The program was conducted by Himansuman and Bhavna Verma and Riteshwar Singh Rawat and the ceremony was praised by General Secretary Rohit Kumar.

Floats Tender For 300 Solar Water Pumps

Udaipur: The Public Health Engineering Department (PHED) Udaipur has issued a tender for 300 solar-based borewell water pumping systems.

To qualify, a bidder must either be an indigenous solar photovoltaic (SPV) module manufacturer, manufacturer of submersible pump sets, or system integrator with an experience of installing and commissioning of SPV modules, and solar-operated pumps for drinking water.

The last date for bid submission is June 20, 2019, and the value of the tender has been set at ₹216 million (\$3.1 million).

The tender, issued on behalf of the governor of Rajasthan,

is on a rate contract basis. In such contracts, the contractor supplies materials on demand, irrespective of the quantity, at fixed unit rates or prices.

However, government undertakings or departments dealing with the manufacturing of solar modules will be exempt from rating after they submit the relevant documents. The scope of work includes the installation, commissioning, and comprehensive operation and seven-year maintenance services for these pumping systems which will be installed in various villages and towns under Udaipur region.

Solar-powered water pumping sets are a great way of reducing the dependence on coal-based power for a coun-

try like India.

To help the distressed agricultural sector of the country, the central government launched the Kisan Urja Suraksha Evam Utthaan Mahabhiyan (KUSUM) program for farmers. The program is aimed at helping the farmers install solar pumps and grid-connected solar power projects, which in turn would provide financial and water security to farmers. The program targets to add a solar capacity of 25,750 MW by 2022.

Recently, the government of India's Energy Efficiency Services Limited (EESL) also issued a tender to procure 272,579 solar water pumping systems for member countries

of the International Solar Alliance (ISA). This was the first large solar pumps tender issued in 2019.

Earlier, in December 2018 the Maharashtra State Electricity Distribution Company Limited (MSEDCL) had issued a tender for 50,000 solar water pumping systems to be installed at project sites of identified farmers in the state.

Then in August 2018, the New & Renewable Energy Development Corporation of Andhra Pradesh Ltd (NREDCAP) issued a tender for 25,000 off-grid solar PV water pumping systems, 20,000 were to be AC solar pump sets, and 5,000 were to be equipped with DC motor.

Complete the work of public interest with priority Anandi

Udaipur: District Collector Mrs. Anand told the departmental officials that after the completion of Lok Sabha elections in 2019, speeding up their departmental work, prioritized the work of public relief in a priority, she said that special emphasis should be given to complete the work of various development and welfare of the people during the Election Code of Conduct expeditiously. Also giving instructions for issuing pending tenders for various works and starting the sanctioned projects, to the concerned authorities. These instructions were given to various departmental officers present during the review meeting of various departments held in the Collectorate meeting hall recently.

The Collector instructed to ensure quick disposal of complaints related to the public, make sure to settle quickly. Do not keep any complaints received from the Sampark Portal, Action Udaipur, Help Line or any other medium to inform administration. Additional district collector (city) Sanjay Kumar, CEO Meghraj Meena, Women and Child Development Deputy Director Mahaveer Kharadi, Assistant Director (Public Services) Deepak Mehta and other district level officers were present in the meeting. The Collector asked all departments to make concentrate efforts to make effective efforts for supply of drinking water in the district and to provide access to water to village, Dhani Dhani. Must get cleaned the water storage areas before the adjacent Monsoon strengthening, connecting roads and bridges in different areas, cutting extra branches of trees that may create hurdle in the power supply, removal of blockage in the water flow, Drains etc., etc. to the concerned authorities.

While reviewing the progress of departmental schemes, the district collector asked the concerned departments to expedite their implementation of projects pending about the complaints coming to her regarding the scholarship of the college students, the assistant director of the College Education and the Department of Social Justice and Empowerment have been asked to contact the colleges & resolve with immediate effects.

Activa Scooter's Limited Edition launched

Udaipur: Honda Motorcycle and Scooter Pvt Ltd, at its authorized dealer LakeCity Honda unveiled Honda Activa's Limited Edition for sale.

Company's General Manager Shail Mohan said that on this occasion, Harsh Pathak, Director and Regional Officer of the company, Varun Murdia, unveiled Honda Activa's Limited Edition attractive colors white for sale.

He informed that Honda Motorcycle and Scooter India (HMSI) has launched limited edition model of its bestselling 110 cc scooter Honda Activa 5G. The Limited Edition Honda Activa 5G will get as many as 10 new premium style additions and will be available in two new dual-colour options - Pearl Precious White with Matte Selene Silver, and Strontium Silver Metallic with Pearl Igneous Black. The new Honda Activa 5G Limited Edition gets new stylish graphics, black rims, chrome muffler cover, and a completely blacked out engine.

There are no technical or mechanical upgrades to the Limited Edition Activa 5G. The 110 cc scooter continues to get the same power plant and cycle parts. The engine is a 109.2 cc, single-cylinder, air-cooled engine which puts out 8 bhp of maximum power at 7,500 rpm and 9 Nm of peak torque at 5,500 rpm. The Honda Activa 5G is the single-most popular scooter in India, and has consistently sold over 30 lakh units over the past two years. In the 2018-19 financial year however, sales of the Activa declined by 4.6 per cent to 30,08,334 units from 31,54,030 units a year ago.

Now, with a new generation Honda Activa in the making, which will perhaps be the Activa 6G to meet the Bharat Stage VI (BS6) emission regulations next year, HMSI will be looking to get some existing stock and production numbers out of the way with the updated Limited Edition Activa 5G, before BS-VI compliant scooters, possibly with fuel injection.

All the customers present on this occasion were seen very enthusiastic about it and customers were also booked for it. Delivery to many customers was also provided at the ceremony. It is also available in minimum down payment with the finance facility.

New Flights facilities

Udaipur: Maharana Pratap Airport, Udaipur is set to felicitate a further drop in air traffic from the month of June. One flight each to Bengaluru, Jaipur and Ahmedabad will be stopped.

Indigo will stop operating its flight 6E-978 that leaves Bengaluru at 11:30 am and reaches Udaipur at 1:50 pm. Similarly, 6E-979 that leaves Udaipur at 2:25 pm and reaches Bengaluru at 4:45 pm will be stopped. These flights will stop operation from 10-June. Indigo will however continue its other flight (6E-968/6E-969) between Udaipur and Bengaluru in afternoon/evening.

Spice Jet will also stop its flight between Udaipur and Jaipur. This flight was started about 2 months back but its stoppage poses a major challenge to regular business and tourism travellers between the 2 cities. This flight will stop from 30-June. With this stoppage, there is only one flight between Udaipur and Jaipur and that too operates only on Wednesday, Friday and Sunday. Air India operates this flight. Air India flight starts from Jaipur at 10:15 am and reaches Udaipur at 11:15 am. The same aircraft leaves Udaipur at 11:40 am and reaches Jaipur at 12:35 pm. Spice Jet will also stop its flight to Ahmedabad from 30-June.

Cleaning process of linking canals commenced

Udaipur: Udaipur on strict direction of DM Cleaning process of canals linking Madar and Swaroop Sagar to lakes has commenced. Municipal Corporation has begun the work of cleaning up of the link canals through which water flows into Fatehsagar Lake. Cranes were taken down into the link canal at Dewali end to clear up the waste and garbage settled in the path of water flow. The area is now appearing quite clean. Similarly the area from Manoharpura Bridge to Ramgiri Bridge was taken over by UIT. There is tonnes of garbage in this canal and cleaning it up is a tedious task.

It may be noted that District Collector Anandi issued strict directives for the cleaning up of these canals before the arrival of monsoon following which the respective departments geared up for the process.

Jagannath Rath Yatra :route issue raised

Udaipur: Shri Jagannath Rath Yatra will take place on the 4th of July this year. An issue has been raised regarding the convenience of the procession as the entire route has lots of pot holes, cables are hanging low which can obstruct the path of the grand Rath and stray animals are yet another issue. The devotees organising this Rath Yatra are in a state of dilemma about the procession as the obstructions, if not dealt with on time, can result in a very uncomfortable path for the procession.

The representative committee of the Jagannath Rath Yatra met with the administrative officers and asked them to find a solution for these issues. Administration has decided to take control of the situation to make this Rath Yatra a smooth one. All the areas are being inspected for 20 feet high cables, other obstructions on road viz. pot holes, stray animals and other factors that are likely to interfere the path of the procession.

Disaster Management meeting held on Monday

Udaipur: District Collector, Udaipur, called for a Disaster Management meeting on Monday. The meeting was keeping in mind the necessary arrangements before the arrival of monsoon. It was reported that District Collector Anandi asked for reports by various departments. 6 of the departments did not bring along their reports following which they have been given a week's time to furnish the necessary reports.

In the meeting, the Collector asked the departments to be prepared for any kind of situation before the arrival of monsoon. She said that all departments must be ready to fight emergencies like flood. The Collector asked the Water Resource Department to gather all the relevant information of the areas falling under the 'dooob kshetra'.

All dam gates are to be greased and repaired and checked for emergencies. She even issued directives to appoint nodal officers at tehsil level to deal with emergencies.

Police administration has been asked to establish control rooms, Home Guards and divers have been asked to stay alert and a list of divers and the required equipments has been asked for.

She even asked for the repair and

maintenance of electric poles and re-establishment of the electric transformers lying unattended on roadsides.

Administration is also preparing a booklet of emergency numbers and the people to be contacted during emergency along with tips for disaster management.

OMG: 'water supply once in 72 hours'

Udaipur: More than 50 colonies in Udaipur city will be affected by 'water supply once in 72 hours'. Following the scarcity of monsoons and receding water level in the lakes, a big part of the city will have to manage with water supply once in 72 hours from 6th June. The list of these affected areas is as follows:

All colonies falling under Rampura choraha to Mallatalai choraha, Mallatalai to Ayurveda College choraha, OTC scheme, Farookh Azam nagar, Mastan Baba colony, Sajjan Nagar, Ratakhet, Harsh nagar, Hathipole, Silawatwadi, Bichchoo Ghati, Jatwadi, Kallesaat, Imli Ghat, Mahawatwadi, Ambagarh kachchi basti, Chetak Circle area, Ajanti gali, partial area of Trench colony, Moti Magri, Daitya Magri, Mission Compound, Chamanpura, Jhariya marg, Yadav colony, area near Ambamata temple, Brahmapole, Ambapole, Chandpole, Jada Ganesh ji temple area, Nagan nagri, Nagarwadi, Shasti Circle, Moksh Marg, Bhupalpura road A to L, Court Circle, Ashok nagar, Ashwini Market, Sutharwada, Delhi Gate, Shakti Nagar partially, Dhabhai ji ki bari and Mahaveer colony.

No-Queue soon at MB Hospital

Udaipur: Patients at MB Hospital will no longer have to wait in line for their turns. Hospital administration is coming up with a system where patients will not have to wait outside doctor's room but can wait in a common area and go to doctor when their number is announced.

As a pilot project, this system will be initiated in the outdoor section of Medicine department. Tender process for the same has been initiated. The tenders will be opened on 10-June and agency finalized on 13-June. The system will hopefully be operational in a couple of months time. The tender value is estimated to be around Rs 5 Crores.

As per the proposed system, patients will be able to take a coupon from coupon vending machine. Patients will have to specify the doctor/department where they want to be investigated. For villagers and illiterate people, there will be a support staff to help them with the vending machine. Each couple will have two numbers. One will be the number of the coupon and second will be the number for the doctor. There will be a waiting hall for the patients. Whenever their number comes for visiting the doctor, a display sign will show their number advising them to proceed for investigation.
