

Ahimsa Yatra : Strong Medium to Become A Powerful Nation

Non-violence is the weapon of the strong people. Non-violence is the greatest force at the disposal of mankind. Only the one who has no fear, who is non-violent and committed to values can stand up against the oppressor. If you follow this fact, then you will clearly understand who is fearless and who is fearful in the present time, who is moral and who is corrupt? In the last 300 days, the Indian public has shown unprecedented restraint and self-confidence in spite of the violent, chaotic, undisciplined and undemocratic activities of the farmers' movement against the three agricultural laws. Be it the recent violence in Lakhimpur Kheri or the repeated Bharat Bandh, it has become a cause of trouble for the people. Highways were blocked, protesters blocked rail traffic on railway tracks. Life became chaotic, the life of the common man did not stop in the midst of troubles, and bitter experiences were felt. The extremity of violence was also seen again and again.

Whereas non-violence is the most powerful weapon, if

there is complete honesty in it. But whether there is a peasant movement in the country or other similar political movements, the occurrence of violence in them has become a cause of great concern. Situations of violence and terrorism have created instability and fear in life. The extremity of violence in this holy land of non-violence is unimaginable. In the country of Mahavira, Buddha, Gandhi and Acharya Tulsi, making violence a weapon of selfishness is a matter of serious concern. In this complex environment, Acharya Shri Mahashraman's undertaking of Ahimsa Yatra and motivating them to become non-violent by conducting interacting campaigns among people of different religion, caste, class, sect is not only relevant; rather, it is a necessity of national life. Acharya Shri Mahashraman started the non-violence journey on 9th March 2014 from the Red Fort ramparts of the capital Delhi. He spread the message of non-violence and peace by travel-

ing around seventy thousand kilometers across nineteen states and three neighboring countries.

Acharya Mahashraman's determination, strong morale and self-confidence made this campaign a successful event. This journey of Acharya Mahashraman is impeccable and reached in Naxalite and Maoist areas in the adverse circumstances of earthquake, corona in Nepal. This is a sign of true determination. It is a fortunate coincidence that the closing ceremony of this Yatra will be held in the capital Delhi on 27 March 2022.

Acharya Mahashraman's journey to non-violence in the remote areas of the country - including neighboring countries like Nepal, Bhutan and Sri Lanka, Assam, Bengal, Bihar, Madhya Pradesh, Orissa, Karnataka, Tamil Nadu, Maharashtra, Rajasthan, Chhattisgarh etc. and special emphasis on non-violence proved worthwhile for the establishment. Because today the country and the world is terrified and terrorized by the great deluge of violence. Caste issues, communal hatred and lack of primary necessities of life are the reasons which are promoting violence and Acharya Mahashraman is trying to control these reasons. One of his innovative ventures in these various endeavors is 'Ahimsa Yatra'. Today Ahimsa Yatra is the only movement which is contemplating the interest of the entire human race. To implement the plan of non-violence, he has chosen the powerful medium of padyatra. Charaveti-Charviti

Charan Vai Madhu Vindati' has become a special thread of his life.

Acharya Mahashraman represents the non violence in such a wonderful unbelievable manner which has been illuminated in the past by Mahavira, Buddha, Gandhi, Acharya Bhikshu, Acharya Tulsi and Acharya Mahapragya. Acharya Mahashraman is giving a new vision to this fading tradition of the past. This new vision can be called the beginning of a new man, a new world, a new era. He is unique and shows a shiny picture of the spiritual rainbow. We see him like a banyan tree which gives a feeling of coolness and humanity to the entire community. In this way, Acharya Mahashraman made the memories of the past as the basis for the initiation of his image, while his present effort and future dreams are also becoming a part of it. When he casts the light of his transparent eyes on the small matters of life, it seems as if the rays of the sun spread on the foggy road.

Changes of the mind are removed and the cloudless sky has risen. Have you ever seen a plaintiff from above? On rainy days, the valleys often look like a bowl full of clouds, and nothing is visible. Then suddenly a wind blows and sweeps away all the clouds and one can see the glowing green color of the trees. Just like the wind are the words and efforts of Acharya Mahashraman. The clouds of non-violence, negativity have disappeared under the aura of his shine.

Acharya Mahashraman explored every aspect of the development of human consciousness. From the tradition of Shri Krishna, Shri Ram, Mahavir, Buddha, Jesus as well as many saints of the Indian spiritual sky - Adi Shankaracharya, Kabir, Nanak, Raidas, Meera etc. He did a wonderful job. There is no such dimension of life which has remained untouched by his discourses and thoughts. He shed detailed light on the esoteric secrets of Yoga, Tantra, Mantra, Yantra, Sadhana, Dhyana etc. Also his revolutionary life-view on many subjects like politics, art, science, psychology, philosophy, education, family, society, poverty, population explosion, environment, violence, ethnicity, corruption, political criminalization, feticide and world crisis of inflation is impeccable. When his series of discourses based on Uttaradhyayan and Shrimad Bhagavad Gita came out, he ushered in a new revolution in the spiritual world. Like Uttaradhyayan by a Jainacharya, it is not only surprising but also inspiring to correctly interpret the revered text of the Sanatan tradition, the Gita. That is why Acharya Mahashraman is popular and respected among the masses as the Messiah of humanity. He is such a saint, for whom the distinction of sect and scripture does not become a hindrance. His programs, thoughts and discourses are for the benefit of the common man. People of every caste, class, region and sect have been benefiting from his life-

philosophy and personality.

With the sound of his voice, someone may fill millions and crores with the passion of spiritual love and make them realize that this universe is not as much as we have seen - where there are others ahead of the stars - in today's era, this voice is Acharya Mahashraman. It's the same. Mahashramanji has spoken a lot and is speaking and the whole world has heard and is listening - some by taking heart and some by being faithful. But his voice is echoing everywhere. But whatever he has said, I think the only squeeze is that the man should come to know about his reality. In the evening, when the clouds bloom with many colors in the sky, I see the movement of emotions, in the waves of the ocean, in the trees, in the wind - expressions, expressions and only expressions. Listening to Acharya Mahashraman is also like giving an opportunity to the heart to pass through many gestures for innumerable people like me. This voice is the need of our time; Acharya Mahashraman is the need of our time. The foundation for the construction of Acharya Mahashraman is not based on luck, but with self-confidence, effort, dedication and brilliant determination. We should become conscious in making the dreams of society and nation come true, this is the inspiration of Acharya Mahashraman and it is auspicious and preferable for us to make this inspiration the goal of life. This can solve problems like the peasant movement and other problems of the nation.

Contour Device Placement for cerebral artery disorder

Udaipur: In the Pacific Center of Neuro Sciences of the Pacific Medical College and Hospital, the patient suffering from a brain hemorrhage was given a new life by inserting the first contour device of South Rajasthan in the artery. In this patient's contour device placement, brain and paralysis specialist Dr. Atulabh Bajpai, Dr. Ramakant, Dr. Akhilesh, Dr. Alok, Dr. Chandra

Shekhar, and the team were supported.

A 47-year-old woman resident of Nathdwara was brought to the Pacific Center of NeuroScience by the family members due to severe brain pain, vomiting, and nervousness. Where the patient was shown brain and paralysis specialist, Dr. Atulabh Bajpai, on examination, brain hemorrhage was found in the

patient's brain.

A largemouth balloon was found in the vein of the brain after angiography of the brain by recruiting the woman.

The woman was also suffering from high blood pressure for the past year, but she was not taking regular treatment.

Brain and paralysis specialist Dr. Atulabh Bajpai told that the wide triangle of mouth

found in angiography of the brain needed to be closed to prevent it from bursting but the treatments for closing the balloon included coiling, clipping,

No means of stand assistant coiling, flow diverter, etc. was possible.

Dr. Vajpayee clarified that the latest technology for the treatment of the patient was done by the Contour Device, which was done for the first time in Udaipur and for the second time in Rajasthan. Significantly, the Contour device is used to treat intracranial aneurysms. The Contour

is an umbrella-like device that dilates and obstructs the flow of blood in and out of the aneurysm. Also, the patient does not have to take blood thinners.

PMCH Chairman Rahul Agarwal says that better equipment, technology, and reliable team are important for better treatment, which is available in Pacific Hospital. The patients are now completely healthy.

Saarthi Trust challenges the amendment of Marriage Act in High Court, pleads to save Rajasthan from becoming child marriage hub

Dr. Kriti Bharti of Saarthi Trust filed Public Interest Litigation in the Raj. High Court at Jaipur Bench, objecting to the provisions of registration of child marriages, requesting to quash the amendment, alleged that the Raj. Government misinterpreted the order of the Supreme Court and confused it.

Jodhpur: A Public Interest Litigation (PIL) petition has been filed by Jodhpur based Saarthi Trust's managing trustee Dr. Kriti Bharti in the Rajasthan High Court, Jaipur Bench challenging the constitutional validity of Rajasthan Compulsory Registration of Marriage (Amendment) Bill, 2021 which has the provision of registering child marriages in Rajasthan. On the other hand, Dr. Kriti Bharti has plea to quash the provision of registering of child marriages which will lead to Rajasthan a Child Marriage Hub. The Rajasthan Legislative Assembly on 17 September passed the Rajasthan Compulsory Registration of Marriage (Amendment) Bill, 2021. In this amendment bill, the government has made provisions for registration of marriage of a girl below 18 years of age and marriage of a boy below 21 years of age in one month. This provision of child marriage registration has been challenged in Jaipur Bench of Rajasthan High Court by Jodhpur based Saarthi Trust's Dr. Kriti Bharti, Managing Trustee and Rehabilitation Psychologist who is internationally renowned for the annulment and prevention of child marriages. In this Public Interest Litigation, the Government of Rajasthan, the concerned departments and the National Commission for Protection of Child Rights have been made parties and pleaded for an early hearing.

World Top Ten Activist Dr. Kriti Bharti, who has annulled 43 child marriages and has stopped more than 1500 child marriages so

far, filed a Public Interest Litigation in the Jaipur Bench of the High Court through Supreme Court advocate and former member of Delhi Child Rights Protection Commission Shashank Shekhar. Petitioner Dr. Kriti Bharti says that through this amendment, the government has tried to give registered recognition to the malpractice of child marriage which is a cognizance offence.

Spend a month in Rajasthan, you will get certificate

Dr. Kriti Bharti says that the future consequences of giving registered recognition to child marriages will be quite fatal. To get the government certificate of child marriage, people will come to Rajasthan for a month and will dump their children into child marriages. Due to which Rajasthan, which has been already famous for years for having the highest prevalence of child marriages in the world, will turn into a child marriage hub by this amendment. Apart from this, many facts have been presented in the PIL. Misinterpretation of Supreme Court order Petitioner Dr. Kriti Bharti of Saarthi Trust has mentioned in PIL that the Raj.

Government has also misinterpreted the 15-year-old Supreme Court's 2006 judgment as a reason for passing the Rajasthan Compulsory Registration of Marriage (Amendment) Bill. Rajasthan Government has also not completely followed the orders of the Supreme Court which were given in judgment.

The path of Child Marriage Annulment will be difficult -

Dr. Kriti Bharti who is the pioneer of child marriage annulment campaign in the country, told in the Public Interest Litigation that after this new amendment, the path of child marriage annulment will become very difficult. Victims will be forced to bear the brunt of child marriages for the entire life.

Jurisdiction of High Court

Dr. Kriti Bharti said that the amendment bill has been passed in the Rajasthan Legislative Assembly. This Bill will affect the entire children of Rajasthan. In such a situation, the Rajasthan High Court has the primary jurisdiction of hearing. In such a situation, a Public Interest Litigation has been presented in the Rajasthan High Court, Jaipur Bench.

Dr. Kriti Bharti Leading in Annulment of Child Marriages

It is noteworthy that Dr. Kriti Bharti, who was included in the list of 100 Inspirational Women of BBC, took a unique bold initiative by getting the country's first child marriage annulled which was also included in Limca Book and World Records India and CBSE syllabus. So far, Dr. Kriti has annulled 43 child marriages and has stopped more than 1500 child marriages. Dr. Kriti Bharti was graced with the title Real Sherni of India at the launch of the movie Sherni starring Bollywood Actress Vidhya Balan. American chocolate company Hershey had also dedicated a special edition of chocolates to Dr. Kriti Bharti by putting up her photo

and work on chocolate cover and sleeves. USA's Tated Magazine has included in the list of World Top 10 Activists. She has been awarded with many national and international honours.

They say-

With this amendment bill, Rajasthan will again go back for hundred years. The provisions of the Prevention, Annulment and Punishment of the Prohibition of Child Marriage Act 2006 will be completely abolished. Victims will not be able to break the shackles of child marriages.

-Dr. Kriti Bharti, Managing Trustee and Rehabilitation Psychologist, Saarthi Trust, Jodhpur

Organized Second Inter College Undergraduate Quiz Competition

Udaipur: Teams from all six medical colleges of Udaipur participated in the "Second Inter College Undergraduate Quiz Competition" organized by the Department of Community Medicine on the occasion of World Mental Health Day 2021. The welcome address in the program was delivered by Dr. Mukul Dixit.
