Prime Minister Lauds the efforts of India's Space Scientists

Encourages them to remain hopeful and continue working hard on India's Space Programme

Even as the Chandrayan 2 Mission lost its communication with the Control Centre at the ISRO headquarters, Prime Minister Narendra Modi who was witnessing the descent of the Chandrayan 2 along with the ISRO Scientists at Bengaluru said "India is proud of our scientists! They've given their best and have always made India proud. These are moments to be courageous, and courageous we will be!"

In a personalized effort to boost the morale of the scientists, Prime Minister said "The country is with you, I am with

you. The effort was worth it and so was the journey."

"You are those people who work for Mother India's victory and struggle for it and have a grit and determination to make her proud."

"I could feel and sense your despondency and emotions last night. I was amongst you when the communication from the Vehicle was lost. There are several unanswered questions but I am sure you would find the answers. I know there was hard work behind."

"We might have faced a small setback in our journey but this would not let down our zeal and enthusiasm to achieve our goals"

Our resolve strengthens now.

"The whole nation was awake last night in solidarity with our scientist sisters and brothers. We came very close

to the surface of the moon and that effort is highly laudable."

"We are proud of our space programme and scientists, their hard work and determination has ensured a better life not only for our citizens but also other nations. It is their outcome of their innovative zeal that several people got bet-

ter quality of life including better health care and education."

"India knows that there would be many more proud moments to rejoice."

"When it comes to space programme the best is yet to come."

"There are new frontiers to discover and new places to go. We will rise to the

occasion and scale newer heights of success."

"To our scientists I want to say, India is with you. True to your nature, you ventured into a place where no one had never gone before."

"You have gone as close as you could. I can proudly say the effort was worth it and so was the journey"

"The learning from today will get us a stronger and better tomorrow"

"I thank the families of our space scientists. Their silent but valuable support remains a major strength in our effort."

"Sisters and brothers, resilience and tenacity are centre to India's ethos. In our glorious history we may have faced moments that could have crushed us but

we never gave up. This is the reason our civilization stands tall."

In our glorious history we may have faced moments that could have crushed us but we never gave up. This is the reason our civilization stands tall."

"We have made historical achievements. I know that ISRO also does not failures to let it down"

"There will be a new dawn and a better tomorrow. Without worrying about results we go ahead and that is our history."

I have confidence in you. Your dreams are higher than mine. And I am fully confident on your hopes.

I am meeting you to get inspiration from you. You are a sea of inspiration and a living evidence of inspiration! congratulate you all and wish you all the best in your endeavours.

Sachin Pilot praises workers for Rajasthan win

Jaipur: Rajasthan deputy chief minister Sachin Pilot said on Saturday that party workers' hard work had led to the Congress winning power in Rajasthan from its low point of 21 seats in the 2013 assembly elections.

"Every party worker worked hard to bring this number to 100" said Pilot who is the state Congress president.

Thousands of Congress workers, supporters and leaders turned up at the Congress office in Jaipur to wish Pilot on his 42nd birthday. Chief minister Ashok Gehlot who was on a tour of Jaisalmer wished Pilot through a tweet.

Pilot stood on a decked stage, greeting people who came to wish him with huge garlands, bouquets, swords, safas (traditional turban) and photo collages.

"I am thankful to all for their blessings and love; it is this power and support which gives me confidence. All efforts will be to come up to people's expectations," said Pilot.

Addressing newsmen, Pilot said that since the Congress formed government in Rajasthan, people's issues are being addressed on priority. "The Congress will not leave any stone unturned to serve people." On upcoming elections to local bodies, he said, "Elections keep happening... It is good for a party, especially which is in power. In governance there are constant exams, where people assess the work. We are hopeful that their trust and support will continue."

Regarding law and order situation, he said, "The government will make all efforts to control anti-social elements."

Speaking about the economy, Pilot said, "Factories are shutting; unemployment and inflation are high. This has never happened in decades. Instead of improving it, the central government is taking ₹1.70 lakh crore from RBI; no one knows why?" Talking about the membership drive, he said, "Our membership drive is not like other parties where membership is done through a missed call. In Congress, a form is filled in with details of the members and data is maintained."

RYAN INTERNATIONAL SCHOOL, UDAIPUR BAGGED WITH THE INTERNATIONAL SCHOOL AWARD -BRITISH COUNCIL

Udaipur: Once again Ryan International School, Udaipur bagged the prestigious International School Award, a Global Collaborative Learning Competition Organized by British Council. The International School Award is a Global Benchmarking Project that recognizes the outstanding work done by school that are committed to developing International dimensions in the Curriculum to help young learners become effective

global citizens.

The school initiated the projects through collaborating with schools from U.S.A, London, Nepal and Canada.

The students enthusiastically conducted projects on topics of Environmental Degradation & Toxic Wastes, International & Indian Rivers, Olympics Grasslands in North America, Fractions etc. and touching many more subjects, students exchanged emails, conducted online sur-

veys & Interviews through video conferencing and conducted in house activities on the topics of their interest.

3 डाईमेंशन ऐंजियोप्लास्टी (ओ सी टी)

धमनी के अंदर देखना अब वास्तविकता है

One more reason to have a must opinion at GMCH prior to Angioplasty

साधारण ऐंजियोप्लास्टी से देखी जानेवाली धमनी **3D ओ सी टी से देखे जानेवाली धमनी**

• 3D ओसीटी तकनीक से होने वाले फायदे •

- नसों के भीतर की 3D इमेज देखी जा सकती है, जिससे ब्लाकेज की आकृति एवं आकार का सटीक अनुमान लगाया जा सकता है।
- एफएफआर (FFR) तकनीक - रोगी को ऐंजियोप्लास्टी की वास्तव में आवश्यकता है या नहीं, इसका सटीक पता चलता है। कई बार केवल दवाईयों द्वारा ही उपचार किया जा सकता है। ऐसे में एफएफआर (FFR) तकनीक चिकित्सकों को सटीक निदान एवं उपचार में महत्वपूर्ण भूमिका निभाती है।
- ऐंजियोग्राफी में केवल 2 डी इमेज ही देखी जा सकती है।
- सटीक निदान और उपचार के कारण रोग के दोबारा होने की सम्भावना काफी कम हो जाती है।
