

Within You - Baiju Mangeshkar's path breaking sufi album...

To Baiju Mangeshkar, music means much more than melody, sound and lyrics... it is his soul, and cascades his veins... The nephew of Lata Mangeshkar, and son of Pt. Hridaynath Mangeshkar, is an archetypal artist; his is a career where music and visual art seamlessly come together, each reinforcing and reinvigorating the other.

Within You is Baiju's latest path-breaking release which also is his first solo album as a singer and composer. It is being released by Times Music with a presentation of three music videos as well.

Baiju is gifted with a unique soulful voice and his compositions

are musically sensitive that leave a lasting impression. Within You with Baiju's soulful voice and compositions is a musical inner journey within one's being.

"Sufi poetry is profound and clearly aspires to elevate 'being' from humanity to divinity; into the realms of unconditional love and peace.

It is timeless and perpetual, and more importantly always relevant in every era, especially in this bleak age of injustice, escalating violence, increasing irreverence and the unfortunate recent world pandemic. In such a time, Sufi poetry and music are akin to a soothing balm to heal the spirit," elaborates Baiju.

The album 'Within You' is a soulful bouquet of six songs with the theme based on Sufism. The style is contemporary with inflections of World Music and yet its soul punctuating the Indian Classical traditions surrounding the lyric/kalaam of great revered Sufi saint poets of 16th century India namely Hazrat Shah Hussain, Baba Bulley Shah and Khwaja Ghulam Farid. The album also includes two modern and contemporary songs that are rufiyya in thought written by an emerging and gifted young poetess Amruta.

The songs have been musically arranged by Jatin Sharma, a well-known name to recon-

within the Indian music industry and with a host of extremely talented Indian musicians contributing to the soundscape.

One of the highlights in the musical arrangements is the collaboration with two brilliant musicians from America; Susan Mazer, a jazz harp virtuosi and Dallas Smith, a master of woodwinds and the saxophone. They are veterans in the world of jazz music who

have worked with none other than the great world legends such as Frank Sinatra, Ahmed Jamal and Johnny Mathis to name a few and our very own RD Barman. Their contribution and style have added a unique dimension to the music of this album and to the world of sufi music.

Some songs in the album appear as romantic love songs to the ear and mind but they are subtly disguised with a resonance, reflection and play with the concept of 'Ishq-e-Majazi and Ishq-e-Haqeeqi.'

"There are two kinds of 'Ishq' (love) mentioned in Sufism and in Urdu poetry; Ishq-e-Majazi and Ishq-e-Haqeeqi. 'Ishq-e-Majazi' is the

love one feels for another human being, the birth of feelings such as love, desire in one's heart for another person. It is transitory and is a physical desire or an emotional need.

The latter 'Ishq-e-Haqeeqi' is in contrast; Sufism eloquently elaborates about Ishq-e-Haqeeqi which highlights the concept and feeling one has for the creator or one's maker.

It is a more intense elevation of one's being, a pure submission to one's maker/creator in absolute awe, wonderment and gratitude!

This love and romance of a higher intensity is the theme in this album," avers Baiju.

UIT begins door step delivery services

People need to call at the call centre number (to be provided soon) to avail the services

Udaipur: UIT will now be providing door step delivery services for the works that are related with UIT. The services are to commence from the 28th of October. 5 various activities have been listed in this agenda by UIT.

A call centre number will be provided to the public in respect to the enlisted works. Within 24 hours, a representative of UIT will reach the caller's residence with a laptop and other required material with respect to that particular work. He will prepare the relevant application, and the relevant documents will then be uploaded. Post this, UIT will begin the procedures for that application. Later the applicant will be handed over the documents by the representative.

A fee of 425 rupees has been fixed for the services provided by UIT apart from the fees fixed by the state government. The caller will be asked for the reasonable time of his availability at his residence. The representative will also inform about the documents to be required for the application so that they are available when the work begins.

The works enlisted under door step delivery services are conversion, sub-division, building plan approval, submitting the lease and issuance of lease-free certificate. It may be noted that UIT is already providing online services since the past 3 years for conversion, booking of community halls, building plan approval, 90-A, auction of land and applications for residential projects. Around 25 thousand people have benefited from these online services where initially they used to make rounds of the UIT office for all these services.

These door step services will also bring relief to the common public from the issues of undue fees taken by the staff. The complaints regarding files not being approved will also reduce. It has been informed that all the payments will go into the account of UIT directly by online payment system which will also prove the transparency of the transaction.

Jaipur based Kirana King Supports CM Ashok Gehlot's 'War For Pure' campaign against Food adulteration

Jaipur: Every festive season is as special for every Indian family as it only brings together people within families and maintains a social bond. Savories form an eminent part of every Indian family during this festive season where, food adulteration is a matter of great concern for consumers after the outbreak of COVID-19 pandemic. Considering that the demand for food and related products such as ghee, oil and milk and milk related products goes high, Rajasthan's Chief Minister Shri Ashok Gehlot has initiated a campaign to fight adulteration of food during the festive season and has named it under a campaign 'War for Pure'. The campaign shall kick off from 26th October 2020.

In support of the campaign for War for Pure, Mr. Anup Kumar, Founder and CEO, Kirana King said, "The festive season is a delight for all Indian families as it is a season of togetherness and family bonding. The pandemic has caused added caution amongst the common customers to buy quality products that have no adulteration as families come together to prepare savouries. As the demand for food products rises, especially Ghee, Oil and Milk and Milk-related products across many states in the past have experienced adulteration during the festive season, this campaign 'War For Pure' initiated by Shri Ashok Gehlot was a much-awaited step."

Mr. Kumar further added, "Amidst the pandemic, during festivals, where people are eager to celebrate Diwali and are in full festive spirits sweets and chocolates, snacks, beverages are an integral part of celebrations. This campaign is very well appreciated by the retail community as it gives an assurance to the not just the customer buying the product but a self-assurance to the retailer himself that he needs to be cautious while selling a good quality product. Supporting this campaign, every retail organization would love to be a part of it by offering best in class products including all our 200 retail grocery stores of Kirana King in Jaipur."

Chief Minister Ashok Gehlot has launched the campaign 'War For Pure' against adulteration in food products. Kirana King is taking necessary steps which would be beneficial to all consumers during this festive season.

About Kirana King:

Established in 2014, with a deep-rooted and farsighted idea of enabling & equipping the Indian traditional grocery market, Kirana King has set India's first revolutionary 'Asset Light Grocery Retail Business Model'. This model enables Indian Kirana Store owners to become a part of the revolutionary grocery retail expansion while retaining the ownership of their stores. On the other side, the model also enables consumers to avail 'organised shopping experience' at their neighboring known Kirana stores. Additionally, Kirana King will bring a 'Click & Collect' - Dynamic Alternate Commerce model where customers will be able to pick-up their orders from their nearby grocery stores after ordering, from a wide range of grocery categories, it online. Plans are also underway to launch Direct to Retail (DTR) initiatives in select cities.

Kirana King - Empowering Grocery Retail, is the brainchild of Mr. Anup Kumar - Founder and CEO of Kirana King, who is giving the necessary thrust for empowering existing Kirana shop owners' market and heralding the Kirana Revolution in the country using his professional management skills. Kirana King is a bootstrapped start-up to address the challenges of existing traditional kirana walls. Standing firmly on 4 strong principles of its operations - Standardization, Digitization, Centralization and Socialization of traditional Kirana system, Kirana King Endeavours to become country's largest Off-line Marketplace & Dynamic Alternate Commerce Platform for grocery retail. Sweets as traditional medicine - Dr. Vartika's talk in International Symposium

Udaipur: On Friday, 23rd October, 2020, The Society for Economic Botany (SEB), from USA organized its International Fall Symposium in virtual mode for four hours in which 12 speakers from all over the World were selected to present their research work. Among the speakers, India was represented by Dr. Vartika Jain who is working as an Assistant Professor in Dept. of Botany, Govt. Meera Girls' College, Udaipur.

Other presenters were from Burundi, Kenya, Norway, Argentina, London, New York, Ohio, Manoa, St. Louis, Monaca and Canada.

Dr. Vartika presented her work on traditional winter sweets of Udaipur city which are recommended for various health benefits particularly in conditions of arthritis, joint pains, asthma as well as for building immunity. She observed 40 types of winter sweets and categorized them into Laddus, Barfis, Halwa, Milk

sweets and other sweets. Further she emphasized the role of various plant ingredients in these sweets and importance of these traditional recipes which can be projected as dietary nutraceuticals in modern markets. Her work was appreciated by many participants and she has been invited to share recipes of those winter sweets in SEB's Bi-annual newsletter 'Plants and People'. In the present era of fast disappearing traditional knowledge, this work is an important initiative by Dr. Jain and a valuable effort to document the cultural heritage of India.

Entire recording of the symposium will be available on SEB's official website soon. In the end, President of SEB, Dr. Nanci Ross gave thanks to all the panelists and participants of the symposium.

Mass Movement

Against Corona Continues at Karni Mata Ropeway

Central Cabinet approves MPUAT's Marvi Project

Udaipur: The MoU approved under Maharana Pratap University of Agriculture and Technology, Udaipur, in collaboration with the Government of Australia in the cabinet meeting held on 14.10.2020 under the chairmanship of Hon'ble Prime Minister Shri Narendra Modi. The Marvi project is being run with rural farmers' cooperation on community groundwater management in Dharta catchment area of Bhinder Tehsil and Medharaj catchment area of Gujarat. This MoU Research on groundwater management between the Ministry of Hydropower, Government of India, Marvi Partner, and Government of Australia has been done for mutual cooperation in efficiency development. This MoU was done in New Delhi last year.

MPUAT Vice-Chancellor Dr. Narendra Singh Rathore, Former Director Research Dr. Abhay Mehta, and CTAE Dean Dr. Ajay Kumar Sharma. In charge of the Marvi project, Dr. P.K. Singh said that in this project, groundwater cooperatives have also been formed at the village level by making the village farmers' knowledge of groundwater so that the rural farmers can use groundwater properly among themselves.

All the groundwater experts measure the level (level) of water every week in the 250 wells of the region from the year 2012. After assessing the availability of water, ensure their crop cycle and area.

What is Marvi -

Dr. Ajay Kumar Sharma, Dean of Engineering College, informed that by increasing the level of village aquifer recharging (manning aquifer recharge and sustaining groundwater - Marvi), increasing the level of groundwater and the wells and anicut by the village groundwater experts at the community level Selecting crop cycle according to water availability by measuring the water level of The wells taken under the water catchment area of the project area of Bhinder Tehsil have been up to 1.2 meters and 20 percent of groundwater has been rerouted from the anicut which establishes a new dimension for the hard rocky area.

The farmers of this region have selected the crop according to the availability of water, which has greatly increased their income.
