

World Creativity and innovation day

Friends, this day is celebrated on April 21 worldwide. It started in Toronto of, Canada, on May 25, 2001. M.Sahagal established this day in 1970. United Nations organization spread worldwide on April 17, 2017; that celebration of this day on April 21 every year is essential and valuable for the bright future of all. It aims to encourage people to have new ideas, make recent decisions and exercise creative thinking. The great scientist Einstein once said, "Any nation can develop only when its government pays attention to creativity and innovative thinking." In various functions, artists and innovators are honored on this day.

Are you aware that so many brilliant and talented students migrate to foreign countries every year for their further studies and research? Have you ever thought about why? Some circumstances force them to do so. In these circumstances, we have to inspire new thinking, new ideas, innovation, and new research with a positive attitude which may help them stop in our country. This will have a significant impact on the social and financial issues of the country. When students want to take admission for a new course, the procedure is so complex and lengthy in our country, whereas so easy and short in other countries compared to other countries. It is also costlier in our country. Reasons might be there, but a small change is still necessary for a significant difference.

In these times of great difficulty, these innovations and methodology may prove helpful in treating the wounds of the unemployed and the changed cruel face of today's man.

The creative economy has become an essential tool for the hope of development in the front of unemployment today. According to the business and development conference of the United Nations, Research and studies of changing patterns and circumstances of commodities and services in the business line for 20 years show that the Creative economy is far ahead compared to other industries and businesses. Otherwise, the development and betterment of human life are always related to some innovation in the present technology.

In times of expansionist policy of countries and situations of war, the use of innovation and unique methodology, in the right direction, with good understanding, has become more critical. The only need of the hour is that facilities and technology from innovation should be used positively for the betterment of the new generation and the upliftment of human life. Satisfaction with their boundaries is suggested.

It's also a matter of concern that Corona has impacted activities and thinking patterns related to Innovations in these past two years. As everything stopped in these two years, the progress in compliance with these innovative ideas and new methodology also stopped. Many disturbances occurred during these two years, which prohibited the nation's progress. In this condition, the whole world means all the countries should unite and think about the theme of cooperation for adopting new ideas and technology in different spheres. Because you cannot grow further without new, that means a change in old. Old had its times and limits, so now new is invited with an open heart. For more industrialization and skill development also, newness is necessary. Moreover, change is the fundamental trait of nature. New leaves flourish, and flowers bloom only when the old is gone. Bringing new in place of aging is a sign of life.

Released Multi Color Souvenir of Mahesh Navami Mahotsav-22

Bhilwara: Under the aegis of Srinagar Maheshwari Sabha Bhilwara, the thirteen-day Mahesh Navami Mahotsav-22 will start on May 28.

Speaker Kedar Jagetia informed that the multi-colored souvenir of the Mahesh Navami Festival was duly released at Ram Snehi Vatika. In a 16-page souvenir, a detailed outline of the 13-day program has been given; on the first page, the society is running at the national level. But various beneficial schemes are mentioned; after the release of the souvenir, 5 thousand souvenirs were handed over to their in-charges for distribution in 15 regional Maheshwari Sabhas.

Assembly Minister Atul Rathi said that in the Mahesh Navami festival, the workers who are called the backbone of the society and the workers associated with the land would be brought forward. Radheshyam Chaichani, Prahlad Laddha, Pushkar Maheshwari Sadan Vice President Anil Bangar, Jagdish Kogta, Suresh Birla, Gopal Naraniwal, Madhusudan Bagla, Mahesh Navami Mahotsav co-convenor Rajendra Porwal Pradeep Lathi, Senior Vice President Radheshyam Somani, Om Narayani Wal, Suresh Kacholia, Mahavir Samdani, Govind Narayan Rathi, Shambhu Prasad Kabra, Bharti Baheti Reena Dad, etc. released the closed souvenir.

Mahavir Samdani, vice president and media in charge of the assembly, said that before the celebration of Mahesh Navami, the souvenir would be delivered to the door-to-door of the members of the society, in which various events related to service, dedication, and sacrifice will be organized in the 13-day event.

Twenty-two committees were formed to celebrate. The team was announced by making it the chief in-charge and in-charge of Mahesh Navami Festival 2022; sports competitions, blood donation, competitive examinations for students, MahaAbhishek, Shobha Yatra, creative competition, and mela were specially included. In the meeting organized regarding the preparations for Mahesh Navami Festival, only 15 regional meetings were chaired, ministers and Srinagar Maheshwari Sabha Working Committee members, women and youth organizations, including special invitees, and senior society officials were present.

The one who makes the sinner a god solves the problems, while the pilgrimage - Upadhyaya Praveenrishi

Bhilwara: By our actions, we can attain the highest position in the world, but we cannot become a pilgrimage on the strength of our activities. To become a pilgrimage, one has to destroy karma. The sanskaras of our time immemorial are of kashaya and rage and hatred. If there is a center for forgiveness, truth, non-violence, and the center of becoming a pilgrimage, then only the Supreme Soul is under the guidance of Mahavir Prabhu. These views were expressed by Upadhyay Pravar Praveen Rishi Maharasa while celebrating the foundation day of Mahavir Sansthan staphna diwas on the occasion of Vaishakh Shukla Ekadashi at Shanti Bhawan in Bhilwara on Thursday morning. On this occasion, worship of 2100 samayik was done collectively.

Upadhyay Praveenrishi Masa. Explaining the importance of pilgrimage, he said we have to know who is a pil-

grimage. Tirtha is said to be the place where one gets freedom from problems and entanglements end. The one to whom problems are solved by going to him is a pilgrimage. He who makes the one who comes near him pure is a pilgrimage. He said that one gets the good fortune of becoming a pilgrimage only by the grace of the Tirthankar God. Lord Mahavir was an excellent ruler who made Shrivak-Shrivika a pilgrimage. <

Munishree said that today is the day to become your pilgrimage. If you want to become a pilgrimage, you have to walk under the rule of a Tirthankara. Without becoming a pilgrimage, even Chakravarti does not get a solution. Upadhyay Praveenrishi Masa.

Said that the one who can make a sinner a god is a pilgrimage. When every house member is connected with God, there will be peace in the home. Unless you are associated with a Tirthankara, there

is a disturbance in life. He said that the mind could not exist without body and words. If religion comes on the body, there will be bondage to the mind. If the body is connected with faith today, the reason will also be attached. Giving the message of an addiction-free Jain society, Munishree said that Jains are losing their identity. To maintain their identity and live an addiction-free life, he was also inspired to do marriage and naming ceremonies from Jain tradition. We have to think for society on the founda-

tion day of the Mahavir Government. Every Jain should praise Lord Mahavir. The day you join Lord Mahavir, you will not need to bow down to anyone else.

Maha Sadhvi Madhukanwarji Masa, Muni Teertheshrishi, Sadhvi Pratibhashree Masa, and Sadhvi Chintanshree Masha in the ceremony. He Was also there.

Gautam Nidhi Kalash was also established on this occasion. The purpose of setting up the Gautam Nidhi Kalash

was on behalf of Sangram Singh Aanchaliya. At the end of the program, Prabhavana was distributed by the Lalitji Netaji Babel family. Upadhyay Pravar Praveen Rishiji Maharasa will have a discourse from 9 am to 10 am on Friday at Diwakar Dham on Ajmer Road. There will also be a Gautam Nidhi Kalash establishment program during this time. The operation was conducted by Rajendra Surana, Minister of Shanti Bhavan Srisangh. The President of Shree Sangh, Rajendra, expressed his gratitude. Shanti Jain Mahila Mandal Minister Sarita Pokharna also expressed her views.

Celebrated for the first time but is now celebrated every year -

Upadhyay Pravar Praveen Rishi Masa in the ceremony. Expressing happiness on celebrating the foundation day of the Mahavir government for the first time, they said that this day is of no less importance than

Samvatsari for Jain society. He said that we want this promise from all the associations of Bhilwara that this event was held for the first time but will not be the last. Now it will be celebrated every year. Munishree said that Janam Kalyanak or Diksha Kalyanak did not make a pilgrimage, but the establishment of the Mahavir government made him a pilgrimage. In such a situation, this day is the day of becoming a pilgrimage.

51 lucky winners selected by random draw - On the occasion of Mahavir Government Foundation Day, 2100 mass sharing was also organized. Lucky coupons were provided to those who shared. Based on these coupons, 51 lucky winners were selected by lucky draw. Shree Sangh Shanti Bhavan awarded the winners. Shri Sangh Minister Rajendra Surana announced the winners' names at the end of the function.

Himanshu Patel, who came to small places of Madhya Pradesh from wedding photography, made his name in the world, know how

Himanshu Patel, a company named Epic Story, is doing wedding photography of celebrities and others.

It is said that where there is a will, there is a way. This proverb was translated into reality by Himanshu Patel, a young man coming from Chhatarpur, a small place in Madhya Pradesh, who studied engineering, but wanted to do something else. That's why he took the camera and became a wedding photographer today. Himanshu Patel is doing wedding photography today by living in Mumbai and for this he has also formed his company 'Epic Story'. Now

Himanshu is very famous for wedding photography among other people as well. This is the reason that now he is seen doing photography not only in the country but also in the weddings held abroad also.

Every parent expects their children to do something good. This hope was also from Himanshu Patel to his parents. So Himanshu did his engineering from GSITS Indore, but by the end of the year he felt that his world was in photography. So even after placement, he listened to his heart. Photography was his hobby then, but it later became his profession. Himanshu says

that my father supported me a lot. I convinced my father for my profession. I think you have to be skilled for what you do. Nothing happens just by thinking, you have to work for it.

Himanshu Patel further said that there is a huge difference between professional photography and casual photography. I am photographer. I shoot famous celebrities. But till date I have not taken photography class from anywhere. Just went on learning with his perseverance.

Today people have tools like YouTube, from where they can learn photography. Today there is no need to go to any

school or college. Himanshu said that it is important to follow the impression for good photography. Follow such an impression that you relate to yourself. Regarding phone photography, he said that there should be an understanding of manual photography mode. With basic understanding, you can do better photography than the phone. Good photography does not require an expensive camera.

Let us tell you that Himanshu Patel has done wedding photography of many celebrities like Yuvika Chaudhary, Shweta Tripathi, Prince Narula, Karishma Tanna

and many more international projects are with him, which he is going to shoot abroad. Himanshu says that privacy is most important for a celebrity.

Act professionally in big weddings. Wedding photography does not mean that you have been shooting everything. You should know when to shoot what.

A grand welcome to Supreme Court Judge Maheshwari

Bhilwara: Supreme Court Justice Dinesh Maheshwari was accorded a warm welcome by Shri Maheshwari Samaj Shri Charbhujia Ji Mandir Trust during his stay in Bhilwara. He prayed for peace by paying obeisance to Charbhujia Nath, after which he inquired about all the activities of the temple, and various programs, through the trust of 56 Bhog.

Trust media in-charge Mahavir Samdani said that in the trust office, Udayalal Samdani Minister Chhitarmal Dad gave him a grand welcome by wearing Charbhujia Nath's scarf, shawl with Mewari turban, and Charbhujia Nath's cheer, during which patron Chandra Singh Toshniwal, Vice President Balmukund Rathi, Rampal Lati, Badrilal Dad, Chhitarmal Baheti, Ratan Patwari, Shiv Toshniwal, etc. also gave him a grand welcome by presenting the picture of Charbhujia Nath. Judge Narayan Singh, Mukesh Sharma, etc., were also present with him with the complete protocol.

Revenue Minister distributed scooty to 39 talented girls of the district

Bhilwara: Scooties were distributed to the meritorious girl students of the community under the Indira Priyadarshini Award Scheme during the function organized by Revenue Minister Shri Ramlal Jat at Government Higher Secondary School Subhash Nagar on Friday.

There was happiness on the faces of the girls after getting the scooty. He thanked the state government for the Indira Priyadarshini Award scheme. During this, State Seed Corporation President Shri Dheeraj Gurjar (Minister of State), Sahara MLA Smt. Gayatri Devi and officials of the Education Department were present. On this occasion, Shri Ramlal Jat encouraged the girl child to pursue higher education. Shri Jat told the students about

the importance of education in life. He informed about the continuous efforts being made by the state government to promote girl child education. While wishing the bright future of the meritorious girl students who received the Indira Priyadarshini Award, he talked about moving ahead and bringing laurels to the family, society, and the country. During this, the Revenue Minister also spoke about the budget presented by the state government, keeping in mind the interests of all sections, including farmers and women.

Minister of State Shri Dheeraj Gurjar also encouraged the girl students toward education for continuous progress on this occasion. Taking inspiration from the girl students present, he also asked them to take advantage of the schemes being run by the government to promote girl child education and also thanked the teachers for the better results.

Sahada MLA Smt. Gayatri Devi said that girls should achieve success by reading and writing like this and achieve success.

Former Chairman Om Naraniwal, Chief District Education Officer Brahmaram Chaudhary, and officials of the Education Department were present in the program.

Animal health and vaccination camp organized in Dholikheda

Bhilwara: A one-day animal health and vaccination camp was organized by Krishi Vigyan Kendra, Bhilwara, under National Innovation in Climate Resilient Agriculture (NIKRA) project at village Dholikheda. Dr. C. M. Yadav, senior scientist and president of the center, appealed to the livestock owners to vaccinate a maximum number of animals to keep them healthy. In the camp, 57 cattle owners were benefited from free vaccination and treatment of 460 animals, out of which 265 animals were treated with anthelmintic, 140 animals with external parasites, 185 enterotoxemia in sheep and goats, drug distribution to 245 animals, pregnancy tests in 4 animals in 120 animals.

Vaccines were given to prevent Galghotu and Jaharbad diseases, and 137 animals were treated. Dr. Yadav gave proper guidance to the cattle owners to protect them from heat and told them about the importance of vaccination. Professor K. C. Nagar informed about the improved cropping practices of green fodder production in the rainy season and about sowing and irrigation management of major fodder crops.

Under Dr. Kamlesh Jeenagar, Veterinary Officer, Government Veterinary Hospital, the Romanthi animals were vaccinated and treated. Dr. Jeenagar inspected the health of animals, provided proper medical facilities to increase the production capacity of animals, and distributed medicines to prevent sterility in animals. Veterinarian Dr. Kamlesh Jeenagar and Livestock Assistant Pinki Kumari Khatik were vaccinated in the camp.

Center's Senior Research Fellow Prakash Kumawat said that in the camp, area-specific mineral salts were given to the cattle owners to increase the production capacity of the animals. In the center, the villagers showed eagerness for the treatment and vaccination of their animals.

Administration promptness: 163 child marriages stopped in Bhilwara

Bhilwara: With the timeliness of district administration and district police, child marriages are being continuously curbed in the district. As soon as the information was received, 163 child marriages were stopped in the past due to prompt action.

District Collector Shri Ashish Modi said that it is necessary to bring positive change in the mindset and think of the society to stop child marriage. He said that a child marriage control room was set up in the district office. For effective child marriage prevention, registers were maintained by confectioners, Pandits, band bajas, printing presses, baratis, drummers, pandals and tenters, and transporters. They were directed to submit affidavits against child marriages. According to the report received from all the sub-divisional officers of the district for effective prevention of child marriage until Akshaya Tritiya, 163 child marriages were stopped in the district. Out of these, 159 child marriages were stopped before the wedding, and four child marriages were stopped after reaching the spot. The action was taken under section 13 in 53 cases for not holding back

from doing child marriage, an FIR was lodged in 02 cases, and it was recorded. A maximum of 32 child marriages were stopped in the Bijolia sub-division, 24 in Mandal and 20 in Raipur. Similarly, 15 child marriages were banned in Jahazpur, 13 in Hamirgarh, and 12 in Gulabpura. On April 22, in Amarpura of Gulabpura police station, a case was registered at Gulabpura police station after the marriage of minor girls came to notice. On April 27, an application was made in the ADJ Court by the family of the applicant Pappulal to declare the marriage void.

"We all are ready now – don't rainwater now go waste"

While giving a talk on water conservation at Women's Polytechnic College, Pratapnagar, Water Hero Dr. P.C. Jain, while addressing the topic "Why to save rainwater," the students and teachers that they should not be contacted by the housewives living in many apartments. Dr. Jain wants to share the information received, according to which groundwater is getting degraded due to not saving rainwater, due to which TDS of water is increasing.

- The hair of the head is falling, baldness is increasing
- Many skin diseases are happening, and their quality is deteriorating
- The taps of the houses are getting damaged very quickly, the pipeline gets choked again and again due to freezing of hard water.
- R.O and systems are deteriorating quickly and demanding a lot of maintenance
- Five geysers are deteriorating very quickly, and even toilets are deteriorating, and they have to be replaced in a short time.
- Bone diseases are increasing
- White clothes turn yellow on washing.
- Eight utensils also spoil very quickly
- The streets are getting flooded by rainwater.

He gave the models of taps, pipes, and toilets to Chanchal Gautam, Neha Morya, and Cheri Rathore and told them how all these have become bad and then urged everyone that the solution to all this is only rooftop rainwater harvesting so that any water source can be saved. It can be recharged, and all the above water defects can be avoided. Therefore, before the rain, one should prepare to save rain water by installing a water filter for this. Under this program, in the slogan competition organized on World Earth Day, the first prizes were given to Cheryl Rathore, Nehal Mourya, and Chestha Khatri, the second student at the state level. He thanked everyone.
