

MPUAT obtained ten patents in just one year

Udaipur: Maharana Pratap University of Agriculture and Technology, Udaipur, has acquired ten patents in the last year, out of which four patents have been granted by the Government of India for various research and research works in the previous three months only.

Dr. Narendra Singh Rathore, Vice-Chancellor of the university, congratulated the scientists concerned and told them that it is a matter of pride for the entire university family to get ten national and

international level patents in one year.

Vice-Chancellor Dr. N. S. Rathore said that if we use the waste material in construction, which is the largest industry after agriculture, we can contribute significantly to saving the environment. He said that today the whole world is facing the problem of management of waste material and the threat of global warming, and India is also not untouched by it. In this direction, Maharana Pratap University of Agriculture and

Technology's constituent College of Technology and Engineering's Civil Department

contributes to environmental protection by using waste material in civil construction. In this episode, getting nine patents by the Government of India and the Australian Government for the works done by the Civil Department is a significant achievement.

The university will also get revenue from developing and commercializing these technologies.

Dr. Trilok Gupta of the Civil Department has successfully constructed a road in the department using single-use

plastic. Similarly, the West Tyre has been strengthened by using it in the paver block. Along with this, work has also been done in the direction of making floor tiles of the remaining ash after burning sugarcane.

In this way, Dr. Trilok Gupta of the department has obtained nine patents from the Government of India and Australia in the last year, out of which three have been received in the last three months only. Dr. Gupta said that he did this research work

by D.S. T. New Delhi, D. S. T. Jaipur, and T. E. Q. I.P.M. H.R.D. It is done under various projects received from New Delhi.

Similarly, Dr. SS Sharma, Dean of Rajasthan Agricultural College, informed that a patent had been obtained from the Government of India on the controlled release of urea nanoformulation by Dr. Vinod Saharan, associate professor of the Department of Molecular Biology and Biotechnology. With this discovery, urea and fertilizer will be appropriately

used in agriculture, and due to a reduction in its wastage, the use of urea in small quantities will benefit the crop, and the expenditure of farmers will be saved on fertilizers.

The Dean of CTAE, Dr. P.K. Singh. Said that the innovation of concrete roads made of plastic, paver blocks made of brick waste powder, and floor tiles of ash left after sugarcane burning was beautiful. This innovation would be an unprecedented step towards environmental protection. Due to the remarkable work done

for the patent by the scientists of the university, patents have also been granted by the Australian government, which is a big achievement for our college. Due to these patents received by the university, I.C.A. R. New Delhi's ranking will also benefit.

Through these patents, the university will get an opportunity to earn income, and at the same time, the morale of all academic and non-academic staff will increase, and they will work with more energy.

Umashankar Sharma listened to the problems of Divyangjan

Udaipur: Commissioner for Persons with Disabilities Umashankar Sharma remained on Udaipur's visit on Thursday. He heard the Divyangjans in the Zilla Parishad auditorium and assured them of solutions after listening to their problems.

Commissioner Sharma said that the government led by Chief Minister Shri Ashok Gehlot is committed to the people with disabilities and is trying to connect the differently-abled people with the mainstream of the society and provide them opportunities to live with self-reliance and self-respect. The priority is to take the schemes of the Chief Minister to the people.

Rajasthan was the first state to appoint Divyangjan as councilors

While addressing the pub-

lic hearing, Commissioner Sharma said that Chief Minister Ashok Gehlot had exposed his sensitivity by establishing Divyangjan as councilors in municipal bodies. Rajasthan is the first state to appoint differently-abled councilors in this way.

Calmly public hearing:

On this occasion, Divyangjans from different districts presented their grievances regarding the non-availability of benefits of various wel-

fare schemes, including pension, scholarship, promotion of differently-abled personnel, reservation benefits, before Commissioner Sharma, discussing which he discussed these problems. Instructions were given to the concerned officers for speedy disposal.

He told the officers present during the public hearing and representatives of various voluntary organizations that the service of Divyangjan is a noble work and Chief Minister

Ashok Gehlot himself is doing effective work in the interest of Divyangjan. At the same time, during the public hearing, while discussing some issues at the state government level, they assured their early resolution.

During this, Divyangjan took action against those who took benefit of reservations from fake certificates, got the office of the Social Justice and Empowerment Department to be established on the ground floor, set up of single window in municipal bodies, giving exemption to the differently-abled in city buses, ration shops, Suggestions were given to keep the handicapped free from the arrangement of queues at banks, bus stations, railway stations and to make arrangements for wheelchairs, toilets, and wheelchairs in the

camp and meetings to be organized for the disabled. Instructions are given for publicity of the schemes:

Commissioner Sharma said that the state government had run various welfare schemes and programs for the differently-abled. By giving wide publicity, more and more eligible people should be benefited. While discussing with the concerned officials regarding the state government's scooty distribution scheme, pension, scholarship, and various equipment to be given to the differently-abled, he talked about providing the benefits of the facilities offered by the government from time to time. He instructed to take special care of the facilities for the differently-abled in the camps, programs, and meetings to be organized.

On this occasion, special guest social worker Gopal Sharma said that the work of the differently-abled should be done on priority, and they should be provided with the help and facilities provided by the government on time.

In the meeting, Mandhata Singh, Deputy Director, Social Justice, and Empowerment, while highlighting the progress of departmental schemes, apprised the House about the assistance and facilities provided so far to the differently-abled and said that according to the orders of the State Government, the eligible persons were benefitted from time to time.

Nominated councilor of Municipal Corporation Vinod Jain, officers of various departments, and many Divyangjan were present on occasion.

MMPS honored for the excellent work of SPIC MACAY

Udaipur: Padmashree Kiran Seth, the founder of SPIC MACAY, was honored in the schools of Udaipur in the Lok Kala Mandal during her stay in Udaipur for his cycle journey from Kashmir to Kanyakumari. Maharana Mewar Public School was honored to promote and do excellent work in promoting Indian classical music and culture among the youth in the award ceremony held at Bharatiya Lok Kala Mandal.

The guests of the function were Udaipur chapter convener D.K. Gupta, Padampat Singhania University Vice-Chancellor Hariprasad Honwad, Udaipur Chapter President Sanjay, and Chief Guests were J P Bhatnagar, Bhagwat Babel, and Shiv Shrotriya. Like Hussain, the Director of Lok Kala Mandal welcomed the guests.

Mumtaz Masih reaches Udaipur, discusses with the Collector

Udaipur: President of Voluntary Sector Development Center Mumtaz Masih reached Udaipur on Thursday, where District Collector Tarachand Meena welcomed him and discussed various points.

During the discussion with the Collector, Mumtaz Masih said that all N.G.O.s, Trusts, Foundations, and all non-profit organizations and companies in the Udaipur district will now need approval from the Voluntary Sector Development Center to get government grants or assistance.

In this regard, he gave instructions to District Collector Tarachand Meena. He said that there is a need to take immediate steps given the tribal areas in the Udaipur district. Collector Meena informed about the innovations happening in the district.

Masih said that his department would also encourage voluntary sector organizations and fix responsibility and accountability under good governance.

Masih, in discussion with Collector Meena at Circuit House, said that Rajasthan Chief Minister Ashok Gehlot intends that the peo-

ple of the state should get the benefit of all the welfare schemes, and accountability should be fixed for this and in this sequence, the public welfare schemes of the state government should be fixed.

Masih asked the Collector to issue necessary guidelines for registration of the Voluntary Sector Development Center to all the N.G.O.s, Trusts, and Foundations in the district. His department is ready to ensure 100% implementation, and voluntary sector organizations, including all the N.G.O.s of the state, will be required to register themselves with their complete details in the Voluntary Sector Development Center of the Government of Rajasthan to work in Rajasthan. The membership/registration program of the Voluntary Sector Development Center will be started soon. Trusts, foundations, and all non-profit organizations and companies will not be able to work with any state government department.

P.F.C. Education is preparing a campus Placement Drive in April

Udaipur: The preparations for the campus placement drive have started this month at P.F.C. Education Center. Director Meenakshi Bherwani said that in the first week of the month, in the Saturday skill development session of P.F.C. Education, Amit Mathur explained how to draft a CV. In the second week, Santosh Kalra told the children about five tricks on how to crack any interview. In the coming week, students will be taught in the coming weeks through sessions like Group Discussion, Mock Interviews, and Training so that the students can be fully prepared for the interviews for next month's ACCA Campus Placement Drive.

She informed that in the ACCA Campus Placement Drive, the placement of children would be done in the cities of India like Udaipur, Jodhpur, and Ahmedabad. ACCA Campus Placements are conducted every six months at P.F.C. Education, and children get good training packages in ACCA Campus Placement. Students got packages ranging from 12 lakhs to 15 lakhs per annum in the past.

Dr. K.K. Shrivastava's book "Bheed Ka Aadmi" launched

Kota: Under the Age of Azadi Ka Amrit Mahotsav (AKAM), in the Dr. S. R. Ranganathan Conventional Hall, Government Divisional Public Library, Kota, The general book launch ceremony of the book "BHEED KA ADAMI" by eminent homeopathic physician Dr. K. K. Shrivastava became an unforgettable event when foreigners on stage at that ceremony The presence of scientists and literary scholars on the stage and their expressions did not only give dignity to the stage but also created history in the golden pages of this event of the Kota Government Divisional Public library of Hadoti zone.

First of all, in the hall of the packed library, when the Divisional Librarian Dr. Deepak Kumar Shrivastava, while announcing the name, invited foreign guests to come on the stage, there was silence in the hall. He served as Assistant Chief Research Officer, National Biotechnology Development Agency, Abuja, Nigeria Scientist Dr. Belo Ibrahim, Principal Epidemiologist Officer, Palace of Emir of Gangergama, State Ministry of Health, Dr. Mohammad Saleh of Najirima Certified Library, Nigeria Scientist. Dr. Sunusi Hussaini and Principal Librarian Officer, Federal University Dutsinma, Dr. Mustafa Haroon of Nigeria, were honored on the stage. After this, the chief guest of the function, Dr. Manisha Jain, Professor MIT, RC. Modern Institute of Technology and Research Centre, Alwar, President of the function Dr. Pritima Vyas, Principal Librarian, Aklank College, Kota and special guest Dr. Preeti Vyas, Principal Librarian, Jawaharlal Nehru Teacher Training College, Kota, took a seat on the stage, in the end, The author of the book, Dr.

K.K. Shrivastava took the chair.

After this, the invocation of Goddess Saraswati, wreath, and lamp lighting was done by all the guests. Inaugurating the ceremony, Dr. Deepak Shrivastava said that our whole family got to follow, follow and persevere the high ideals of Daddy. We came here by overcoming all the obstacles and impediments in life.

He gave a priceless idea in English "Never be proud of your talent in life because when a stone falls in the water, it sinks

doing it. But, tomorrow, you will be stronger because of it. Dr. Mustafa Haroon also said similar thoughts about his long time thinking and brainstorming. Coin always makes a sound, but the currency notes are always silent. So when your value increases, keep quiet." Dr. K. K. Shrivastava, the author of the book and still engaged in continuous service with homeopathy, briefly expressed gratitude to the book's editor, Dr. Akul' and gave him a priceless gift by his son to the book 'Bheed Ka Aadmi'. He said that medical service is the only service that continues throughout life without any attachment, selfless, without making any distinction between small and big. Staying connected with the common man always got the direction to live my life smoothly, and with a smile on his face, all my dreams came true.

Finally blessing his son, he said that everyone should get a son like Deepak so that the parents can spend their last journey in peace.

The chief guest Dr. Manisha Jain, seeing a glimpse of his vivid personality on the cover of the book, said - 'I remembered his precious thoughts mentioned below a picture of Jain Muni Shri Vidyasagar Ji Maharaj - "The luminous man himself would have illuminated." and illuminates others also.' This same personality of his is visible in his family today in his son Dr. Deepak Kumar Srivastava Sir. The author of the book Neer Ksheer Vivek Ke Dhani is Dr. K. K. Shrivastava has penned down the man of the crowd with great vigor, which is the story of a common man who is immersed in the ocean of pain throughout his life. Its shadow developed in them the art of living their lives with alertness, mastery, and purpose. At the end of the function, Dr. Shashi Jain expressed his gratitude.

A book for religious and tourism lovers MANDIR SANSKRITI; DHARMIK PARYATAN

The book mandir Sanskriti, darmik paryatan, is written by a popular author of Rajasthan and former joint director of information and public deptt, Rajasthan, Dr. Prabhat Kumar Singhal. Since he was 69 years old, PRABHAT KUMAR has been a thinker and follower of several ideas; he has gained name and fame, especially in the zone of tourism. The book has interestingly presented the subject content by dividing it into eight chapters, comprising 142 pages.

The book is based on the temples of India enveloping the birth, development, and extension of several temples/civilization from the ancient era to the modern age. The light has been focused on several different architectural skills of the temples. The journey of the development of temples has been well defined by ineffective language by presenting meaningful and real facts.

Another chapter, along with four major pilgrimages, Badrinath, Rameshwaram, Jagannath Puri, and Dwarka, small four expeditions of Himalayas at Uttarakhand, Badrinath, Kedarnath, Gangotri, and Yamunotri have also been focused on.

Besides it, running since the Sanatan Era, Satpuri Ayodhya, Kashi Varanasi, Mathura, Dwarka, Haridwar, Ujjain, Kanchipuram, and 51 Shakti peeth of Devi have also been highlighted in the book. Along with it, 12 jyotirlingas of Lord Shiva, Kashi Vishwanath, Nageshwar, Somnath, Mahakaleshwar, Omkareshwar, Bheemashankar, Trimbakeshwar, Baijnath, Malaika Arjun, Rameshwaram have also been the major attraction of the book and documented in UNESCO's list as global importance. The introduction of world heritage temples of India has been well defined in the book, which has been a real feast to the eyes of the domestic and foreign lovers of tourism. Since there have been several categories of temples, the utmost important temples of India have been well defined in the book by dividing them into North temples and South temples. The importance of the book lies in the fact that it also vocalists all the stories, places, construction Era, names of founders, historical and geographical surroundings, architectural skills - hidden behind the erection of these Marvels. The book also introduces us to Mr. Anuj Kuchhal, Senior Section Engineer at the center Western railway, Kota, who said how temples have been generating the source of employment in the form of tourism and how they have been increasing social oneness in Indian society. As being impartial, the writer has also given a reference list. The book has been published in an attractive way by VSRD, academic publishing, Mumbai. The cost of the book is fixed at 146 for the common public. It is also available on Amazon and Flipkart.

A Study by Man Matters shows 39.3 % of the men reported having higher sexual stress in India

Sexual health and wellness are defined as a state of physical, emotional, mental, social, and spiritual dimensions in relation to sexuality. Sexual intimacy has always been stigmatized in India and people are not willing to talk about their sexuality openly. Pandemic has not only affected mental health but has also aggravated sexual health problems amongst individuals. One of the primary reasons is increasing stress due to factors such as jobs, work-life balance, financial challenges, lack of socialization and relationship conflicts among others.

But the current scenario and societal mindset are shifting with the opening of the world and the evolution of Digital Health clinics in the country. A recent study by Man Matters has seen the sector has seen 100X demand and a 270% increase in men choosing to consult online doctors to talk about their sexual wellness and health.

Traditionally men don't consult or seek help but when provided with a safe space and access to the right expert they are more willing to consult a doctor/specialist online for a wellness concern

40% of the men reported facing some Sexual health issue in their first experience

22-26 is the age group that has shown increasing awareness and concern for their health and wellness, which earlier used to be a behaviour that would onset in age brackets of 26-30, younger men are becoming more conscious and deliberate about their health and wellness

A sharp spike of 2x each time during lockdown for consultations as anxiety and stress affects the sexual performance

27% of the men reported having higher stress during the pandemic and as a cause of concern to their wellness

Healthier habits are deliberately being built like being conscious about nutritional intake, water consumption as a trend by younger demographics in men
