed at the cabinet level, the government will have no excuse to put before the public. Not only Delhi but the entire political system in India at least is keeping a close eye on Delhi. Not just because it's the national capital, but more because the AAP government got to the power after claiming all other parties corrupt and also assured to bring a sea change in the governance. Now is the time and now is the best-suited conditions.

Avoid allergic conditions on Skin & Hair During this Monsoon

Dr. Naresh Arora

Some apprehensions like itching, rashes and allergies on our skin, face and body are always there during the rainy season. With rain in Delhi, high humidity brings with it continuous sweating and sebum oozing out of our Face, and that even the mild sunlight can play havoc with Sun Tan, burning sensation and even dehydration of the skin. Gastric acidity and indigestion makes our skin more vulnerable and susceptible. Most of these problems

can be prevented through aromatherapy applications. Rainy season is a refreshing season but one has to remember the hazards of bacterial infections and detergent to them. The natural remedies are as follows.

HAIR CARE
Remedy of hair and scalp problems like dandruff, dry and itchy scalp in monsoon includes Rosemary oil 1 drop, Basil oil 1 drop, Tea Tree oil 1 drop and Patchouli oil 1 drop mixed with 1 Tsp Almond or Extra virgin Olive oil.

Apply on scalp on alternate nights with gentle finger massage for 10-15 minutes. Wash off next morning with Lavender Shampoo. Apply pH 5.5 Hair Conditioner or Hair Spa Cream.
SKIN AND BODY CARE
Remedy for or skin and body problems like allergy, rashes, etc. prepare a body and facial scrub with ½ Teaspoon of Dead Sea salt, ½ TSP Brown Sugar, Ubtan ½ tsp and make paste with 1 Tsp Skin Butter (Shea and Cocoa Butter) , add 10 drops Lemon Juice and 2-4

drops of Neroli Oil . Dryness is quite common in monsoon and its mainly because of the deficiency of vitamins and essential amino acids which helps in repairing dry and lifeless skin. The condition of dry skin becomes worse in the monsoon. A solution of arganoil, fresh curd and honey if applied as a pack and rinse away after 10 minutes with a herbal face wash is very beneficial for a dry skin. Even a paste of coffee dust and honey applied and washed off after fifteen minutes with luke warm water keeps the dry skin soft and nourished ..The paste should be well massaged and scrubbed on Face and body with gentle movements for 5-10 minutes and then leave for 5 minutes. Wash off well and apply SPF 10-20 Sunscreen. Repeat the process every week and see miracle happening after three sittings. For pimples on the face, cleanse the face with Mint facial gel and apply high frequency ozone treatment for 8-10 minutes. Provide Facial Steam with Anti Ace oil (2-4

drops) followed by cold compression. Apply Tea Tree Facial gel for 10-15 minutes and wipe off. Apply Neem and Mint Face Pack and wash off when completely dry, apply Skin Toner. One should take diet of salads and whole fruits and drink as much water as possible. A pack of gram flour, milk, honey and lemon gives an oily skin a fresh and glowing look A pack of pulp of ripe papaya or cocoa powder scrub applied and washed off after 10 minutes with cold water leaves the greasy skin fresh and glowing. Add few drops of rose water for enhanced result. Rose water is a blessing for oily skin. Rose water helps to remove the excess oils from your face. It also prevents the growth of acne-causing elements with its pH balancing properties. Hot water wash is more advantageous than cold water as hot water helps in dissolving the oil from the skin easily. It is crucial to maintain healthy fooding habit during rainy season because during the rains, there is a high amount of humidity in the atmosphere

due to which our digestive system gets apathetic. It is important to note that the food you're consuming has a strong impact on your skin. Go for the balanced diet with all types of vitamins and minerals

FOOT CARE
During the rainy season, fungal infections are more usual and formidable than at any other time of the year. This is because most fungi thrive in damped climate. Fungal infection of the foot sole is always a matter of concern in the rainy season (Athlete's Foot) and it requires specialized pedicure. Use one teaspoon of Dead Sea salt and two drops of Basil Oil in the Pedicure Tub and soak the feet for 10-15 minutes. Make sure to put on your socks after complete drying of fingers and foot sole Apply talcum powder. Open footwear is prescribed for the monsoon season rather than closed footwear like shoes and boots. Even nails are at high risk during rainy season. Nails can become discolored, brittle and rough. In severe cases, the nail can get detached from the nail bed.

Wonder Cement Honoured with State Level Bhamashah Award

Udaipur: Wonder Cement Ltd. is awarded with State Level Bhamashah Award 'Shiksha Bhushan' by Govt. of Rajasthan for contributing in the development of Government Schools. RomComYaaram To Be Shot Entirely In Mauritius

be a romcom, Yaaram, will star Prateik Babbar, Sidhant Kapoor, Ishita Raj Sharma, Anita Raj, Subha Rajput and Dalip Tahil.

It is learnt, Yaaram being made under Yashvi Films Banner is being shot fully in Mauritius! Director Ovais Khan excitedly speaks about his pet project, "Yaaram has an interesting ensemble cast and is being shot in some of the most breathtaking locations of Mauritius. I have put my very crucial years of my life in this industry, tried to learn everything and waited to touch the right chord. Yashvi films has given me the chance to prove it and I am going to make the most of this chance!" Director Ovais Khan also said that it has been great working with Pratiek, Ishita, Sidhant... and other actors. The experience of working with two generations of good actors in one film is awesome. Their dedication left me in awe of them, they have adopted the characters so well that I feel like interacting with my characters all the time and not the actors. The locations I have chosen to shoot are mostly new and unexplored before giving my film a fresh look. I am really blessed to be associated with Vijay Mulchandani who gave me a chance despite being a new director. The music of Yaaram film has been composed by directors Sohail Sen, Jeet Gannuli, Rochak Kohli, Nayeem-Shabir with the lyrics being penned by Kumar.

CA VINAY BHATIA TAKES OVER THE REINS OF ROTARY DISTRICT 3011

New Delhi: 54 years old Chartered Accountant hails from Faridabad, Vinay Bhatia has taken over as the new Governor of Rotary District 3011. Rotary District 3011 is one of the largest district in the Rotary universe comprises many Industry tycoons of Delhi and Haryana. The outgoing Governor Ravi Choudhary handed over the baton to the new Governor in a district installation ceremony held yesterday evening in Hotel Leela. After taking the oath as New Governor of Rotary District 3011, Vinay Bhatia said his preference as a Governor would be to embed rotary in the society, so we can do meaningful social projects. "Some of the thrust areas would be to work upon cancer Sanitation and hygiene in schools and Environment.

Environment will be another focus area where Rotary District 3011 is in the process of setting up one of the largest seed bank by roping in 10,000 school students. The seed bank will paved way for an another mega plantation drives across the district. On this occasion R Director C. Baskar was the chief guest who spoke in detail about the Rotary's contribution in bringing social change in the society. The Rotary District 3011 which has 78 clubs spreads over Delhi, Gurgaon, Faridabad, Rohrak, Jhajhar, Namaul, and Rewadi. Also present on the occasion Punita Bhatia said, "The organization has conducted uncounted mammography drives, eye camps and also came up with its own blood banks and more as a part of their social responsibility.

Actress Nikita Rawal making debut in Telegu film Timpa

Nikita Rawal who is a known model and actress in Bollywood is playing Nagin in Telegu film Timpa opposite Vikram Roy. The film is produced by Shivraaj Production and directed by Kumaran Teli. She is playing ichchadharinagin who keeps the naagmani safe from bad people.

ridor from Surat to Ahmedabad. Mr Kalyansinh from Udaipur, on the other hand, got a successful living donor liver transplant at the centre. MBBS and MS (Surgery), Dr. Vinay Kumaran, MBBS and MS (Surgery), was led by Dr. Anand K Khakhar and Dr. Vinay Kumaran along with other team members which included Dr. Bhavin Vasavada and Dr. Hardik Patel. Dr. Anand K Khakhar, MBBS and MS (Surgery), M P Shah Medical College, Jamnagar on the occasion said, "In Gujarat, liver transplantation has been slow to develop due to the lack of trained transplant surgeons. The occasional transplants done in a few centres in Ahmedabad were either deceased donor transplants (a simpler operation) or were done by visiting surgeons from high volume centres in Delhi or Chennai. In such circumstances, Shalby's initiative is a blessing for liver patients in and around Gujarat". Shalby Hospitals decided to develop a liver transplant program at the SG Road facility in Ahmedabad, and they plan to eventually develop such programs at other Shalby Hospital branches too, including one to be launched in the immediate future in Jaipur, Rajasthan.

Talking about what leads to the need for liver transplant Dr. Vinay Kumaran, MBBS and MS Successful cases of liver transplant A liver cirrhosis patient in his 50s with no suitable donor in his family was on the waiting list for a liver transplant. With swelling of feet, fluid collecting in his abdomen, kidney function worsening because of the medicines being given to control the fluid in the abdomen, and diabetes, the patient needed immediate help. The donor, a brain-dead octogenarian who had undergone a massive stroke because of blockage of major arteries to the brain, came to his rescue. With the gracious gesture of the donor's family to donate his organs for transplant and permission from Dr M Prabhakar, the state transplant authority, to procure the liver at Shalby Surat and bring it to Shalby Ahmedabad for transplant, the donor team drove to Surat and operated on the donor to remove the liver. Since the liver cannot be kept outside the body for long, the Gujarat Police was requested to provide a 'Green Corridor' to transport it quickly to Ahmedabad. The transplant was successful and the patient is ready to be discharged from the hospital. While this is the oldest donor liver to be successfully transplanted in Gujarat, the world record for the oldest liver to be successfully transplanted is that of a 93 year old for a donor in Italy. In another case of living donor liver transplant, Mr Kalyansinh from Udaipur who is now fit and ready to be discharged from the hospital, was suffering from end stage cirrhosis of the liver. In his late 40s, the patient had collection of fluid in his liver which had to be drained periodically. After being counselled about living donation, his son volunteered to donate a part of his liver. Since medical tests showed that he would be a suitable donor, permission was obtained from the transplant authorisation committee. While transplant was successfully carried out on 28th June 2018, the donor has already been discharged.
