JUST NEED OF COMMITTED EFFORT: PRAVEEN SUTHAR

Udaipur: Udaipur is a big tourist center with industrial activities. There is an immense potential of all-round development here for this, there is a need to convince the public with the government and people's representatives. Divisional president of Federation of Rajasthan Trade and

Industries, FORTI, Udaipur Branch, shared his views with Mangi Lal our marketing executive. Suthar shared his views on various problematic issues.

The traffic congestion will be less by bypass: Forti divisional president Praveen Suthar told that the National Highway 8 is passing through Udaipur and there is a long traffic jam in Udaipur but now a bypass is being constructed through Kaladavas Industrial area. As a result, the traffic passing through Udaipur will pass throughout. According to them, this bypass will reduce the traffic problem in Udaipur.

The use of technology should be in the work of infrastructure: he is of view that at present, the potholes of sewerage are being dug in many places in Udaipur but those potholes are not being covered hand-in-hand. In such a way, technology should be used in the work of infrastructure. In today's time, there are such machines which dig the pit and make it work even after it gets done. It should also be used in Udaipur. People will not have to cope with the inconvenience.

Promotion of tourism from film city in Udaipur: Praveen Suthar said in an interaction with marketing executive that tourism is the lifeline of Udaipur's economy, a large number of people are getting jobs in nearly 500 big hotels. According to him, Udaipur is currently world famous as film shooting and wedding destination. In such a situation, the government should plan to set up film city to further the tourism here. This will increase employment here. Ahar river is the soul of Udaipur: He told that the river Ahar is the soul of Udaipur and it is extremely necessary for longevity all-round development of cleanliness. Today it is suffering a lot of dirt but water management can significantly improve its condition. Also, citizens should also try for it.

Development of Entrepreneurs: Praveen Suthar said that the priority of the Forti Udaipur is to develop the entrepreneurs of Udaipur. For this, the institution regularly organized Seminars like E-Way Bill, GST etc. He told that the organization's plan is to organize a seminar to carry forward this year's Women Entrepreneur. And awards ceremony will be organized to encourage small entrepreneurs and businessmen of the division and the state.

B2 Category for Udaipur | Demand raised in Lok Sabha

Udaipur: MP, Arjun Singh Meena again placed demand in Lok Sabha demanding B2 category for Udaipur. Meena had earlier raised the same demand in March 2018 but could not make any headway.

Meena in his Lok Sabha address said that he would like to draw the attention towards his constituency Udaipur under the section 377. The population of Udaipur was recorded as 4,51,200. As per Government records in 2001, the population growth rate in Udaipur was 23%. If this growth is extrapolated to 2016, population of Udaipur would have been 5,00,000.

Further, 34 village areas around Udaipur have also been included under UIT. If population of these villages is also included in Udaipur's population and their growth till 2016 accounted for, then the population of Udaipur should be above 7,50,000. Considering the above arguments and growth in population, Meena demanded that Government of India classified Udaipur under B2 category so that all Government officials and citizens of Udaipur could get advantage of the benefits that accrue under that classification.
