

# Barring inconsistent matters, do relevant things- Justice Maheshwari

**Udaipur (Dr Munesh Arora):** Supreme Court Justice Dinesh Maheshwari urged senior advocates in the advocacy profession to impart training to young people by observing the dignity of their children and explain the dignity of this profession so that they can become better-skilled advocates in the future.

At the function, Justice Dinesh Maheshwari said that the life of a lawyer is devoted 24 hours to the parties and

this task is not easy for the advocate. He stressed the need to prevent inconsistent talk from judicial officers and advocates appearing in court, subordinate to the judicial system and make the way to justice easier. Justice Maheshwari urged senior advocates to share their experiences with trainee advocates so that they too can become good advocates with knowledge and values.

At the function, Justice Dinesh Maheshwari shared the judicial bar and

bench relations and the time spent with senior advocates during his stay in Udaipur. He described Mewar as the best in the country and said that it was never one to give up.

Earlier, Rajasthan High Court Chief Justice Inderjit Mohanty described the visit to Udaipur as historic and said that he had heard a lot of praise for Mewar.

Earlier, the in-charge Judge Sangeet Lodha said that Mewar is a pioneer and a knight and it is a matter of pride for him

to come to the honor ceremony of Justice Dinesh Maheshwari, such a knight who belongs to Mewar, to the moments spent with Justice Dinesh Maheshwari. Shared with him that he got to learn a lot by working with Justice Maheshwari.

He said that Justice Maheshwari made a better effort to reduce the inferiority of dialogue between lawyers and judicial officers and his effort to strengthen Rajasthan's judicial system is commendable. He urged the forum in the

House that both the judicial officer and the advocate are complementary to the running of the judicial system.

The ceremony was started by lighting the lamp by all the guests, during which member Uday Singh Deora presented Saraswati Vandana.

At the beginning of the program, Bar President Bharat Vaishnav highlighted the purpose of the event and stated that this is the first visit to Udaipur after Justice Dinesh Maheshwari took charge in the Supreme Court on which his honoring the ceremony is being held.

In the ceremony, Vice President of the Bar Council of Rajasthan, Rao Ratan Singh, presented the problems in front of Justice Maheshwari Chief Justice Rajasthan, Mohanty and in-charge Judge Sangeet Raj Lodha in connection with resolving various problems of the advocates and demanded their speedy redressal.

## Greetings to guests

At the function, Justice Dinesh Maheshwari of the Supreme Court, Rajasthan High Court Chief Justice Inderjit Mohanty, in-charge judge Sangeet Raj Lodha was honored by the officials of Bar Association under the leadership of Bharat Vaishnav Dr. Sachin Acharya and Farj and Ali Harsh Surana, who attended the legal seminar at the function was also honored by the Bar Association.

## Justice honored by former presidents

Former Presidents of Bar Association Senior Advocate Fateh Lal Nagari, Shantilal Chaplot, Ms. Shakuntala Joshi, Shambhu Singh Rathore, Shantilal Pamecha, Roshan Lal Jain, Jai Krishna Dave, Ramesh Nandwana, Pramodini Bakshi, Prakash Chandra Paneri, Kanhaiyalal Chordia, Hiralal Kataria, Tribhuvan Nath Purohit, Praful Karanpuria, Chandmal Sankhla Bharat Joshi Praveen Khan.

## A awareness campaign and survivors meet organized

On Monday, the Geetanjali Neurosciences Center of Geetanjali Medical College and Hospital, Udaipur, is trying to carry out a "BE FAST" campaign related to stroke that aims to spread awareness among people about stroke. For which Stroke Awareness and SURVIVOR meet was organized at Hotel Golden Tulip, Sardarpura. In which Neuro International came from America. Blaise Baxter was the chief guest and experts from Geetanjali Neurosciences Center Neurologist - Dr. Renu Khamesra, Neurologist and Epileptologist - Dr. Anees Zuckkalwala, Neurologist - Dr. Vinod Mehta, Neuro Vesicular Intensive Radiology - Dr. Sitaram Barath, Neurosurgeon - Dr. Dr. Govind Mangal, and C.E.O. Tamboli and Stroke Survivors and the public participated extensively.

Blaise Baxter said that as the problem of stroke is increasing in today's new era, many treatments of stroke have also been eliminated. He told that by giving importance to time, the sooner we get treatment on time, the more successful treatment can be. He told that 10 to 8 people have a blood vein ruptured stroke, also told about the treatment of schema stroke and haemorrhage stroke. Can be done by mechanical thrombectomy technique. It is a boon in the treatment of stroke. Where did finds the symptoms of stroke, immediately reached the Stoke Ready Hospital and kept his life healthy for not coming to Stoke.

Doctor Renu Khamesra told that the stroke can be in some form right now. He explains all the symptoms of BE FAST where blood pressure, sugar, cholesterol, TB, HIV, vein closure or vein rupture, chronic injury. Symptoms lead to stroke and this should be taken care of. Once a stroke has occurred, there is a possibility of it coming back, so he continued his treatment.

At the same time, Neurologist and Epileptologist, Dr. Anees Zuckkalwala explained the campaign of BE FAST that (B) means if the balance is deteriorated, (E) means not visible to the eyes, (F) means hanging of the face, (A) means hanging off the arm, (S) means difficulty in speaking and the last most important (T) means that as soon as all the above symptoms are seen in the patient, immediately take him to a stroke ready hospital.

Emphasizing the symptoms of stroke, Neurologist Dr. Vinod Mehta said that as soon as the symptoms of stroke are seen in the patient, then one should immediately go to the Stroke Ready Hospital so that the patient can be treated quickly, while sharing the information that Gitanjali The hospital is also a stroke ready hospital where necessary facilities are available for 24x7 stroke. Which includes a team of neuroscience specialists, CT, MRI and Keith Lab.

Dr. Sitaram Barath, Neuro Vascular International Radiologist explained about the treatment of stroke and explained that the treatment of stroke depends mainly on two things, how much block has occurred in the nerve and how long. If the patient has blockage in the small vein and is brought to the hospital within 4 hours and can be injected and clotting so that the vein resumes and in another case in which the time is above 4 hours. And the blockage is in a large vein in which case the clot can be ejected from the vein by current. This procedure is called mechanical thrombectomy.

On the other hand, neurosurgeon Dr. Govind Mangal told about the hemorrhage stroke, due to increase in blood pressure in this stroke, the fine vein of the brain bursts in depth and the patient goes into a coma. He also told that at some point it Stroke used to happen only in old age, but nowadays due to the change in routine, there is a lot happening in the youth too, the most prominent of this stroke. Moment is that it is the patient becomes unconscious and comes attack of paralysis in one side of the body.

At the same time neurosurgeon Dr. Uday Bhowmick clarified that the most important role of a neurosurgeon when a hemorrhage is stroke is that at which time the patient is to be operated or how to handle it, the team of neuroscience is there. Yes or no? He also told that awareness of heart stroke has arrived but it is very important to be aware of stroke. It is also stated that there is a type of brain haemorrhage in which a balloon is formed in the veins which is a serious condition for the patient in which he can also go into a coma.

## G D Goenka International School Students made all-terrain vehicle (ATV)

**Udaipur:** Students of G D. Goenka International School Udaipur have made All Terrain Vehicle (ATV) under the guidance of brilliant teachers, showing their amazing engineering skills.

In the press conference held Shalu Babbar, Principal of GD. Goenka International School, told that school children are helped to develop a scientific approach from the primary classroom level, to experimentally understand the tools of their choice at school and develop new models according to their mental abilities. Under this, the children together have created the All Terrain Vehicle-ATV, which is also amazing in appearance and its utility is excellent.

Shalu Babbar said that it took five months to materialize the plan for the construction of

such a vehicle. Many parts of this vehicle were sourced from abroad. The entire project was prepared by the students assembling themselves, showing the brilliance of their engineering. She said that by showing skills in this way, children can not only contribute to the development of the country, but can also establish their original identity as successful students. In this endeavour, junior students also shared their experiences under the guidance of senior students and played their role in everything from design to vehicle preparation. It was the students who proposed the project to the management and completed it under the guidance of skilled teachers.

Shalu Babbar congratulated the teachers, especially Ms. Priyanka (Project Coordinator), students and the entire Goenka team for this

project and for making such efforts in future to help the students to become successful citizens for the 21st century. she said that the all-terrain vehicle is a four-wheel vehicle that can run smoothly on bumpy ground. It has four wheels so it is also known as quad bicycle. Before making this bike-like quad bicycle, students studied it deeply under the guidance of teachers later discussed about the Parts. After that, parts were called from abroad. The most important thing is that all the parts are according to the standards of the European Council. They do not cause any harmful emissions. After that, the parties were assembled in school itself. The beauty of the holistic approach of the project is that the children of the primary also encouraged the excitement by making a sketch of this project according to their imaginations. This

multipurpose vehicle will be used for various tasks including monitoring, visualization in the huge campus of the school. Children will also be able to view the site. It has a 250 cc four stroke engine and a 7.5 liter tank.

## The Confluence of Judiciary appeared in Chittorgarh

**Chittorgarh:** The Confluence of Judiciary appeared in Chittorgarh on Sunday morning. Attending the inauguration ceremony of the court premises in Chittorgarh, all the judges insisted to work faster for the common man and the speedy disposal of pending cases.

Supreme Court Judge Dinesh Maheshwari said that the beauty of the judiciary is that wherever the judges go in India they absorb the culture of that area very soon. The language and culture of the whole country is different in many places and there are many challenges in front of judicial system, but all Indians are one.

He also referred to the characteristics and history of the fort visible from the court premises. He said that senior advocates should guide the young advocates in the court and the youth must take guidance from the experiences of senior advocates. In this way, working together will develop the judiciary and justice will also

be done faster. He said that in the field of law, youth are entering on their own free will, we must make them part of the judiciary which will give life to the judicial system.

Supreme Court of India judge S. Ravindra Bhatt said that he got acquainted with the history of the fort through light and sound show. He also remembered Maharana Pratap, Maharana Sanga and Maharana Kumbha on this occasion. He said that under the leadership of Chief Justice of Rajasthan High Court Inderjit Mohanty, the judiciary of Rajasthan will progress rapidly and the people here will get speedy justice. He said that special attention should be given to discipline, cleanliness and service in the courts. He said that it is the task of the courts to see them all in a uniform manner and serve the public. Chief Justice of Rajasthan High Court Inderjit Singh Mohanty said that this Court has been dedicated to public and the cleanliness and service of this Court will be presented as an

example for the whole country. He also remembered the hard work of all the agencies and people who built this building.

Judge Mohammed Rafiq of the Rajasthan High Court said that the disposal of the pending cases is a big challenge and we should overcome this. He said that the old cases must be settled soon, which will increase public faith in justice. All measures will be taken to improve justice quality. Delay in justice is like denial of justice. On this occasion, he praised the culture and heroic land of Chittorgarh and also mentioned Mira Bai, Panna dhay and Maharana Pratap. Rajasthan High Court Judge Pushendra Singh Bhati said that by strengthening the infrastructure of the courts prove that the jurisdiction of India's democracy is equally strong.

Big relief to the public  
The big personalities of the National level of the legal world have come here and opened all the doors of justice to the public.

By the strong work of the legal world, people will have the same faith in democracy and justice.

Chittorgarh court has largest campus, only Jaipur and Jodhpur courts have such big areas. Due to basic facilities, people, specially senior citizens and disabled people will not have any difficulty here. It also has a separate facility of modern toilets for women which are very clean and tidy.

Book Release  
Smita Chakraborty's book 'The Closed Prisons of Rajasthan' was also released in the presence of all the judges on the occasion.

## A fair to remember : LaljiKanji's fair

**Chittorgarh (Hritu Sodhi, PRO) :** There is a village near Chittorgarh District where Lord Shri Krishna had rested at night and where for the past 450 years Thakurji rests at night for 3 days every year.

For this reason LaljiKanji's fair is organized every year which starts from the night of Sharad Purnima and lasts for 3 days. People come to enjoy this fair not only from the headquarters but also from the surrounding districts. The special thing about this fair is that on the day of Sharad Purnima, Thakur ji swings in a boat made of 16 pitchers which revolves around the entire pond and after bathing on the lake, Thakur ji makes a night rest on the Raslila pillar where the Raslila

program is held all night.

Apart from this, a very interesting thing is that in this fair, devotees travel 12 Kos wishing only to meet Thakur ji. They believe that Thakurji will appear in any form to meet them.

In this journey of 12 Kos, the devotees visit 12 villages from outside and come back to the pillar in the morning.

I am talking about the village of Ghosunda, about 18 km from the headquarters where in Samvat 1665 i.e. about 450 years ago, where Lord Shri Krishna came to the village as a Kodhi (leprosy patient), he had demanded food from the villagers but the villagers ridiculed him. In search of food he was sent to Bhagat Kabra's house where he happily had food. After knocking on the door Bhagat Kabra gladly fed him barley chapati with kadhi and after that Krishna spent the night resting at his house. Thakurji appeared as a child in front of him. Kabra family asked Thakurji that they have seen Him but how will Thakurji convince the villagers that He has visited Bhagat Kabra. Thakur ji gave him a crown with a peacock feather on it and said that I will not only come to your house but also stay in your village for 3 days every year from now onwards. Since then, this tradition has been going on continuously. During this fair, the offerings of Kadhi and Baati are also offered to all the devotees as Thakurji's Prasad.

## Glittering fashion stars on the ramp

Avins K&R Fashion Show held grand event

**Udaipur:** Models walking the ramp on indigenous foreign music, beautifully showcasing the modern and amazing beauty of the costumes reflecting Indian culture, the model was eyeing the Avins K&R fashion show

The show's main organizer Suresh Bula said that fashion designers from different states of the country attended this fashion show. Rohit Motawat, Seema Singh, Prakash Chandra. Graced the ceremony

## President of India Graces the 5th Convocation of Sikkim University

The President of India, Shri Ram Nath Kovind, graced and addressed the 5th convocation of Sikkim University in Gangtok, Sikkim on (November 3, 2019).

Speaking on the occasion, the President was happy to note that in a short span of about 12 years, Sikkim University has made serious efforts to develop the intellectual and cul-

tural understanding of the people of the Eastern Himalayas. He was also happy to note that to promote local languages and literatures, the university is teaching Limbu, Lepcha and Bhutia in its campus.

And it has established the Centre for Endangered Languages for conservation of extinct languages.

He said that preserving and promoting the cultural heritage of Sikkim will prove to be a visionary initiative in protecting special identity of the State.

The President said that Sikkim has a strong possibility to become a model of development for other hill states. On the strength of conscious citizens, Sikkim is counted among the 10 leading states in the Human Development Index. Sikkim has set an example in education, health, sanitation and protection of wildlife.

It has also set an example before rest of the country in organic farming and becoming a clean, pollution-free state. He said that we should resolve that our country would also become a harbinger of organic farming and free of pollution much like Sikkim.
