

'Anveshan 2019' - West Zone Student Research Convention held at Pacific University

Udaipur: "In the fast changing global scenario, India's youth will have to adopt Research as a career and increase the pace of research in order to establish India as a leading nation in the world." This observation was made by Prof. B.P. Sharma, Vice Chancellor, Gautam Buddha University, Greater Noida in his address in the inauguration ceremony of 'Anveshan 2019' - the Student Research Convention for West Zone, organised by Pacific University and Association of Indian Universities (AIU) at Udaipur. Prof. Sharma said that the way Artificial Intelligence (AI), Block Chain Technology, Big Data Analytics and Machine Learning are affecting human life all over the world, the nature of jobs would undergo

sea change in the near future and only research will sail India through this turmoil. Dr. Amrendra Pani, Director-Research, AIU in his address said that there is an absence of clamour to do something new in the educational field in India and AIU organises such conventions with an objective to bridge this gap. Prof. Mahima Birla, Chief Convener, 'Anveshan 2019', in her welcome address said that in the present era only research can find solutions to all the complex problems of day to day life. Dr. Birla said that Anveshan is aimed at identifying and nurturing research talent of the young budding researchers in the country and to provide them with a platform to express their innovative ideas. Prof. Dipin Mathur, Member,

Organising Committee informed that a total of 150 participants from 37 universities from the states of Rajasthan, Gujarat, Madhya Pradesh, Maharashtra and Goa presented 88 innovative projects during the convention. There were 2 rounds - Poster Round

and PPT Presentation Round. Renowned experts from the fields of agriculture, basic sciences, health sciences, humanities and engineering & technology evaluated the projects and declared three winners each from all the 5 fields. The winners will take part in

the national level convention to be organised later. In the Valedictory Session of the convention, the Chief Guest Dr. S.C. Tewari, Director R&D Division, Rotam Crop Science observed that Research is like a grinding machine into which we put all the innovative ideas

which after churning emerge refined and ready to implement. Mr. Hans Raj Choudhary, President, UCCI said that it is always enlightening to interact with today's talented youth and he felt certain that successful entrepreneurs of the future will emerge from the young innovators participating in the convention. Prof. Mahima Birla, Dean, Faculty of Management expressed hope that the young innovators will be able to convert their ideas into successful start ups making use of the networking they have developed during the convention. Speaking on behalf of the participants, Dr. Rachna Vishwanathan from SNTD University, Pune praised the efforts of the organising team and said that Pacific University

has a technologically advanced campus which facilitated the successful organising of this convention. Following participants were declared winners in their respective categories: **Agriculture:** 1. Yogesh Shrigopal Dayama, SRTM University, Nanded 2. Rahul R Shelke, Walchand College of Art & Science, Solapur University 3. Chavan Pratapsinh Mohan, Mahatma Phule Krishi Vidyapeeth, Rahuri **Basic Sciences:** 1. Avinash Kumar Rai, Pacific University, Udaipur 2. Patil Shubham Sanjiv, KBC North Maharashtra University, Jalgaon 3. Kiran Kadam, Mahesh Patil, Shubhashri Pusadkar, SRTM University, Nanded **Health Sciences**

Patel, Ganpat University, Mehsana 3. Mugdha Khatavkar, Nikita Salkar, Shravan Menerkar

Udaipur's Significant Personalities

Prem Menaria

Young and dynamic, Prem Menaria, Director of Prem Group Of Companies was born and brought up in Udaipur. He did his senior secondary with commerce from Shishu Bharati S. Sec. School, Udaipur in 1996. His B.com. and M.com. are from MLSU, Udaipur. From childhood only Menaria wanted to do something different, so just after his graduation he started working at Laxmi Engineering Works.

He worked there for about five years. He gained a lot of experience there by his hard work which enable him to set up his own company (Prem Engineering Works) by 2005. From 2005-2009, the company was engaged in machine installation and job work. It was well established by 2010 and work of all types of machine erection was done on turnkey basis.

The products of company include Cranes (Derrick, Gantry, E.O.T. and ARM), Water Sedimentation (Treatment) Plant, Gangsaw (Marble and Granite), Block Dressing Machine, Granite Block Cutter (Automatic) Single Pillar Granite Block Cutter, Double Disc Cutter,

Portable Edge Cutting Machine (Automatic and Manual), Single Arm Hand Polishing Machine (Marble and Granite), Some other products are Resin Line, Calibrating Machine, Line Polisher (Marble and Granite) and all types of stone processing machines Prem Engineering Works is a leading company in the field of manufacturing the state of the art machines used in marble quarrying, processing and finishing activities.

Backed by its experience of over thirteen years it has evolved as a market leaders of world class quality products. Over years it has catered to the needs of not only domestic clients but has also spread its wings in the international market giving a tough competition to its internationally established counter part. Impeccable quality, robustness, reliable productivity with low cost of operation and maintenance of the technical solution used in machine design, ensure the highest performance level. Impelled by the motto of quality product, better services and customer satisfaction, the company uses motor of I-2, I-3 for energy in the long run. Gears made by of leading companies like Crompton & Greaves, Tata Rotomotive and Bharat Bijlee and Shanti Gears are being used.

The company has expanded its dealership in southern states like, like Tamil Nadu, Andhra Pradesh, Karnataka and Maharashtra also. Products are also being sent miles away in countries like Russia, Ethiopia, Saudi Arabia, Muscatin Oman, etc. Menaria's factory employees 8 managers, engineers and foremen in addition to a marketing team. In Udaipur there are 3-4 companies of this type and his company is one of the top ones in the field. The tough competition does not defeat the determined Menaria.

His principle is not to comprise in quality and not to run down others. His approach is simple. Today there are large numbers of clients who blindly trust Prem Engineering Works. He believes in permanent business and services. Customer satisfaction is all important for him. Timely supply and service are the strong points. PREM MENARIA would like to be known

as a person who is down to earth, and achieved a lot with my hard work.

About the scope of business like his, Menaria says that it requires heavy investment difficult to sustain as competition is tough. China is employing new technology with automation through which the employment of the world is adversely impacted. His company regularly participates in the International Annual Stone Exhibition.

Menaria's life has been full of difficulties but he has faced them boldly. His marriage was a turning point in his life. He has been getting full support from his wife, MBA Seema who is his role model and is full of new creative ideas. She has worked in HR department of Biyani Girls College, Jaipur. As she had taken full responsibility of domestic matters, Menaria is free to devote himself to his business.

She is also Director, Seema Engineering Industries which manufactures Mineral based machinery and stone crusher plant on turnkey basis. Menaria is also much concerned about his health. He gets up early at 6:00 and has one hour walk at Fateh Sagar Pal. He also spends a long time at Gym with his wife. He takes some fruits as his lunch in the office. Evening walk is for 30-45 minutes. Dinner is light consisting of fruits and salads. About 2 hours are spent in watching news and entertaining or motivational TV serial. On weekends the family goes to movies, and to eat out. Once a month there are trips to places like Jaipur, Delhi, Ahmedabad and Pawagarh. There are meetings, kitty parties and picnics once a month.

He likes the company of those who help and motivate him in his business. He played football and also participated in many championships in his student days. Old films and songs are his favourite. He reads literature about engineering. Son Priyanshu, a student of class 10 is very much inspired from his dad and wants to become an automobile engineer. Daughter Nimmi is studying in class two. As President, ROTARY CLUB UDAIPUR MEWAR, Menaria is taking up several projects, especially for the welfare of below poverty line people. His vision is to set up an accessible BLOOD BANK for all sorts of people and he is highly interested in contributing to the making of Udaipur a Smart, Clean and a Green city.

At present, he is also the executive committee member of KCCI (Kalandwas Chamber of Commerce and Industries) where he is also contributing in the project GREEN KALADWAS, CLEAN KALADWAS. As President of the society of the complex in which he resides he has introduced power savings LED lights and rain water harvesting plant. In future, Menaria's plan is to enter the field of education in which Seema is keenly interested. It is a good way to serve the society.

For Menaria God lives in one's heart and always listens to sincere prayers. He believes that there is no age bar for learning and one should keep learning from good people. He would like to be known as a person who is down to earth and achieved a lot in a short time with his hard work. He is all praise for Udaipur city and suggests that it is the duty of every citizen to keep it green and clean. He believes that every citizen must plant at least one sapling on their birthday or some other occasion, so that the environment remains protected.

From the success story of a person like Prem Menaria, a gritty and self motivated entrepreneur one can learn a lot.

- Ashok Mathur

Burning Issue conveyed by a Boy to Tender Girl ' Book released

Udaipur: Poetry or gazal generates in form of couplets, stanzas, rhymes when there is pain in heart or in body or a fear of death than bhajangeet and gazal utters from mouth or transcripts on paper, give soothing expressions such as happened with a girl of Udaipur, who has expressed her emotions, expression rather say poetry ... dengue victim girl wrote poetry collection in the days of pain, and she thrust it into the garland of poetry through words. The book of the same Mala Rupikavita 'Burning Issue Boyfriend A Tender Girl' was released on Sunday in the Ramada resort of the city. In the presence of enlightened people and family, IAS Vinita Bohra, Additional Superintendent of Police Ranu Sharma, Shikha Saxena Director, Tourism Department, Professor Gayatri Tiwari, Professor Vijayalakshmi Chauhan, Ajay Sabla, Deepa Sabla, Yashi Sabla released the book collectively Khushi has written a book on the social and vivid issues of the country, in which children's tales, education, physical abuse, Dowry, strike, reservations, compensation, protection of girls, forced marriages, acid screening, child abuse, talent migration, regret, confidence rehabilitation, adolescence, lack of more than 40 contemporary topics. Nation Press Dot Com publication has been published in this book of happiness, studying in 12th of Delhi Public School. This book is also being displayed at Delhi's World Book Fair and Chennai Book Fair. How come the idea - Khushifond of happy music, they have been praying in vocal music and are preparing for the cats. Her aim is to graduate from the Institute of Management Education, like IIM. When he was suffering from dengue in January last year, he felt the pain of the world in front of this pain, he started converting it through words and contemplating writing a book. This book of happiness was published after 5 6 months of untiring efforts. The goal of Khushiahead is to write his new book on similar and vivid issues. It may be recalled that khushi is student of DPS Udaipur.

Udaipur designer steals the show

Udaipur: Dresses by Udaipur dress designer Supriya Sharma received widespread acclaim in the Ms and Mrs. India International Fashion Show in Dubai. Supriya was also felicitated for her effort during the fashion pageant.

The fashion show saw a participation of 500 participants from India, UAE, Malaysia amongst other countries. 30 participants were selected for semi final round. Supriya not only designed the dresses for the participants but also for the judge Dr. Priti Panwar Solanki.

Prior to this, Supriya had been the wardrobe partner in a fashion show that happened in Singapore last year. She runs a boutique called Rasm Rental.
