

Mohanlal Sukhadia University Receives 'A' Grade from NAAC

Udaipur: In a recent evaluation by the National Assessment and Accreditation Council (NAAC), Mohanlal Sukhadia University (MLSU) has been awarded an 'A' grade. This assessment is a crucial benchmark for universities in terms of their academic and infrastructural standards. However, despite receiving a commendable 'A' grade, the university's Vice-Chancellor, Professor Sunita Mishra, has raised a request for re-evaluation with the aspiration of achieving the coveted 'A Plus' grade.

According to Dr. Kunjan Acharya, the university's spokesperson, a comprehensive

inspection was carried out by a six-member NAAC committee earlier this month.

Subsequently, the university was assigned an 'A' grade with a Cumulative Grade Point

Average (CGPA) of 3.12. While this is a noteworthy achievement, Vice-Chancellor Professor Sunita Mishra believes that the university's performance warrants an 'A Plus' grade.

In light of the minimal difference in scores between 'A' and 'A Plus' grades, Professor Mishra filed an online appeal for re-evaluation on the NAAC portal. The appeal asserts that the university's accomplishments, both in academic and extracurricular domains, justify a reconsideration of the grading.

Professor Mishra has expressed confidence that a re-evaluation will result in the university being awarded the 'A Plus' grade, signifying an even higher level of excellence. The official certificate confirming the 'A' grade is anticipated, and the outcome of the re-evaluation is expected to be announced within the next week. This news underscores the university's commitment to maintaining high academic standards and its pursuit of continuous improvement in various facets of education and administration.

Hindustan Zinc's Integrated Annual Report Clinches Top Honors at LACP Spotlight Awards 2023

Udaipur: Hindustan Zinc, a prominent player in the Zinc, Lead, and Silver business and a Vedanta Group company, has once again achieved recognition at the League of American Communications Professionals (LACP) Spotlight Awards. This marks the company's 4th consecutive win for excellence in reporting. The accolade comes as Hindustan Zinc's Integrated Annual Report, themed 'Achieving More Milestones Chasing New Horizons,' secured a gold award for excellence within its competition class and ranked among the top 3 Indian integrated reports at LACP Spotlight Awards.

The report, reflecting on the historic year of many milestones in FY 2022-23, highlights the company's journey towards new horizons and landmark achievements, including a record 1 million-tonne metal production. The comprehensive report underscores the strategic approach and futuristic vision of Hindustan Zinc, emphasizing sustainability-driven operations, inclusive social and environmental growth, and the buoyant spirit behind its progress. It captures game-changing moments, inspiring stakeholders and setting numerous horizons and milestones for celebration throughout the year.

Hindustan Zinc's report received a remarkable score of 98 out of 100, positioning it among the Top 100 Communication Materials worldwide. The company's success at the LACP Spotlight Awards reinforces its commitment to innovation, investment, efficiencies, diversification, integration, growth, and value creation. The recognition at LACP, a platform aimed at acknowledging exemplary communication capabilities and best-in-class practices, places Hindustan Zinc among the elite group of global Fortune companies.

Approval for Providing Clean Drinking Water to 11 Villages, Including Chitari, Badgi and Galiyakot Covering 6000 Families

Udaipur: A plan to provide clean drinking water to approximately 6000 families in 11 villages, including Chitari, Badgi, and Galiyakot, has received approval. Former Chief Minister Dinesh Khodaniya revealed that during the Congress government's tenure, many villages across the district were included in the drinking water plan. The Congress government has now granted financial approval for the drinking water plan for these 11 villages during the Ganeshotsav festival. Work is set to commence soon.

For a long time, these villages were facing challenges in accessing clean drinking water. They will now be connected to a filtration plant in Silohi, from where clean drinking water will be distributed to households.

Khodaniya mentioned that local representatives and rural residents in these areas had been demanding a drinking water supply for quite some time. A proposal was then made, and it was presented to Chief Minister Ashok Gehlot. In his budget, the Chief Minister had announced the inclusion of these villages in the clean drinking water plan. The entire project is estimated to cost around 23 crore rupees.

Khodaniya further explained that 119 crore rupees are being spent to provide doorstep water supply in the city of Sagwara. In these 11 villages, there will be no water supply issues. To deliver water to these villages, 9 tanks will be constructed at different locations, from where water supply lines spanning 160 kilometers will be laid to ensure clean water reaches every household. The Water Resources Department has already planned this entire project.

Khodaniya stated that the villages being included in the drinking water plan are Chitari, Badgi, Gadarajsarajpur, Parada Mataji, Udaia, Silohi, Bhemia, Galiyakot, Jutlai, Vaniyap, and Navadhara Mataji. Work to provide clean drinking water to Ghatta village, Virat, and Vandarvad is already completed. Additionally, work orders have been issued for Jogpur, Devara Bada, Ambada, and Nakafala villages in the Galiyakot block. Approximately 9 crore rupees will be spent to provide clean drinking water to these areas.

In the Sagwada block, work to deliver water to 10 villages has also begun, costing around 19 crore rupees. Similar plans have been devised for Paderi Badi, Kandula, Vamsa, Bijawada, Dola, Barbodaniya, Kaneila, Decha, and Parada Mehta. In these villages, wells will be dug to provide water to every household.

Ronak Mahendra Wadivala Awarded Ph.D.

Udaipur: Ronak Mahendra Kumar Wadivala has been awarded a Ph.D. for his research on analyzing diabetes data using machine learning algorithms in the field of data mining. Under the guidance of Dr. Neetu Agrawal at Pacific University, Ronak's research extensively utilized machine learning algorithms to analyze diabetes statistics.

The study also delved into the impact of diabetes on professionals, businessmen, students, and homemakers across various domains.

GMCH Hosts Three-Day Laparoscopic Surgery Fellowship Conference

Udaipur:

Geetanjali Medical College and Hospital in Udaipur recently organized a three-day fellowship conference on laparoscopic surgery, commonly known as minimally invasive surgery, conducted by the Department of Surgery. The inaugural ceremony was led by Mr. Ankit Agarwal, the Executive Director of Geetanjali Medical College.

The conference featured lectures and master videos on laparoscopy and endoscopy surgery, delivered by renowned surgeons from across the country. Dr. Ajay Chauhan, the Organizing Chairman, and Dr. Mohit Kumar Badgurjar, the Organizing Secretary, highlighted that delegates from various states and cities actively participated, with approximately 125 surgeons and 50 postgraduates attending the event.

Throughout the conference, experts in laparoscopic surgery, including Dr. F. S. Mehta, Dr. Sangeeta Gupta, Dr. Sanjeev Kumar Tudu, Dr. Sanjeev Agrawal, Dr. Suman Parihar, Dr. J. L. Kumawat, Dr. Kamalkishor Bishnoi, Dr. Mital Patel, Dr. Urmil Labana, and Dr. Parth Bhoot, showcased live surgeries and shared their expertise.

This fellowship conference, organized under the auspices of the Indian Association of Gastrointestinal Endo Surgeons (IGES), headed by Dr. S. Saswanmurti (President) and Dr. Satish Midha (Secretary), aimed to educate surgeons from different regions of India on the latest developments in laparoscopic and endoscopic procedures.

Conclusion of Diabetes Awareness Inter-College Quiz and Rally

Udaipur: On the sixth day of the Diabetes Awareness Week organized by the Medicine Department at Pacific Medical College, a Diabetes Awareness Rally and an Inter-College Quiz Competition were conducted today!

Chief organizer and senior diabetes specialist, Dr. Jagdish Vishnoi, highlighted that a morning rally was organized by PG, MBBS, Dental, and Nursing staff to raise awareness about diabetes among the rural population near the hospital. Dr. Vishnoi commended the successful organization of the rally, giving credit to the dedicated efforts of Dr. Shrawan Meena and Dr. RK Sharma. Quiz masters Dr. Nilesh Patra, Dr. Saurabh Gupta, and Dr. Veerendra Chaudhary explained that as part of this awareness campaign, an inter-college quiz competition was organized to enhance students' curiosity about diabetes and deepen their knowledge through the quiz. In the postgraduate quiz competition, Dr. Shrey Soni, Dr. Atul Gupta from Pacific Medical College, Dr. Neetesh Gurjar from RNT Medical College, and Dr. Divyanshu Gupta from Ananta Medical College secured first, second, and third positions respectively.

Similarly, in the undergraduate quiz competition, Sudhanshu Sharma from Government Medical College Pali, Yashodhan Singh Rajpurohit, Dhvani Gohel, Naman Singhal, and Kartik Banole from PMCH secured the first, second, and third positions.

In the Nursing Staff Quiz Competition, Gaurav Kumawat, Mansi Dangi secured the first position, Lalit Rajpurohit secured the second position, and Harshit Gahlot, Gajendra Patel secured the third position.

Symbol were honored.

Camp Coordinator Jasbir Singh provided insights, mentioning that 410 divyang patients participated in the shivir, out of which 255 received major management for artificial limbs. Additionally, 50 were selected for colapars and 16 for operations. Singh expressed gratitude to the volunteers of the Bhumi Vikas Manch, led by DC Bhandari, for their support.

All divyang participants were provided with free meals and tea-snacks during the shivir. The artificial limbs, termed Narayan Limbs, will be distributed in Kolkata within 45 to 60 days, ensuring high-quality and personalized assistance. Hariprasad Laddha and Mahim Jain were acknowledged for their gratitude display and operational efficiency, respectively.

Dr. Jain Recommends Bhallatak and Lakshminarayan Juice as Optimal Solutions for Dengue

Udaipur: In a noteworthy seminar addressing "Dengue Disease: Causes and Prevention," organized by Ayurveda experts from Udaipur on behalf of the Ayurveda Sahayog Samiti, committee chairman Dr. Babu Shankar Ameta presided over the informative session.

The keynote speaker, Dr. Babulal Jain, former Additional Director of the Ayurveda Department, Udaipur, provided insights into the causes, symptoms, and Ayurvedic treatments for dengue disease. Dr. Jain emphasized the efficacy of Bhallatak, known for inducing sweating, and Lakshmi Narayan Ras, deeming them infallible in preventing dengue. Adding to the discourse, Dr. Manoj Bhatnagar from the committee shared valuable information about the benefits of consuming papaya leaf juice and Ayurvedic branded medicines to replenish platelets during dengue. He also advised the general public to seek medical guidance even in the case of normal fever. The event witnessed contributions from esteemed figures such as Dr. Gunwant Singh Deora, former president of the Rajasthan Ayurveda Medical Officers

Association, Udaipur, and former Deputy Director Dr. Sunderlal Paliwal. Dr. Rajeev Bhatt, Dr. Kailash Sukhwai, Dr. Narendra Mahatma, Dr. Kanhaiyalal Kumawat, and others expressed their perspectives on the successful treatment of dengue through the Ayurvedic medical system. Dr. Advokates Bhallatak and Lakshminarayan Juice for Dengue Prevention

Pradeep Pandey Chintu to Mesmerize Varanasi with 'Fida'

To be smitten means to dedicate oneself wholeheartedly to someone, to be enthralled by them, and it seems that Pradeep Pandey Chintu is all set to be 'Fida' (mesmerized) by Varanasi, starting November 27. Varanasi, with its unique aura, has been a backdrop for many films and books, making it a city that never fails to captivate. Pradeep Pandey Chintu, known for his contributions to Bhojpuri cinema, is soon to make a mark with his love-filled gift in the form of the upcoming film 'Fida.' Directed by Dinakar Kapoor, 'Fida' promises to bring something new to the Bhojpuri film scene. Pradeep Pandey Chintu will play the lead role in this film, adding

another successful venture to his already impressive filmography, including hits like 'Dulhan Chahi Pakistan Se,' 'Vivah,' 'Love Vivah Dot Com,' 'Sasura Bada Satawela,' and 'Nagina.' The musical inauguration of the film took place in Mumbai on the occasion of Vijaydashami, with music direction by Rajkumar Pandey and vocals by Khushboo Jain. The shooting for the film is scheduled to commence on November 27 in the culturally rich city of Varanasi and Samath in Uttar Pradesh.

Vishwas Swaroopam Marks One-Year Anniversary with 10 Million Visitors

In a grand celebration, the Padam Upvan Foundation in Raasraaj, Rajasthan, commemorated the one-year anniversary of the Vishwas Swaroopam, which has captivated nearly 10 million visitors during this time.

The event included a bungee jumping extravaganza at the Ganesha Tekri hills, surrounding the iconic 369-foot Shiva statue. Dignitaries such as Vice President Jagdeep Dhankhar, Lok Sabha Speaker Om Birla, and various VIPs graced the occasion, highlighting the cultural significance of the Vishwas Swaroopam.

Prominent figures from different fields, including Chief Minister Ashok Gehlot, Yoga guru Baba Ramdev, Bollywood singer Kailash Kher, cricketer Venkatesh Iyer, and others, joined the festivities. The event served as a platform for political leaders and dignitaries from across the country to witness the awe-inspiring Vishwas Swaroopam, adding to its growing reputation. The Vishwas Swaroopam, unveiled in 2012 and completed in 2022, saw its official inauguration during a grand ceremony from October 29 to November 6, accompanied by Murari Bapu's Ram Katha. The unprecedented craftsmanship and unique style of the statue garnered praise from eminent personalities.

Apart from becoming a symbol of cultural pride, the world's tallest statue has turned Raasraaj into a flourishing tourism hub, generating employment opportunities. Rajasthan's key leaders and notable figures from the cultural industry have linked this site to prosperity and fame, solidifying its importance in the region.

Narayan Seva Sansthan Organizes Free Artificial Limb Camp, Minister Chakravarti Inaugurates

Udaipur: In a heartwarming initiative, Narayan Seva Sansthan in Udaipur organized a free Narayan Limb Major Management camp, providing artificial limbs to over 300 differently-abled individuals. The inauguration was

done by Bengal's Transport Minister, Snehadish Chakravarti, who expressed deep emotions witnessing the struggles of the handicapped.

The main guest of the event, Minister Chakravarti, commenced the camp with the ceremonial lighting of the lamp. He extended gratitude towards Narayan Seva Sansthan for its commendable service to humanity. Minister Chakravarti, who hails from Bengal, pledged various forms of assistance to the handicapped community in the state. The event began with speeches from Narayan Seva Sansthan spokesperson Bhagwan Prasad Gaur and Relationship Manager Rakesh Sharma. The chief guest, Nandini Bhattacharya, Chairperson of the Bengal Main Forum, along with social workers Ramavdh Jayaswal, Vimal Surana, and Mevadi Pagdi, Dupatta, and
