

RAJASTHAN'S FIRST PALASH FESTIVAL

Udaipur: On the occasion of World Forestry Day, the first Palash flower festival of the state was celebrated with great enthusiasm in Udaipur on Sunday. In the celebration organized to bring the importance of Palash, which is flourishing in the tribal region, thrive in the country, and bring glory to the residents, the nature

lovers and forest department personnel discussed the day.

District Collector Chetan Deora was the chief guest of this Palash Pushpan Mahotsav organized by the Forest Department at Palash Kunj near Dai Mata in the forest block Summer of Village Kitoda, Gram Panchayat Kaya. In his address, the District

Collector Deora expressed the solidity of Palash trees here and the flowers covered with them and called for linking them with the local tribals' livelihood, necessitating the conservation and promotion of Palash trees. He also instructed the Forest Department to develop Palash Garden in Udaipur.

On this occasion, Chief Conservator of Forests RK Singh retired CCF Rahul Bhatnagar, Chief Conservator of Forests (Wildlife) R.K. Khairwa, UIT Secretary Arun Hasija, Forest Conservator R.K. Jain, Deputy Conservator of Forests Mukesh Saini, Assistant Conservator of Forests Rangaswamy E., K.L. Sharma, Sushil Saini,

Mahendra Singh Chundawat, Ayurvedacharya Pradeep Soni, G.P. Saxena, P.S. Chundawat, VS. Rana, OP Sharma, Suhail Mazbor, Naresh Chaturvedi, forest personnel, media persons, distinguished residents of Udaipur city, students of Kitoda School, Forest Safety Committee and local villagers were present.

During the ceremony, Ayurveda physician Dr. Pradeep Soni highlighted the usefulness of Ayurvedic medicine in Palash leaves, puffed bark, seeds, and wood, highlighting the religious, social, and economic importance of human life.

On this occasion, herbal gular prepared in various colors from roses, amaltas, Palash

flowers, and leaves were presented to guests.

Guests at the monument released the Palash Pushpan folder. CCFRK Singh has stated the usefulness of collecting seeds at the range level of various species available in the forest area like Khair, Amla, Ber, Katkaranj, Gulmohar, etc., the seeds available in the forest in all the Renzo of the division. Instructions were given for making quality healthy plants in departmental nurseries.

Retired CCF and Green People Society President Rahul Bhatnagar said that the society is looking at the conditions of flowering of Palash trees in South Rajasthan in the same way as the cherry blossom festival is celebrated in

Japan and the U.S. It was decided to organize Palash Festival on March 12 in the year 2020, but due to Corona lockdown, it could not be held last year. This year, the Forest Department started it on the occasion of Forestry Day, and it was planted.

Palash Valley can become a tourist destination:

Deputy Conservator of Forests Mukesh Saini said that the blooming of Palash blooms is about two months, from March to April. During this period, the Palash Valley remains wooded with the flowers of Palash. Tourists and nature lovers can enjoy the beauty of this Palash Valley and visit Daimata Ji in the lap of the mountains.

Hotel food is pleasing to the bears

Udaipur: The bear is generally considered a very shy animal, but the bear's nature has changed over the years. The bears living in dense forests are now migrating to urban areas. In this struggle, a conflict between bears and humans is also increasing. What is the reason for bears to come to the populated areas, despite the availability of sufficient food in the forests? Researchers Utkarsh Prajapati of Mohanlal Sukhadia University, Udaipur, Assistant Professor Vijay Kumar Koli, and Scientist from the Nature Conservation Foundation. K.S. Gopi Sundar tried to find the answer to this question; many shocking aspects came out. It took these scientists five months to do this research, which began in December 2018; the research paper was sent to Cambridge University Press for publication. This review has recently been published in Cambridge University Press's journal ORYX, after reviewing by experts.

Bears are coming to the cities from the forests -

Researcher Utkarsh Prajapati said that for the first time in the world in research, it was seen that the bear was seen coming from the forest into the city. Mount Abu is the only city where bears come inside the city to search in the trash and eat and are getting accustomed to eating this type of food. Researcher Utkarsh Prajapati said that Mount Abu is a tourist spot, and the remaining food is put in Dustbin by roadside and hotels outside the roadside and hotels here. In search of this food, bears come to the city. If there is proper management of waste disposal, then the growing conflict between bears and humans can be curbed to a great extent.

Attackers are happening due to a lack of food -

Balaji Curry, Deputy Conservator of Forests of the Forest Department, said that the incidence of bears appearing in cities has increased in the last five years, while the incidence of attacks on humans has increased in the previous two years. During the research, rural residents of Mount Abu and surrounding areas were also interacted with. Peoples. They told that bears come to the trash to eat the leftover food, mostly of leftovers, sweet foods from the hotel.

More attacks on women -

Research has revealed that a bear also attacks when suddenly encountered, but the interesting fact is that the highest number of women who have been exposed to bear attacks came from women. In these also, if a woman has come in front of a bear with children, the bear has become more attacked.

Bears in trouble -

According to Environmental scientist K.S. Gopi Sundar, the bear, is a threatened creature. The natural habitat of this species is threatened. This is the reason that bears are coming from the forests towards the cities. The growing aggression trend in bears is also due to dumping and other food items thrown in the Dustbin. In search of it, bears are getting attracted towards the cities and when they do not get this food, they become violent and attack the humans on the way.

Narayan Seva Sansthan gets a cheque of one crore thirty-five lakhs

Udaipur: Rotary International President of the year 2021-22 Rotarian Shekhar Mehta and D.G. Rotarian Rajesh Agrawal for modern technology to be established in collaboration with Emory Dreadheel Club of Deolop Country under Global Grant of Rotary Club Mewar and Rotary Foundation for the project of the service of the suffering humanity, a project of Rs 1 crore 35 lakhs with the Narayana Seva Sansthan to free the Narayana Seva Sansthan for the free operation of the severed cleft lip and for the people who have lost their hands in the accident, in the Narayana Seva Sansthan, located at large Presented a check of one lakh thirty-five thousand dollars.

On this occasion, Mehta and Agarwal, along with the team of Rotary Province and Rotary Mewar, visited Narayan Seva Sansthan, located at Badi. He was greeted by the Institute family and Prashant Agarwal, director of Narayana Seva Sansthan, at the campus.

They are addressing the function organized after the visit to the institute. Mehta said that he gets immense happiness when a person comes crawling and walks on her feet. This institute is dedicated day and night to the service of such victims. There is no need to panic such people and get frustrated in life because, for such brothers, organizations like Narayana Seva and Rotary are standing all the time. Narayana Seva Sansthan is a unique example of service and service. Not only this, Narayan Sanva Sansthan is the first institution in the country to provide means, services, facilities, treatment, and mental strength for the differently-abled. Apart from treating the differently-abled, establishing their home and giving employment to them is also one of the institute's priorities. The work of this institute is incomparable.

When Mehta saw the Caliper Workshop, he was surprised to find that there is so much work done for Udaipur's suffering human service. He also saw art and craft galleries and appreciated the results there. He was shocked to see Jagdish Patel's feats in the institute. Despite being handicapped with both feet, climbing on the pole with your hands and body, walking like a wheel on your hands, bringing your feet from the back to the front of the mouth, and staring at the ground as if its feats were excellent. Director Prashant Agarwal said that he had scattered the fruits of his multi-wage accomplishments abroad as well.

During this, Rotary International President 2021-22 Rotarian Shekhar Mehta along with D.G. Rotarian Rajesh Agrawal, Rotary Mewar's team gave a cheque of Rs. 1 crore thirty-five lakhs to the Institute Director Prashant Agarwal for the support and service of the victims in the presence of several distinguished Rotary provincial officers. He further said that this is the beginning. Rotary always stands with the institute and the victims. On this occasion, D.G. Rotarian Rajesh Agrawal lauded the institute's work and said that the institute and Rotary together would carry forward this service work. Director Prashant Agarwal presented the honored Mehta by wearing a shawl, garland, overlay. Rotary's book was also released at the ceremony.

The vital role of every agency in the right implementation of national education policy at the ground level - Dr. Pandya

Udaipur: The basic tenet of the National Education Policy states that an excellent educational institution is one in which every student is welcomed, looked after, and has a safe and inspiring learning environment. This is the first education policy of the 21st century, whereby children have been targeted for quality education and 100% enrollment from primary to secondary

level. The realization of these goals and implementing this policy at the grassroots level is a considerable challenge. It will be impossible to realize it without the cooperation of all the stakeholders. The said idea was expressed by Dr. Shailendra Pandya, Member, Rajasthan State Child Rights Protection Commission, Government of Rajasthan, was Speaking at the level workshop

as the Chief Guest. in the Rajasthan State Educational Research and Training Council (SCERT) in Udaipur under the joint aegis of the Department of International Institute of Cry and Women's Empowerment - Division on National Education Policy - 2020

While interacting with the participants on the characteristics and challenges of education policy, threw light on var-

ious aspects of the new education policy.

Puneet Sharma, Chief Planning Officer, Planning Department Udaipur, Sanjay Joshi Deputy Director Women Empowerment Udaipur, Devi Kishan Parmar, representative of cry Institute, and representatives of Education Department also presented their views at the program.

Representatives of various

voluntary institutions working in the Udaipur division, Rajasthan SCERT, and

Education Department representatives participated in the program.

Dr. Kunawat conferred with Major Donor

Udaipur: Rotary International President Shekhar Mehta honored the former Chairman of Rotary Club Udaipur, Dr. Nirmal Kunawat and Asha Kunawat, by providing Major Donor Pins. Shekhar Mehta presented a crystal to the Dr. Kunawat couple. On which the names of Nirmal Kunawat and Asha Kunawat are inscribed.

On occasion, he also wore a Major Donor pin to the Kunawat couple. It is worth mentioning that this year, the Kunawat couple has contributed immensely in Rotary International by donating eleven lakh rupees to the Rotary Foundation, which will be used in the service work of the world.

DPS student excels in the juvenile scientific examination

Udaipur: Gandharva Chepa, a promising student of Class XI Science of DPS, Udaipur, has demonstrated his qualification by passing the National Level Examination under the Kishore Scientific Incentive Scheme by the Indian Institute of Science, Bangalore. Gandharva has made the school proud by passing this National Level Scholarship Examination in the first attempt and securing the second position in the Udaipur district. Gandharva is to work for the country as an international scientist. On this occasion, the Pro-Vice Chairman of the Vidyalaya, Mr. Govind Agarwal, Principal Mr. Sanjay Narwaria, Principal Mr. Rajesh Dhabhai, and Principal Mrs. Shalini Singh and all the teachers congratulated Gandharva for a bright future.

A distressed patient gets relief from critical illness

Udaipur: Physicians at the Pacific Institute of Medical Sciences (PIMS) Hospital Umrada have successfully treated a young man suffering from a severe illness.

PIMS chairman Asheesh Agarwal said that the 30-year-old youth complained of chest pain, nervousness and breathlessness. With this, the left eye began to swell, which reduced the patient's eyesight. If the patient did not get relief even after undergoing treatment in many hospitals, he was brought to PIMS Hospital. Here the patient was tested for blood, MRI of the eye, and HRCT of the chest, which showed that the patient is suffering from a disease called pulmonary thromboembolism and orbital cellulitis. Starting the treatment at the right time significantly improved the patient's health. After one week, the patient was discharged from the hospital.

Inauguration of the state-of-the-art dialysis unit at PMCH

Udaipur: Pacific Medical College and Hospital Bhilo ka Bedla in South Rajasthan, its affordable multi and super speciality medical facilities, a standard dialysis unit, equipped with state-of-the-art facilities for kidney patients, was inaugurated by Chairman Rahul Agarwal, Preeti Agarwal, Aman Agarwal, PMU VC Dr. AP Gupta, Group Director Medical Services Dr. Dinesh Sharma and Kidney specialist Dr. Anurag Jain.

On this occasion, the Chairman of PMCH, Rahul Agarwal, informed that in the Medical Medical College and Hospital, kidney patients are being provided all kinds of tests under the same roof, dialysis and operation facilities at affordable rates. During this, Rahul Agarwal said that in plans of PMCH, the facility of a kidney transplant would also be provided to the patients.

Dr. Anurag Jain, director of the Department of Kidney Diseases, said that in this dialysis center equipped with state-of-the-art facilities, an inbuilt B.P. monitoring facility is being provided in every dialysis machine. Dr. Jain clarified that patients suffering from HIV and hepatitis B and C, and other infectious diseases would have separate dialysis facilities at this center.

Successful treatment of multi-organ failure severe corona patient

Udaipur: The woman, who was admitted to GBH General Hospital in Bedwas due to severe corona contamination and asthma, diabetes, and heart-related disease, was sent home healthy after

24 days of treatment. The doctor has claimed that such cases must have been selective in the entire district.

Group director Dr. Anand Jha said that the family had taken a 65-year-old woman from Nathdwara to the GBH General Hospital in Bedwas recently. When the woman arrived here with her family members, she had a lot of trouble breathing. In addition to the woman being very overweight, it was discovered that he had asthma after taking her previous information. Apart from this, she is also deficient in sodium in the body, and she has also been heart disease in the past. Apart from this, she is also a patient with diabetes, blood pressure.

It was also affecting both the kidneys. It is called multi-organ failure in medical terminology. In such a situation, she was found to be corona positive, in which she has difficulty breathing, and her HRCT score was also getting 17.

Here at the GBH General Hospital, the ICU team, under the leadership of Dr. Piyush Garg, the Intuitionist, started treating the woman following the Covid protocol and gave the neurologist Dr. Nishant Ashwani on a ventilator when needed. The women were systematically treated at every step with sodium levels maintained and removed entirely from the ventilator on the 14th day and discharged on the 20th day after the respiratory process cured.

Cps Student Lakshya Gadwal tops Udaipur in Kishore Scientific Incentive Scheme

Udaipur: Lakshya Gadwal, a Class XI student of Central Public Senior Secondary School, Udaipur, New Bhupalpura, has topped Udaipur by securing All India Rank - 14 in Kishore Scientific Promotion Scheme Examination. In this way,

Lakshya Gadwal is City toppers of Udaipur, has been made in the examination. This examination is conducted by the Department of Science and Technology, Government of India, for research and interested students in science. The main objective of this examination is to select deserving students who are interested in research work. Director of Central Public School - Mrs. Alka Sharma, Director - Mr. Deepak Sharma, and Principal - Mrs. Poonam Rathore congratulated Lakshya Gadwal and wished for a bright future.

Energy Efficiency and Conservation is Necessary - Suthar

Udaipur: The Bureau of Energy Efficiency conducted Udaipur [This retailer training program with Vivekananda Global University under a standards and labeling program supported by Design2Occupancy Services LLP and Forti. The program provided electronics and electrical retailers and dealers with detailed information about the standards and labeling program and the BEE Star rating. Addressing the program, Mr. Praveen Suthar, co-chairman of Forti branches, said that today, our whole life is connected with energy, so we should not misuse power in view of the increasing consumption.

Collector reviewed vaccination, sampling, and screening

Udaipur: District Collector Chetan Deora reviewed the corona vaccination, sampling, and screening in the district through video conferencing. Collector Deora emphasized to all subdivision level officers

of the district to increase corona vaccination speed and strictly adhere to the corona protocol. The Collector expressed concern over the rising number of corona infections in the district for the last few days, saying that the rate of corona vaccination in the district decreases while the disease is increasing day by day. If this situation remains, then we may have to face a difficult situation again.

Through the video conference room of DOIT, the Collector took information of the situation from all the district block level officers and gave necessary guidelines. High officials of the Medical Department were also present on occasion. The Collector instructed to strictly follow the Corona Protocol to curb Corona infection's increasing pace in the city.

The Collector set the goal of corona vaccination for each block during the VC and instructed the block level's medical officer to send a report in the evening. The Collector has appealed to the general public to get the corona vaccine without any fear, setting a target of at least 1 thousand vaccination daily for each block and 3 thousand people in Udaipur city to get the corona vaccine. The Collector was also directed to meet the target set for daily sampling and screening for urban and rural areas.

Chief Medical and Health Officer Dr. Dinesh Kharadi informed that an adequate Corona vaccine quantity is available in the district. Corona vaccination is underway at every PHC and CHC. We currently have one lakh vaccines. If there is less vaccine at one center, then there is an arrangement to deliver the corona vaccine from the other center immediately.

It is necessary to get the second dose of vaccine:

The Collector said that with the cooperation of the general public and the district's enlightened citizens, we have to convey to the people that the Corona vaccine is not to be relieved after getting the first dose. Until the second dose is made, there is no point in getting the first dose.

There was concern over the rush of shops in some places in the city in the morning and instructed to curb it strictly. He suggested taking action as per the rules on not following the Corona Protocol. Along with this, he urged not to let the crowd gather on the pretext of a wedding ceremony or any other occasion.
