

Dr. Harsh Vardhan visits Lady Harding Medical College Hospital to review status of COVID-19 management

“Increasing recovery rate reflects the quality of care provided by our frontline health workers in India” : Dr. Harsh Vardhan

New Delhi: The Union Minister for Health & Family Welfare, Dr. Harsh Vardhan recently visited Lady Harding Medical College, which is one of India's oldest and established medical college, to review status of COVID-19 management. Keeping in view the emerging requirements for hospital preparedness, Lady Harding Medical College, is functioning as dedicated 000-bedded COVID-19 hospital

consisting of adequate isolation wards and beds.

The Union Minister visited the Director's office, emergency, sampling center, COVID block, lab flu corner, isolation wards, observation wards, critical areas/ICUs, COVID corridor, COVID Area, COVID OPD, Red zone area, changing facility for doctors and health workers. At the sample collection center he saw the whole process in details of samples being taken.

He was satisfied to notice that the doctors and health staff manning these wards are provided special bathing, changing and spray facility for disinfecting themselves at Oncology building. The facility for boarding and lodging are provided to the health workers in few hotels nearby to avoid the issues of transportation and

prevent the exposure to their families.

At the COVID ward, the Minister spoke through video call to a patient who was admitted at the facility. The Minister said "I am happy to learn that he is hale and hearty and recuperating well at the hospital. It is very encouraging to see his high moral despite suffering from COVID."

After a detailed review and inspection of the various wards and premises of the Hospital, he expressed satisfaction at the working of the various unit. He stated: "In last few days, I have been visiting various hospitals AIIMS (Delhi), LNJP, RML, Safdarjung, AIIMS Jhajjar, Rajiv Gandhi Super Specialty and now Lady Harding Medical College to review the preparedness of COVID-19 and I am satisfied

with the arrangements made by these hospitals to deal effectively with the outbreak".

Commending the frontline caregivers such as nurses, doctors and other healthcare personnel for the resilience, hard work, dedication and commitment shown by them in dealing with COVID-19, Dr Harsh Vardhan said, "The recovery rate of COVID-19

in such times. It is heartening to see the high morale of our health warriors in these testing times."

Dr. Harsh Vardhan also stated that the prevention, containment and management of COVID-19 in the country is being monitored regularly at highest levels in collaboration with the States. He said, "The rate of growth of new cases has also been steady for a while.

Before the lockdown, India's doubling rate was about 3 days. As per the data received today by 8 AM, over the past seven days, the doubling rate is 7.2 days, for the past 14 days it is 6.2, and over past 3 days it stands at 9.7.

This is despite the fact that number of tests done every day has increased by almost 14 times. Same way, if you look

at growth factor – from 15th March to 31st, it was 2.1, whereas in April it has come down to 1.2 which is a good drop of 40% which is a positive indication and is really encouraging for the whole country.

"This also indicates that the total number of COVID-19 cases are increasing and we need to adhere to strict physical distancing and basic hand hygiene etiquettes in letter and spirit to take lockdown 3.0 to a logical end," he added.

Dr Harsh Vardhan urged the people of India to observe the extended period of lockdown 3.0 (till May 17, 2020) in letter and spirit and treat it as an effective intervention to cut down the chain of transmission of COVID-19. "It is important to follow hand hygiene, like washing hands with soap and

water or using sanitizer; to disinfect and regularly clean all frequently touched surfaces. Everybody should wear a mask or face cover as appropriate; download the Corona tracker app "Arogya Setu" for self assessment of risk; and maintain physical distancing."

He said by observing discipline in day to day life during Lockdown 3.0 would reap us rich dividends in terms of turning the tide against COVID-19. "We are on the path of success and we will win this war against COVID-19 in toto".

The Director General Health Services (DGHS) Government of India, Shri Rajiv Garg and Director, Lady Harding Medical College Dr. (Prof) N.N. Mathur accompanied the Minister during his visit to the hospital.

Modi govt behaving like East India Company: Congress

Congress compared the lockdown with demonetisation and accused government of behaving like East India company for not planning before announcement of the lockdown as it caused suffering to millions

• The Congress on Monday compared the lockdown with demonetisation and accused the government of behaving like the East India company for not planning before the announcement of the lockdown as it caused suffering to millions.

• "The commonality between lockdown and demonetisation is that the BJP government failed the basic rule of governance-think and act rather than act without thinking," said the Congress.

• Congress spokesperson Jaiveer Shergill said, "Both in the lockdown and demonetisation, BJP government behaved like the East India Company by looting the common man, ignoring the pain of the weaker sections of society, focussing on filling government coffers rather than pocket of the people of India."

• "Three I's, ill-planning, insensitive approach and irrational decision making, are the common traits exhibited by the BJP government during demonetisation and lockdown causing pain, anguish and distress to the vulnerable sections of the society," added Jaiveer Shergill.

• The Congress said, "BJP adopted an ostrich-like approach by com-

pletely ignoring the devastating effects of demonetisation and now again by neglecting the urgent need to provide oxygen to the dying economy. Both in demonetisation and lockdown, common man, labour force, MSME paid with their blood, pocket and sweat for the misadventures of the BJP ruled Central government."

• The Congress spokesperson charged that the Centre displayed "ill-planning when it came to supply of the PPE/Test Kits, insensitive approach when it came to deal with stuck migrant labourers and completely irrational decision making by cutting the interest rate on small saving schemes, cutting interest on the SBI Saving Account, raising excise on fuel and charging migrant labour train fare even in this hour of humanitarian crisis."

• Congress Senior spokesperson Abhishek Manu Singhvi said, "We cannot but help notice the similarities between demonetisation and lockdown, no planning or relief measures for the public."

• The Congress insisted that mismanagement of the migrant workers and treatment meted out to them, shows and reflects the approach of this government to the poorest segments that too during the pandemic and reveals a very bizarre development model for India during the crisis times.

• The Congress said that their is disconnect between the issues, "Such an approach and lapse suggests a disconnect between India as it exists and the imagination as it is found in 7, Lok Kalyan Marg," Singhvi added.

Ilizarov: broken bone technique

Udaipur: Two years later, the unbranched bone was successfully operated at the GBH American Hospital using the Ilizarov technique. In this, the patient was run the very next day of operation.

At GBH American Hospital, Harish Mathur (55) had arrived with family members. His leg was broken two years ago. During that time, he was operated on by family members, where a plate was placed to add fracture to the leg. Despite this, his leg bone was not connected. Bone grafted to add his bone to this, but that too did not work. In two years, the plate in the patient's leg was broken, and there was tediousness in the leg. He was unable to walk due to pain and a broken bone in his leg.

On this, his family had taken him to GBH American Hospital recently, orthopedic surgeon Dr. Prashant Maheshwari, conducted various tests of the patient, the plate was broken, and the bone was not found. It was decided to re-operate on this. In it, the patient removed the broken plate from the foot and was implanted in the ellipse ring fixator while performing a complex operation to connect the leg bone. The very next day, the patient was run over with a walker. Dr. Prashant Maheshwari said that by giving physiotherapy continuously, the patient would be run without a walker in the next two weeks.

Priyanka Chopra joins Greta Thunberg

Indian actress Priyanka Chopra has joined hand with Swedish teen activist Greta Thunberg to protect vulnerable children across the world from the Coronavirus. Indian actress Priyanka Chopra has joined hand with Swedish teen activist Greta Thunberg to protect vulnerable children across the world from the coronavirus. Priyanka Chopra took to social media to express her concern over the effect of Coronavirus on vulnerable children.

She tweeted: "It's heartbreaking to see the effect of COVID-19 on vulnerable children across the world. They now have to cope with food shortages, strained healthcare systems, violence & lost education. We need to protect them.. the onus is on us."

"Join me in supporting this much needed campaign by @UNICEF and @GretaThunberg

Donate here: <https://uni.cf/join-greta>," she tweeted.

Priyanka and her American pop singer husband Nick Jonas contributed to several charities to lend support to the ongoing battle against the COVID-19 pandemic.

Priyanka took to Twitter to announce that the couple has donated to organisations like the PM-CARES Fund, Unicef, Feeding America and Goonj among many others.

She also pledged to donate \$100,000 to women doing their bit in health crisis.

UCCI provided assistance to the district administration

Udaipur: Chamber of Commerce and Industry provided a support amount of Rs 10 lakh to the district administration on 24 March 2020. The funds were provided as the first part of donations collected from UCCI members for emergency and disaster relief work to control the Covid-19 epidemic.

President of UCCI Mr. Ramesh Singhvi handed over a check of Rs. 10 lakh to the District Collector Madam Anandi as cooperation to the district administration in providing food and ration for the proletariat. Vice President Shri Manish Galundia was also present on occasion. During the lockdown, the UCCI member entrepreneurs have donated extensively to the Disaster Relief Fund of the Central and State Government. Chairman Mr. Ramesh Singhvi thanked all the donors on behalf of UCCI, who have expressed their generosity by coming forward in this time of national disaster.

Chairman Shri Ramesh Singhvi handed over eighteen hundred and thirty-five (1835) N-95 masks on 3 April 2020 to the officials of the Chief Medical and Health Department on behalf of the UCCI

regarding the coronavirus.

Chairman Shri Ramesh Singhvi handed over 500 PPE (Personal Protective Equipment) Kits Zilla Parishad, Udaipur, on 4 April 2020 from UCCI. This kit is necessary to protect the medical staff deployed in the treatment of people infected with the coronavirus. Once used, they are burnt and destroyed. The demand for PPE kits has also increased due to increasing cases of corona infection in the country. Due to this, there is also difficulty in supplying equipment for medical staff. As headquarter of the division, the government is preparing to provide a sufficient number of PPE kits to the hospitals in Udaipur to deal with the emergency related to corona infection in the future.

Chairman Mr. Ramesh Singhvi, too handed over ten thousand N-95 masks of the 3M company to District Collector Mrs. Anandi on behalf of UCCI regarding the Coronavirus. On this occasion, UCCI Senior Vice President Mr. Hemant Jain, Vice President Mr. Manish Galundia, and Executive Member Mr. Subhash Singhvi were also present. The use of N-95 masks is necessary to protect the medical staff posted in the treatment of persons infected with the coronavirus.

On 24 April, 2020, the Medical College has been provided with a video laryngoscope unit. To prevent the spread of coronavirus infection in the Udaipur division, UCCI, along with the state government and district administration is providing all possible help.

Chairman Mr. Ramesh Singhvi has assured the government and administration to provide all possible assistance from UCCI to deal with the infection of Corona in the Udaipur division.

Do not consider the waiver of Lockdown - Collector

Bhilwara: District Collector Shri Rajendra Bhatt, has issued an order clarifying that exemption in LockDown does not mean that LockDown has expired. Districts should follow the guidelines of the central and state government to maintain the public down.

According to the District Collector, Lock Down 3.0 is applicable in the whole country. In this sequence, separate provisions have been made in the Bhilwara district with the permission of the state government.

In areas other than strict prohibitory areas, the provision of a modified public down will be applicable as per the instructions of the state government. LockDown has not ended in the district, and all activities are prohibited except for permitted activities. Only those possessed by the permitted activities can exit.

In the order, the public has been advised to leave the house only after obtaining permission if necessary and to follow the medical protocol and social distance. The District Collector has appealed to the enlightened people, state officials and personnel, voluntary organizations, social organizations to convince the general public that the exemption in LockDown should not be confused with ending

All family members gave financial support

Bhilwara: While the government and administration are busy tackling the coronavirus infection, Bhamashah is not lagging in economic cooperation. On Monday, all four members of a family of the city presented financial assistance of 25 thousand one hundred rupees from their savings to the District Collector, Mr. Rajendra Bhatt.

Inspired by the children of the Kayamkhani family, the parents also set an example by providing a part of their salary to the Chief Minister's Assistance Fund. Sania Kayamkhani, a student of class 10, and her brother Tahir, together, saved 3100 rupees from their pocket expenses for the relief fund. At the same time, his GNM mother Salma Kayamkhani has donated 11000, and teacher father Fayaz Khan has donated 11000 to the separate relief fund.

Workers' organizations should appeal for workers to return to work

Bhilwara: Deputy Labor Commissioner Sanket Modi has written a letter to all the workers' union and managers of all industrial institutions in the district and appealed to the workers working in the category of industries approved by the state government in the interest of employers and workers, to return to work.

According to the letter from the Deputy Labor Commissioner, President of the Employers of Rajasthan N.K. Jain informed the headquarters of the department that workers and personnel in the permitted category of industries are not present even after being called by the employer. In such a situation, all labor organizations and union representatives are expected to appeal to the workers to return to work. If workers are not present at the workplace even if informed by the employer, the employer is free to take decisions under labor laws.

The district collector inaugurates the Molecular Lab

Bhilwara, District Collector Rajendra Bhatt duly launched the Molly Bandhan, amidst Vedic chanting of the newly established Molecular Lab at Rajmata Vijayaraje Scindia Medical College, Bhilwara. District Superintendent of Police Harendra Kumar Mahawar, Principal of Medical College Dr. Rajan Nanda, Chief Medical Officer Dr. Arun Gaur, were also present on occasion.

The District Collector said on the occasion that on the initiative of Chief Minister Mr. Ashok Gehlot, a 48-capacity testing machine provided by donors has been launched in Bhilwara. Soon two such testing machines with a capacity of 96 will be installed in the lab here, which will be installed within a month. After the installation of these machines, around 1000 corona checks will be conducted daily in Bhilwara.

He said that Bhilwara residents would get a lot of facilities with the receipt of the report of the Corona investigation soon.

He informed that an adequate number of doctors, lab technicians, and nursing staff are being trained. Some staff has been sent to Udaipur and some to Jaipur. Soon the lab will start functioning at full capacity.

Haleed villagers trolleys wheat assistance

Bhilwara: In this challenging time of the situation arising out of Corona, many Bhamashahs are coming forward on the willingness of Chief Minister Mr. Ashok Gehlot, not to let anyone go to sleep. Some food items are giving their support in the form of cash. The farmers of Haleed village of Suwana block of Bhilwara have given their sacrifice in this Yagya in the form of assistance.

Some enthusiastic youths of the village, Deobaksh Jat, Govardhan Jat, and Balakishan Jat, put their opinion before the seniors on the big temple. The youth filled the tractor trolley and reached the district collectorate directly with this wheat. District Collector Rajendra Bhatt expressed happiness and appreciation of this cooperation of the villagers. He instructed the District Logistics Officer that this wheat should be crushed and distributed to the needy through UIT. The logistics officer started the Peking work by handing wheat to flour for miles.
