

Renovated old Government school

Udaipur: Rotary Club Elite started its new session by renovating Government Secondary school railway training school. Which is being run on the grounds of the railway training school, from the year till now, during the last two months, by spending around 2.5 lakh rupees, it is worth teaching made. The renovated school was inaugurated by the district collector Mrs. Anandi on July 3.

The collector said that there are about 65 thousand schools in the entire state, but according to the budget which comes from the budget, we can not improve the conditions of such schools in the coming 25 years. Therefore, we can improve

the terms of such schools by taking the local level support from those capable people of the society, who are the societies or those who are other Bhimshahs. When the school building is useful, the rooms will be beautiful, the means will be - children will also like to come to school and parents will not be able to send their children to the school. The condition of this school building was disheartened. In the cold room, water was dripping in the classroom, and children had severe problems in the winter in the winter. But today a good work has been done in collaboration with the Rotary Club Udaipur Elite. Undoubtedly, he deserves congratulations. The

collector challenged the teachers to try to bring their children along with their hidden talents

as well. At the beginning of the program, Sarita Duggar, President

of Rotary Club Udaipur Elite, explained in detail the work done in the school in the wel-

come annotation.

He thanked the teachers of the school during this time and said that your cooperation is also admirable because, despite the holidays in the school, you gave your invaluable assistance in the new construction of the school.

Club President Sarita Duggar told that last year, teachers from this school, management had met club officials when we were searching excellent teachers for felicitations by seeing the condition of the school, the principal refused to give the name of someone and from there the school

The club took responsibility for the improvement. During the last 2 months, the con-

struction of roofs at the cost of two and a half lakhs in the school, renovation of classrooms, development of a playground for children, and making them worth studying for children was done by doing various types of work.

Project coordinator Sudhir Duggad said that the condition of this school in the past was so bad that it used to run three or three classroom classes in a classroom. Gradually the water was dripping from the roofs. Due to the works done during the last two months, the work of this school has changed.

The computer lab will also be made in the school on behalf of the club. Separate toi-

lets will be made for children and girls.

School Principal Bhagvatilal Chobhisa said that when he took charge of this school, his school's condition was like Khandahar. Only a few of the 175 students enrolled in the school used to study. In the last 2 months, the classroom sheds of the tin shed painted rooms.

Kamlesh Talasera said that the club will improve the quality of education by constructing toilets in 51 state schools, drinking water tank, school coloring, and teachers tanning. Many members were present on occasion including Club member Ashish Chordia, Prashant Sharma.

Samsung and Apollo Hospitals Launch Mobile Clinic to fight NCDs

Chennai: Samsung India Electronics and Apollo Hospitals Group today launched the 'Samsung-Apollo Mobile Clinic' to provide access to quality, preventive healthcare against growing non-communicable diseases (NCDs) to the less privileged. With this program, the two organisations aim to leverage technology to ensure citizens in rural areas in need of healthcare have access to it.

The Samsung-Apollo Mobile Clinic was inaugurated by Hon'ble Governor of Tamil Nadu, Shri. Banwarilal Purohit in the presence of Dr. Prathap C Reddy, Chairman of Apollo Hospitals Group, Ms Sangita Reddy, Joint Managing Director, Apollo Hospitals and Mr. Jae Young Yang, Managing Director, Samsung Manufacturing Plant, Chennai.

Samsung-Apollo Mobile Clinic is well equipped with high-end technology for advanced screening of NCDs. NCDs are a growing menace across the world. Responsible for over 50% of deaths, NCDs like Diabetes, Cancer, Hypertension and Cardiac ailments cause the biggest fatalities in India. Samsung-Apollo Mobile Clinic is targeted to win over NCDs by driving awareness and through early detection and preventive screening.

People in rural areas will receive free-of-cost access to primary screening. Medical professionals from Apollo Hospitals will be engaged to execute the primary requirement of screening and camps through this initiative.

Encouraging this initiative Hon'ble Governor of Tamil Nadu, Shri Banwarilal Purohit, said: "It is a commendable partnership between Samsung and Apollo Hospitals and I appreciate their endeavour towards serving India and making it healthier. Together, Samsung and Apollo Hospitals will now ensure they will reach citizens

by creating access to quality prevention and early detection services right at their doorsteps. Healthcare needs increased focus and I am happy to be part of this journey to make a difference."

Marking this momentous occasion, Dr. Prathap C Reddy, Executive Chairman, Apollo Hospitals Group, said: "The biggest challenge in India is to make Healthcare facilities accessible to one and all, especially in the wake of the rising incidences of NCDs. An estimated 17 million people die of cardiovascular diseases worldwide every year. The solution to all this is early detection and prevention. But in our vast country, everyone cannot access hospitals due to time & distance issues. Apollo Hospitals decided to take the accessibility challenge head on. Powered by Samsung, we now have a Mobile Clinic which will reach everyone who needs healthcare. We are starting this with Tamil Nadu and will soon spread this across other states as well. Our fight with NCDs is not limited to metros, so why must our healthcare be limited to hospitals. Apollo Hospitals will reach every citizen and ensure we all stay healthy. Only healthy and happy citizens can build a prosperous India. And at Apollo we are doing our bit to ensure this."

"Samsung believes in transforming communities and creating a better life for people. We are pleased to partner with Apollo Hospitals for the Samsung-Apollo Mobile Clinic that will provide free medical screening camps and primary healthcare services for non-communicable diseases to the less-privileged in Tamil Nadu. Through this collaboration, we aspire to bridge the gap and provide access to quality healthcare facilities to the people of the state," said Mr. Peter Rhee, Corporate Vice President, Samsung India.
