

IRWO cheated Sonipat Kundli project Members over 76 Corers of Rs: Sandhu

There is no provision for fire safety, Then how to Stay at an unsafe place: Sanjay Sharma

(IRWO cheated officials and got the completion certificate of the project)

NO profit no loss based organization IRWO cheated over 76 corers of Rs Sonapat Kundli Residential project from retired and serving railway employees. Shri RS Sandhu, Chairman, Rail Vihar Sonapat Members Welfare Association, is a pain. He said that the location was never told correctly in the Sonapat Kundli project by IRWO. IRWO is always trying to mislead by suggesting it according to the landmark. IRWO showed the dream of making the Sonapat Kundli project on the Delhi border. The land was purchased from a private builder in Rajpur Village Sector 10, Sonapat, 18 km from

Kundli, Where there is no road to come.

Sandhu says IRWO purchased a separate plot for the same project, so that cost increased and members suffered. Sandhu sent us a detailed chart in which he defined how IRWO cheated the retired and serving railway employees. He said that in 76 units of type four IRWO increase of thirteen lakh fifty-six thousand thus Ten corers twenty-one lakh more were recovered by IRWO.

IRWO Made 186 units of type three, one lakh twenty-nine thousand rupees more were charged on each unit; thus, a total of Nineteen corers thirty two lakh more were collected.

IRWO Made 247 units of type two, six lakh ninety-one thousand more were charged on each unit, which is Nineteen corers thirty-two lakh more were collected.

In this way, the IRWO illegally collected rupees forty-seven crores from the retired and working railway employees, which is a big fraud in itself.

Sandhu says that IRWO collected money for parking. That amount is also unjustified.

Money from retired and working railway employees was recovered from 76 flats holders of type one lakh each, that's 76 lakhs. At the same time, three crore forty-eight lakh rupees more were collected from the 186 flat holders of type three according to one lakh eighty thousand. In this way, four crores eleven lakh IRWO recovered more than the retired and serving railway employees.

Cost of power backup was included previously, but IRWO charged separately by each flat holder, from 76 units of type four flat, a total of seven lakh rupees more were set at the rate of Rs. Eighty thousand per flat.

From 186 units of flat type

three, about one crore and fifty lakhs were recovered per flat seventy thousand rupees extra charged by IRWO.

About one crore seventy-three lakh rupees were extra collected from the units of type two of 247 flat, in the name of power back up. More than four crores more were received by retired and serving railway employees by IRWO.

The total cost of Scam has been made by IRWO Forty-seven crores, including parking of four crores, and Ten lakhs of power back up has been done to about four crores. Ten corers twenty-one lakh more were recovered by IRWO from type two flats. Nineteen corers, thirty-two lakh more were

collected from type Three. Nineteen corers thirty-two lakh more were collected from type four flats holders.

Now it comes around 76 crores RsScam made by IRWO. Currently, nobody is investigating the fact.

IRWO made scam does not end here. Sandhu said that IRWO has financially broken the backbone of the retired and serving railway employees who had booked flats under this project. IRWO first announced to make 76 Flats of type 4, then A and B towers made 54 units each, making a total of 108 Flats of type 4.

After that, instead of reducing the cost, 32 units were caused more by selling them for 60 lakhs each IRWO earn 20 crores. In their bag and but their load was born by 76 flats holders.

Sandhu said that in the Sonapat Kundli project, around eleven percent penalty was imposed from the retired and serving employees. While on the other hand, the reason for the delay was caused by the IRWO. And the fraudulent construction material and land purchased Dhotale .no one is yet to answer.

Sanjay Sharma said that Sonapat Kundli's plan of IRWO is not suitable for living purposes. On the other hand, there is no provision of fire safety in it. If there is a fire in the building, then there is no security arrangement there. According to the building by-laws in 2008, without security arrangements in high-rise buildings, no NOC and completion certificate will be issued by the government and local authority, then how IRWO got CBI should also investigate this certificate. Sharma says that every person wants to live in a safe place, so the retired and serving railway employees keep the intention of residing near Delhi given the Kundali scheme. They invested their lifetime earnings in the project of IRWO, but Neither got a safe building nor a suitable living place. IRWO Dhotale has increased the cost of Flat beyond the limits, and there is no one to listen to. Now the Railway Minister himself should pay attention to this and get the investigation of Sonapat Kundali Scam CBI inquiry is must require in Sonapat Kundli project of IRWO.

- Dr.Munesh Arora

Always discounts are given on Khadi and Village Industries during Exhibition: Pandya

Udaipur: Under the joint aegis of Rajasthan Khadi and Village Industries Board, Jaipur and District Industries and Commerce Center Udaipur, the 17-day divisional level Khadi Village Industries Exhibition 2021 organized at Townhall concluded.

The chief guest of the closing ceremony was Laxmi Narayan Pandya, president of Rajasthan Adivasi Sevak Sangh. Addressing the function, Pandya said that the exemption is given by the

State and Central Government on Khadi and Village Industries products during the exhibition should be done forever so that the common man gets the benefit of that exemption at all times. Efforts are being made to increase the quality of Khadi and the trend of the general public towards Khadi.V.C. Garg said that Khadi and Village Industries units are chemical-free. Such units should be further encouraged. The government departments should get the products used in their work from Khadi institutions only; the tribal department has already taken the initiative.

Prakash Chandra Goursaid that 101 stalls were installed in the exhibition this time. It is a sign of its success. Pankaj Upadhyay also addressed the function. Both the Khadi institutions and the general public benefit from organizing such an exhibition.

Trainee interacted with Lakshyaraj Singh Mewar

Udaipur: It is a happy occasion that the trainee officers of Rajasthan Administrative Service are about to start the journey of service, and in such a situation, you can get a high position in the field of service by getting training from this stream. This view was expressed by Lakshyaraj Singh Mewar, a member of the former royal family of Mewar while addressing the trainee officers of the Rajasthan Administrative Service at the City Palace on Friday. Mewar is the land of pride and courage along with bravery; sacrifice-service is also synonymous with Veer Bhoomi Mewar. Mewar said that the best formula to accomplish any work is GGGN, which means Greatest Good for Greatest Number. Lakshyaraj Singh Mewar, during his interaction with RAS trainee officers who arrived for training at Harish Chandra Mathur Public Training Institute, Udaipur, also answered their questions with impunity.

RAS: What is the ideal time to serve?

Mewar: Time comes, time goes, take care of time, the time comes in time. Mewar never compromised with service and self-respect. In the present time, whenever there is a chance, it is ideal for keeping giving relief with determination while not compromising with the service.

RAS: What is the best formula for success?

Mewar: It is the best formula to get any work done. GGG means Greatest Good for Greatest Number. Use this formula to try any task. Whatever job you do should be for the best good, and that work should be beneficial for the best number.

RAS: What contribution should any individual make to society?

Mewar: We will have to see what is better to do. Let us help the needy with our mind, word, and deed. Let us feel the needs of the deprived and backward areas around us and make dedicated efforts for their betterment, in which our participation is also necessary.

RAS: What is the place of motivation in success?

Mewar: The journey of a thousand miles begins with the first step. Our first step is crucial. The biggest thing we have to give to people is an inspiration. Let us work diligently by helping every needy of society and inspiring them for success.

RAS: Mewar has never faced pressure. How can officers going into the administrative service handle the pressure?

Mewar: What is right is right. Never worry about what is right. Understand the end goal with your discretion and reach the goal and give relief to the people, then you will not come under pressure. This is my belief.

RAS: What is necessary for the all-around development of an individual?

Mewar: Sports are essential for the all-around development of a person. Along with education, everyone is also involved in sports. If we have to make our balanced development, we must find time for one sport. In this age of social media, we waste a lot of time. The trainee officer was overwhelmed to see the City Palace.

Earlier, the trainee officers visited the City Palace. These officers were divided into three groups and were given an overview of the museum and other divisions of the palace. The palace guides took the officials to each room and provided detailed information about the displayed content and historical facts. The officials were overwhelmed to see the material displayed on the rich history, culture, and traditions of Mewar.

During this, additional director of the institute, Jyoti Kakwani, deputy director of public relations Dr. Kamlesh Sharma, faculty members of the institute, Ira Bhatnagar, Monika Garg, Ragini Damor, Bhupendra Singh Auwa of Mewar Charitable Foundation, Mayank Gupta, Utesh Dunganwal, and other departmental personnel were present. In the end, Lakshya Raj Singh Mewar was presented with a book and pen titled 'Satya Par Mere Prayog' based on the life of Mahatma Gandhi.

Kherwara got a well-equipped ambulance

Udaipur: On the recommendation of Kherwara MLA, Dr. Dayaram Parmar, Government Community Health Center, Kherwada has got an Advance Life Sport Ambulance. Dr. Parmar flagged off this ambulance on Thursday in the camp organized in Sakalal under the campaign with the villages of the administration. Block Chief Medical Officer Dr. Arun Meena said that life support system, oxygen cylinder, ECG, cardiac monitor, BP operator, automatic pulse machine, portable freeze.

The shooting of the short movie 'Cycle' begins

Udaipur: Crime Patrol fame Gulshan Pandey, who is playing the lead role in the short movie 'Cycle' being produced by

DIGGAZ Productions and RAW-Films, reached Udaipur.

Interacting with the media in Udaipur, Gulshan Pandey said that working in this film which depicts the beauty of the relationship of a middle-class family, will be a very new experience for him. Earlier, he has been seen as a harrowing image of the police in the Crime Patrol. He wished his fellow actors all the best and said that this film would touch the heart of every

single person in every household. Mukul Jain, Priya Mishra in a movie with Gulshan Pandey Ramesh Nagda, Child artist - Hiren Jotwani,

Kavya Harkawat will show their acting.

Abhishek Joshi, director of DIGGAZ Productions, who produced the film, said that the film's name is Cycle, which depicts a small to middle-class family's feelings, understanding, and compulsions. Joshi said that it would take about two months to make the film, while its shooting will be completed in the next two days in Udaipur itself and other actors, including Gulshan Pandey.

The film director Gaurav Prabhakar said that there would be no technical compromise in filming the movie. In the future, even if it gets a chance to play it on the big screen, the quality of this movie will still be capable. Prabhakar

also said that the movie would also be sent for awards at the International Film Festival, and it will be released on the leading platform as well. Its grand launch will be done after the production of the movie. Shahnawaz Khan of X-Factor fame Udaipur, who is giving music in the film, said that the kind of emotions would be depicted in the film's characters and the story of the film, in the same way, the audience will feel the same in the music as the music of the film. Just like story and acting, it should be settled in the people's hearts. Senior theater artist Mushtaq Sameer, film's DOP Rishabh, and other team members were present during the press conference.

CME organized by Geetanjali Medical College and Hospital, Udaipur in Bhilwara

Udaipur: CME was organized at Bhilwara by Geetanjali Medical College and Hospital, Udaipur. Under which the role of Chemotherapy in Squamous Cell Carcinoma of Head and Neck (SCCHN) by Cancer Specialist Dr. Ankit Agrawal and latest surgery management in Ovarian Cancer by Cancer Surgeon Dr. Ashish Jakhetia was discussed in addition of that Stomach therapy is also available in Geetanjali Hospital. Detailed discussion was also held on CT Scan IQ Generation-2, 3 Ring. In the program, the eminent doctors of the Bhilwara city participated enthusiastically, following all the necessary rules of Corona.

Successful treatment of complicated nerve injury in PIMS

Udaipur: Physicians at Pacific Institute of Medical Sciences (PIMS) Hospital, Umra, have successfully treated patients with complex nerve injuries.

Chairman Ashish Agarwal said that Nahar Singh, a resident of Mandsaur, was recently admitted to PIMS Hospital due to an accident. In the accident, the left shoulder, elbow, and hand had stopped moving due to injury to the nerves going from the neck to the patient's hand. On this, the hand and microsurgeon of PIMS Hospital, Dr. Yogesh Sharma, Dr. Bhanupratap, and anesthesiologist Dr. Naresh Tyagi connected the nerves with the brachial nerve transfer technique plexus surgery

of the patient. The operation lasted for 6 hours. The Head of the Department of Orthopedics, Dr. BL Kumar, said that this is a scarce type of surgery done in PIMS Hospital, Umra. If this surgery is done in time, then the patient can avoid disability for life.

Strictly it is necessary to follow the corona Guideline-District Collector

Udaipur: Given the increasing cases of Corona in the district day by day, District Collector Chetan Deora interacted with all the sub-divisional officers, BCMO, BDO, CDPO, and block-level officers through video conferencing on Friday. During this, he also sought suggestions from all the departmental officers.

Zila Parishad CEO Mayank Manish, Additional District Collector Administration OP Bunkar, Additional Superintendent of Police Ananth Kumar, Chief Medical and Health Officer Dr. Dinesh Kharadi, Dr. Akshay Vyas from WHO, and other officials were present from the District DOIT Center.

Increase the sampling speed -Collector Deora instructed all BCMOs to increase sampling. He said that along with the selection of all ILI patients coming to the hospital, the random sample should be increased in the market and other crowded places so that the reality of the infection can be known and practical steps can be taken to prevent infection in time.

Complete the target of vaccination by January 31

The enthusiasm towards vaccination which has been seen in the district in the last 15 days, is commendable, and we have succeeded in administering the first dose of vaccine to more than 90 percent of people. The Collector said that there is a

clear guideline from the State Government that by January 31, 100% vaccination of the people should be completed. He directed all the administrative and medical officers of the block level to prepare an action plan and send groups to village Dhani to vaccinate all the beneficiaries who were deprived of the first and second doses before January 31.

The Collector expressed happiness over the progress of vaccination of children in the age group of 15 to 18 years being done in schools. He said that keeping the pace at which vaccination has been done so far in schools, an action plan should be implemented to vaccinate all children of this age group in the next 5 to 7 days.

Health facilities being strengthened in rural areas

Collector Deora said that to strengthen the medical needs felt during the second wave, 13 high focused facilities are being developed in the district with all life saving modern equipment, including oxygen plants, DG sets, oxygen concentrators. He directed all the BCMOs to keep the plants and equipment available at all the facilities in working condition. If there is a need for any other equipment, medicines, or consumables, inform the CMHO about it in time. The Collector said that instead of referring patients to the headquarters in case of any critical situation, treatment should be done on priority at these facilities. Due to the medicine at the local level, the commoner does not have to wander here there.

Spread awareness along with strictness to prevent infection

To control the infection at the primary level itself, the Collector directed all the committees constituted from the district level to the panchayat level to make them functional again. He said that the guidelines issued by the government should be strictly followed in all public places, including markets, mandis so that the situation does not worsen. Section 144 has been implemented in the district, ensuring compliance everywhere. All the sub-divisional officers and police officers should conduct route marches in big towns and markets so that the positive message of following the Covid protocol reaches the public. He said that the commitment with which everyone worked during the first and second waves of Covid is commendable. Even during this third wave, we have to be prepared for the toughest of situations, and we all will overcome this challenge easily.

Successful treatment of a patient suffering from a rare disease called hemorrhagic polyps

Udaipur: A 54-year-old woman who is suffering from the problem of being unable to speak got rid of this pain by doing a successful operation. In this successful operation of Hemorrhagic polyps,

This 54-year-old woman, a resident of the Neemuch district, could not speak for the last two years. When the relatives showed the local doctors, they gave medicines citing common cold and cough but no avail. The relatives brought the patient to Pacific Hospital, where they showed ear, nose, and throat specialist, Dr. Shiv Kaushik. On examination of the patient, a lump of blood was found in the vocal cord of the patient's left side, which is called 'hemorrhagic polyp,' which was treated only by operation.

Ear, Nose and Throat Specialist Dr. Shiv Kaushik said that both the kidneys of the patient were not working properly as

well as the blood pressure of the patient was also 220, but the high-level doctors of the Department of Anesthesia and world-class technical facilities available in Pacific Hospital Bedla Due to this type of operation are possible. Dr. Kaushik clarified that this type of disease is found in one person out of one lakh.

The relatives of the patient told us that it is nothing less than a miracle that we can see our sister speaking again. The family thanked PMCH Chairman Rahul Agarwal, doctors, management, nursing personnel, and staff.

Ten days after the food pipe burst, repaired, got a new life

Udaipur: Due to the tireless efforts of. Dr. Pankaj Gupta, Dr. Dhaval Vyas, Dr. Manish Dodmani, G.I. Surgeon Dr. Kamal Kishore Vishnoi, Chest Pathologist Dr. Gaurav Chhabra, Technician Sanjay Somara and team, a new life to the 35-year-old patient.

Dr. Pankaj said that when the patient came to Geetanjali Hospital, he was in a very serious condition, there was little hope of survival. The patient was immediately sent to a 256 slice CT scan machine; it was found that the patient's esophagus had ruptured, due to which whatever he was eating was going directly to the lungs, around the heart. In such a situation, even the operation was not possible.

In such a situation, it was decided to put the stent. A 10 cm stent was inserted above and below where the patient's food pipe was torn, the stent was fixed with a thread by the nose. The patient was kept in the hospital for a few days so that the stent could be installed properly and the infection and pus around the heart and lungs could be taken out through a tube inserted in the chest. Patient's feeding jejunostomy was created by a team of surgeons to open a separate passage into the small intestine. For about two months, the patient was given food in this way. When the patient came to the hospital after one month, he was examined and his stent and feeding jejunostomy was removed. The patient is now healthy, carrying out his normal routine.

Dr. Pankaj said that the patient had vomited blood along with chest pain, which he did not care for, due to which the patient's food pipe was completely torn. If anyone has such a problem, or if there is vomiting with a lot of force, then it should not be taken lightly and should immediately contact the doctor. Geetanjali Medical College and Hospital has been providing all world class services under one roof for the last 15 years and has been setting records in the medical field, the doctors and staff working in Geetanjali Hospital are always ready to treat every patient coming to Geetanjali Hospital.
